A Sanctuary for Your Clients. A Safe Haven for Your Business.

At Pascoe-Watson, we do things differently.

We believe in Soul Care. We recognise that the chair is often a place where clients unload their emotional baggage, anxieties, and life struggles. We have designed our space intentionally to be a private healing environment: a place where active listening is just as important as a flawless balayage.

We are looking for like-minded, independent stylists who want to step away from the chaos and build their business in an environment of restoration, deep conversation, and mutual respect.
