**Subject:** Complaint about ERU812 pilot at Ormond Beach Airport on July 24, 2025

Consider this email a formal complaint against the pilot (instructor/student) of the aircraft listed below that were not showing any attempt to follow the City of Ormond Beach Voluntary Noise Abatement also in accordance with the portion of Embry Riddle University's flight manual regarding cooperation with noise abatement.

This aircraft was noisy and disruptive to the residents of Tomoka Estates. Please notify me via email of the results of the complaint so I can share with other residents.

Also, I still have not heard a reply on another complaint I emailed on July 7, 2025???
