Noise Complaints Sept. 9 to Sept. 18 (6 days on the log)

I looked up the word incursion and it fits those aircraft that ignore the noise abatement path and I will be referring to them in the future.

Sept. 17, approximately 76 incursions noted on my log.

Sept. 18, approximately 48 incursions noted on my log.

Notables below. Sept. 17 and 18th daytime hours were miserably loud and frequent between airplanes. I was sitting in my living room and as one was overhead and passed, I could hear the next one that just took off and was over the US 1 bridge.. which is .8 of a mile as the crow flies from my house.

Sept. 9, 8:55 N722KC made its 6th pass. Shows registered to Van Anda Aviation LLC 3149 Rock Hill Loop, Apopka FL This aircraft has been using O.B. Airport frequently lately.

Sept. 9, 8:55 N722KC made its 6th pass. Shows registered to Van Anda Aviation LLC

Sept. 16, 1:31 pm Phoenix East Aviation BPX213 made its 6th pass

Sept. 16, 1:57 pm Phoenix East Aviation BPX295 made its 6th pass

NEW: On Sept. 15, 2025, I filed a complaint with **epa.gov ECHO (Enforcement and Compliance Online)** against the City of Ormond Beach Airport because of leaded fuel exhaust over the past 28 years I have lived here and not seen any attempt to reduce the number of flight schools using aircraft with using that type of fuel. I also mentioned that this area they fly over is also in the Tomoka River Preserve and possibly causing damage. My stats indicated approximately 2,601,201 flight counts for the airport between 2005 and 2024. The complaint costs nothing to file and if a resident wants the web site, send me an email.
