

MODDUL 

NEXT GEN MODULAR INNOVATION

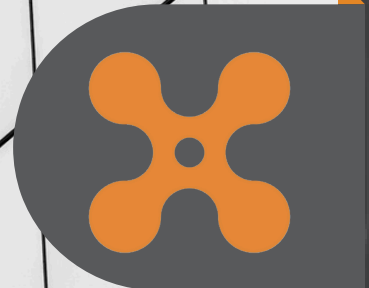

THE

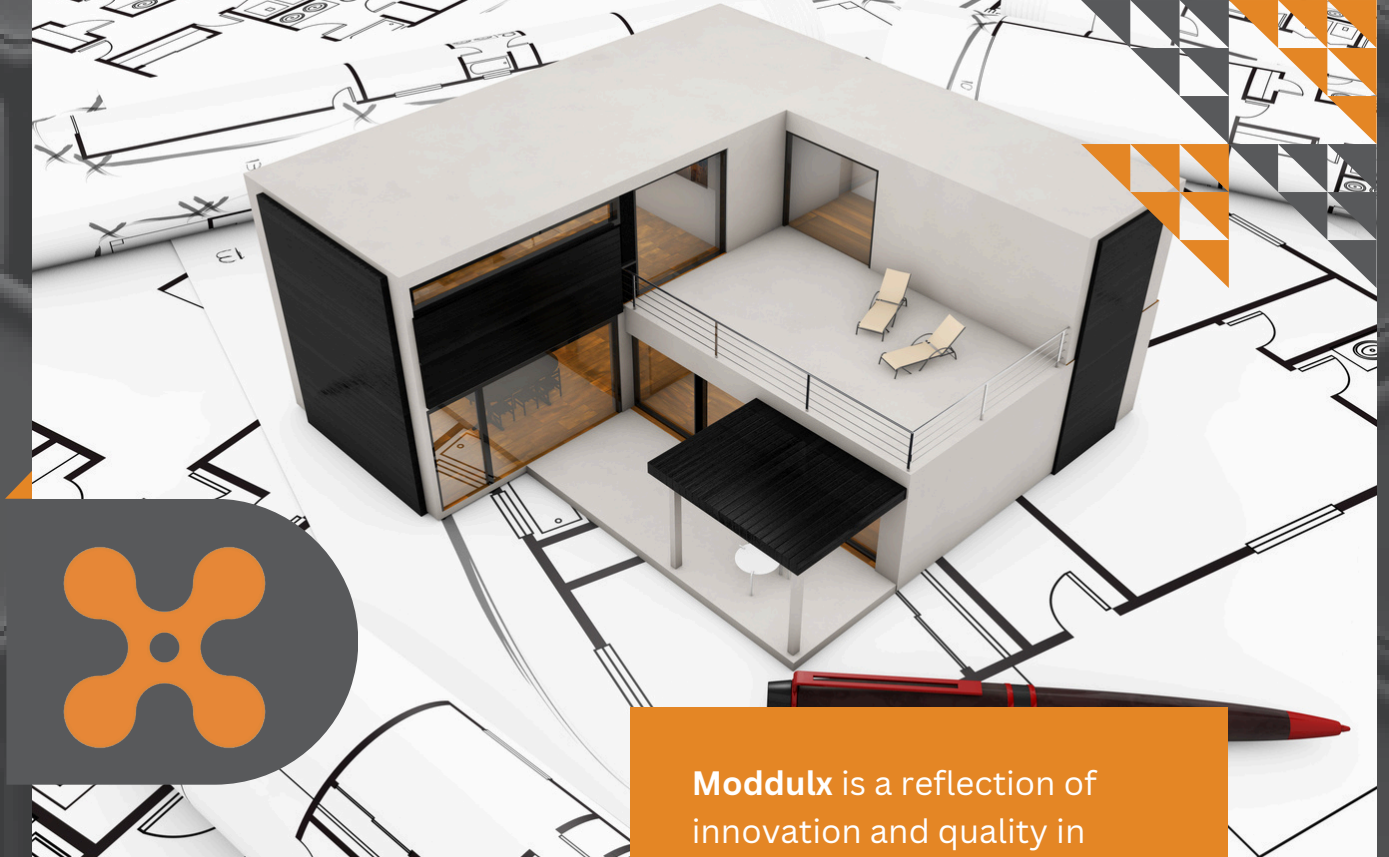

COMPANY

PROFILE

5815 Outer Drive, Unit#300, Tecumseh, ON, Canada - N9G 0C4

ABOUT COMPANY

Moddulg is a reflection of innovation and quality in modular construction solutions. Inspired by the principles of modularity and excellence, the name combines "**Mod**" for modularity with a stylized "**dulg**," evoking durability and luxury.

DRIVEN BY INNOVATION. DEFINED BY QUALITY.

At Moddulg, we manufacture a wide range of high-performance modular panels built to meet the exacting standards of cleanrooms, cold storage, and controlled environments. Our panels are the trusted choice of industries where hygiene, insulation, and durability are non-negotiable.

From pharmaceuticals and food processing to electronics and aerospace — our panels are engineered to support environments that demand the highest levels of control and compliance.

PRODUCT PORTFOLIO

At Moddulx, we specialize in manufacturing a versatile range of modular panels designed to support high-performance environments — from cleanrooms and laboratories to cold storage and architectural facades. Our portfolio reflects precision, durability, and innovation.

PRODUCT PORTFOLIO

Cleanroom Wall Panels

- Anti-microbial, non-combustible and sustainable
- Seamless, non-particle shedding surface
- Easy to clean and disinfect
- Corrosion and chemical resistant
- Compatible with flush-mounted accessories
- Meets ISO and GMP standards

Application: Pharmaceuticals, Biotech, Medical Devices, Semiconductor Facilities

Solar Panels

- Structurally designed to integrate solar panels
- High thermal insulation performance
- Corrosion-resistant materials
- Lightweight and load-bearing
- Easy to install on rooftops or façades

Application: Solar Buildings, Energy-Efficient Rooftops, Hybrid Power Facilities

ACM Panels (Aluminum Composite Panels)

- Lightweight yet structurally rigid
- Weatherproof and UV resistant
- Smooth, modern finish
- Available in various colors and textures
- Fire-retardant core options available

Application: Building Facades, Signage, Office Interiors, Hospitals

PVC Panels

- Waterproof and corrosion-resistant
- Mold and mildew resistant
- Low maintenance, smooth finish
- Quick and easy installation
- Long-lasting durability

Application: Food Processing Units, Warehouses, Wash Bays

PRODUCT PORTFOLIO

HPL Panels(High Pressure laminated)

- Scratch and impact-resistant surface
- Aesthetic finish with color options
- Easy to clean and maintain
- Resistant to chemicals and stains
- Hygienic, anti-bacterial surface options

Application: Hospitals, Laboratories, R&D Centres, Educational Institutes

Pre-Fab Modular Panels

- Factory-assembled for faster site installation
- Consistent quality and finish
- Customizable sizes and configurations
- Reduced labor and project timelines
- Strong and durable structure

Application: Modular Enclosures, Temporary Structures, Quick-Build Facilities

YOUR VISION
OUR PANELS -
PERFECTLY ALIGNED
