Subject: RE: Noise Abatement Complaints July 27 to Aug 7, 2025 , Ormond Beach Airport
Attachments: Log Noise Abatement Complaints July 27 to Aug 7 2025.pdf

Noise Abatement complaints attached starting July 27 through August 7, 2025 attached. Some days in between there was no complaints and aircraft were either using the north/south runway pattern or the west to east for returning to the airport from the north side of the airport.

Last month I made two email complaints directly to Embry Riddle University's two email contacts I have and neither has contacted me. I assume either they are so busy with all their student flights or they have no interest in responding to residents concerns.

Norman Echelberry/1032 Shockney Dr./ Ormond Beach Tomoka Estates

normanechelberry@cfl.rr.com

my personal noise abatement web site:

www.ormondbeach.in **New page added** for residents new to complaining "Dummies Guide to Landing Patterns at O.B. Airport" If any aviation readers think I have it wrong, email me.

Notables:

7-27 - Sunday morning starting at 6:32 am one or two aircraft were flying. Only one went over the house the sound still woke us up at 6:30. See log.

7-27 – ERU869 12:29 pm made its 6th pass over Tomoka Esstates

7-31 – BPX206 (Phoenix East) made its 6th pass over Tomoka Estates

7-31 – ERU815 7:21 pm made its 6th pass over Tomoka Estates

8-2 – BPX267 3:16 pm made it's 6th pass over Tomoka Estates and then headed north

If anyone complaints about a helicopter Aug. 5, Tuesday, it was the State mosquito control aircraft spraying over the Tomoka State Park. It was flying extremely low, which they probably have to do to spray, but the pilot was realty good. Obviously not a student learning.

8-6 – 9:12 am ERU468 made its 5th pass over Tomoka Estates

8-7 – 12:03 pm BPX254 made its 8th pass over Tomoka Estates
