

PORTO INVICTA HASH HOUSE HARRIERS

Run # 19 - 11th October 2025

Porto Invicta Hash Trash – Inspired by the 7 Iberian hashes tour

Run 19 was an A2B with A being the Estação de Comboios, with Mark Sex, Whoppa and O Fadolena all cumming by train to find the hare - Swing Low.

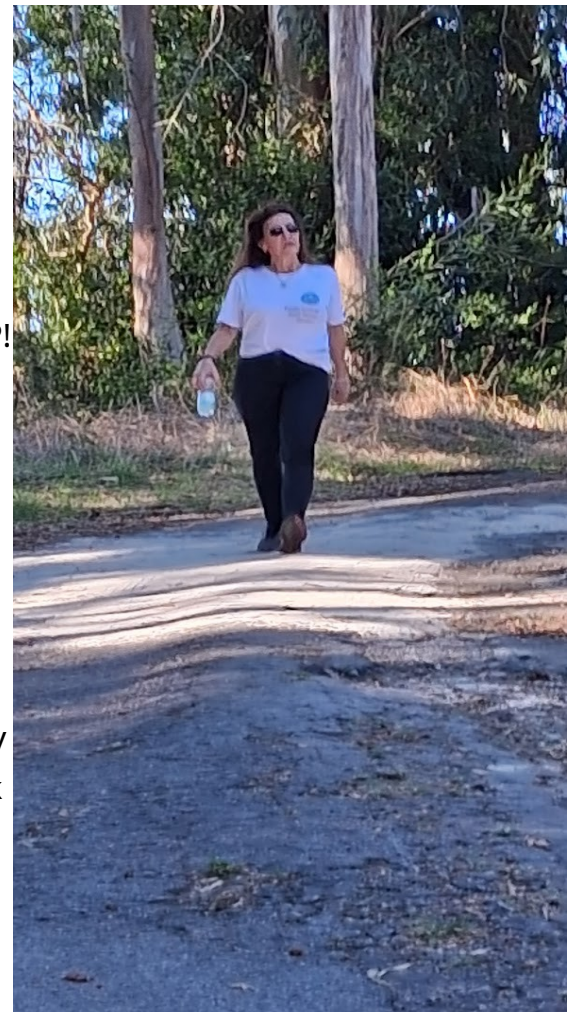

The hare chalk-talked that the markings were simple and obvious, and he was so confident of the clarity of the markings that he would not be hand-holding or sweeping – ~~because he was knackered from setting it.~~

So the pack set off, confidently solving checks as a team, heading inland and into the residential areas.

near the sports center.

Espinho is almost a flat town, so markings of UP! dismayed the pack though it was only a short climb. Our has gardner, botanist ? Whoppa was busy collecting specimens of plants to decorate his new residence, especially along the fine boardwalk

PORTO INVICTA HASH HOUSE HARRIERS

Now at the end of the boardwalk was the perfectly understandable marking shown here. It obviously means turn right and find trail back to the right side of the boardwalk.

However...

Complete misinterpretation of the U arrow, they looked around the sports centre – just because it is there, they stroked around the mini golf course. Was this marking a deliberate misdirection by the hare?

(But MisD'erection was not with us on this run.)

Finally Whoppa found the trail, so close to the boardwalk, generous blobs of flour clearly visible from the boardwalk. (this pack of blind doggies need to be issued white sticks next run) So into the woods, Espinho's Parque de Cidade, wonderfully natural paths with dappled autumn sunlight.

But enough of that – there was trail to follow and Mark Sex was persistent even when she was on ‘alternative/wrong’ trail – all paths lead to the trolls bridge, another rotten wooden crossing deserving no confidence at all.

In the woods the pack found the hare – who had been following trail backwards – he must have had some expectation of the pack getting lost ?

But out of the woods into Silvade Mark Sex took the lead and ran off ahead finding marks to lead her back towards the sea and the attraction of the most prominent upright member.

She was so far ahead she had retrieved the beer bucket bag from a car and chosen the optimal bench for the pack to refresh themselves. Thirsts assuaged and the circle performed - our new Hash song for Invicta hash had a brief tryout - more work needed on that one, we strolled along the waterfront to Uma Espécie de Tasco for an OnOnOn.
