## TUCA'S UNIVERSE

"Tuca, the master cook" brings onto the table a positive view on human relations through Tuca's love for cooking, Pri's countless mischiefs, as well as life around all different people they know and will get to know along the way. The series encourages people's empathy and desire to discover through stories that result in a wider perception of the world.

The dishes made by Tuca are the main aggregating factor between the characters. This love for cooking is represented in its peak by Grandma Maga, a retired cook and adventurer who travels the world and shows in the letters she sends back to her grandchildren, that the world is huge and worth exploring.

The family home is the plot's main location, where Father, Mother, Pri, Tuca and Cashew (the dog) live. Tuca lives in the kitchen for the most part, a welcoming and heart warming place.
