# Smart Bark Collar +

For Small / Medium Dogs

## 1. IMPORTANT SAFETY INFORMATION.

NOT for  
aggressive dogs!

For dogs over  
6 months

Keep out of reach of children!  
For DOG use only!

DO NOT leave the Bark Collar on  
the dog for more than 12 hours per day!

DO NOT attach an extra  
leash to the Bark Collar!

Beeping Mode

Vibration Mode

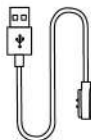

Beeping + Vibration Mode

- DO NOT leave the collar on the dog for more than 12 hours per day.
- When possible, reposition the collar on the dog's neck every 1 to 2 hours.
- Check the fit to prevent excessive pressure; follow the instructions in this manual.
- DO NOT connect an extra leash to the collar, which will cause excessive pressure on the contacts.
- Clean the contact area on your dog's neck and the Metal Prongs of the collar with a damp cloth every week.

## 2. PRODUCT INFORMATION.

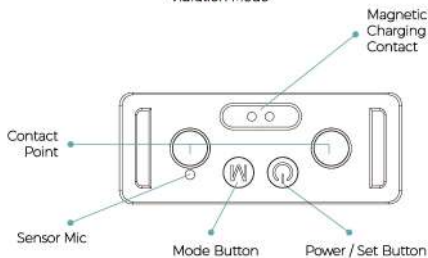

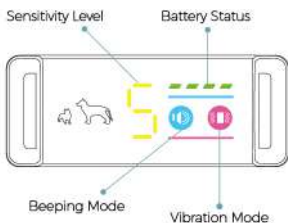

Bark Collar

Magnetic Charging Cable

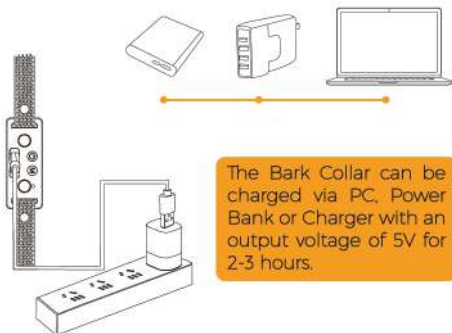

User Manual

### 3. TEST THE BARK COLLAR.

#### 1) Charge the Bark Control Collar before Use

The Bark Collar can be charged via PC, Power Bank or Charger with an output voltage of 5V for 2-3 hours.

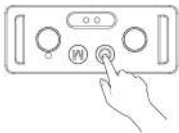

#### Description of Charging:

- When the Bark Collar is on charge, the Battery Bar blinks from left to right.
- When the Bark Collar is fully charged, Battery Bars stop blinking and the Indicator becomes solid.
- If the battery bars blink fast, the battery is low.
-  The collar will beep if it is not charging with a 5V-rated charger.

#### Note:

1. Make sure to use a 5V-rated charger to charge the Bark Collar.
2. Use the charging cable in the package when charging. Other charging cables may not be suitable for this Bark Collar and may cause electric damage.
3. The charger, power bank and other charging devices shown in the above picture are NOT included in the box.

## 2) Power on the Bark Collar

Press and hold the Power Button for 3 seconds to power it on.

The display will turn on with a vibration.

## 3) Set the Bark Collar to Test Mode:

Set the Bark Collar to Test Mode by pressing the Power On/Off Button until the display shows **0**. After that, imitate a dog's bark towards the Sensor Mic located at the back of the Bark Collar.

Sensor Mic

Press the Power On/Off Button to get to the Test Mode, and make sure the digit shows **0** before the test.

#### 4) The Response of the Bark Collar in the Test Mode:

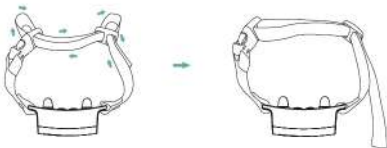

When the Bark Collar is set to the Test Mode, no matter what mode it is in, it will beep and vibrate after you imitate a dog bark towards the Sensor Mic.

If the Bark Collar responds as described above, you've succeeded in setting up the Bark Collar properly.

#### 4. PUT THE BARK COLLAR ON YOUR DOG.

Note: Check carefully if your dog is small!

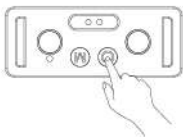

Please ensure that the Bark Collar fits snugly, yet loose enough to allow one finger to fit between the strap and your dog's neck.

Great! Now you have successfully put the Bark Collar on your dog, and it is for training!

## 5. MODE SETTING

The following instructions will guide you on how to switch modes.

1

Power on the Bark Collar by pressing and holding the On/Off Button for 3 seconds.

2

Press the Mode Button to switch modes, the mode icons will be changed.

### 5) Three Main Training Modes:

#### Beeping Mode

The device will deliver a beeping tone after detecting dog bark.

#### Vibration Mode

4 different levels of Vibration in 4 steps.

#### Beeping + Vibration Mode

Beeping + 4 different levels of Vibration working collaboratively in 4 steps.

## 6. INDICATOR & DISPLAY

### Mode Icons

Beeping

Vibration

### Battery Icon

The Battery Bar indicates battery status

### Sensitivity Level

Remains in Step 4 if the dog keeps barking. It will return to Step 1 if the device is activated for 1 minute.

### Icon Description:

Vibration

Beeping

## NOTES:

1) The Bark Collar will go to the next step if your dog keeps barking within 1 minute.

2) The Bark Collar will automatically go back to Step 1 if it is not activated within 1 minute.

## 8. FREQUENTLY ASKED QUESTIONS AND ANSWERS.

**Q: Why doesn't the Bark Collar work when the dog barks?**

A: Please first ensure to fit the Bark Collar snugly, yet loose enough to allow one finger to fit between the strap and your dog's neck. Some dogs have weak barking, and in this case, you will need to increase the sensitivity. A thick coat on the neck area may also have a small chance to decrease the sensing from the barking. Please trim the coat near the area where you place the Bark Collar.

**Q: Why is the Bark Collar sometimes triggered in a noisy environment when the dog isn't barking?**

A: Though we have optimized the barking detection to the best, some environmental noises may have a similar frequency to barking, which may have a small chance to activate the Bark Collar. Please lower the sensitivity level.

**Q: Can I use the Bark Collar when other dogs are playing around?**

A: Dogs will bark when playing and get excited. For the comfort and safety of your dog, we don't suggest using this Bark Collar in such an environment.

## 8. FREQUENTLY ASKED QUESTIONS AND ANSWERS.

**Q: How do I know if I can use this Bark Collar for my dog?**

A: The Bark Collar is designed for healthy dogs over 6 months old. Most importantly, this Bark Collar cannot be used on unhealthy or aggressive dogs, and if you are unsure whether this Bark Collar is appropriate for your dog, please consult your veterinarian or a certified trainer.

**Q: Can this Bark Collar stop my dog's howl?**

A: No, this Bark Collar is designed to detect the barking only. It cannot detect or stop the howling.

**Q: Can I charge this Bark Collar with any type of charger?**

A: No, you are suggested to charge this Bark Collar with a 5V-rated charger, because chargers with output voltage higher than 5V may cause damage to the Bark Collar. The Bark Collar will stop charging automatically if the input voltage becomes too high and emit a beep.

**Q: Will my dog stop barking completely?**

A: The Bark Collar effectively and humanely stops all barking when it is worn. It should only be worn during periods of unwanted barking.

**Q: Is the Bark Collar safe and humane?**

A: Yes. The Bark Collar is designed to get your dog's attention, not to punish your dog.
