

AGRICULTURAL PRODUCTS

Hebron Holdings is a leading company in research, development, production, promotion, and commercialization of high-quality products. Our mission is to transform natural resources into innovative products that meet the highest international standards.

SUGAR

PRESENTATION SUPPLY CHAIN PHILOSOPHY:

We supply high-quality sugar for various uses, ensuring international standards and compliance with regulations.

Types of Sugar Available:

- ICUMSA 45 Sugar
- ICUMSA 150 Sugar
- ICUMSA VHP 600-1200 Sugar
- Organic A-400 Sugar
- Organic A-600 Sugar

Minimum Order Quantities:

- Minimum Order: 100 metric tons (MT) in containers.
- Spot Availability: 12,500 MT.
- Annual Contracts: Minimum 150,000 MT in 12 monthly shipments
- of 100,000 MT each.

Additional Details:

- ICUMSA 150 White Cane Sugar: Multiples of 12,500 MT or in containers.
- ICUMSA 600/1200 VHP Cane Sugar: Multiples of 12,500 MT or in containers.

SOYBEANS

GMO SOYBEANS:

GMO soybeans are an important source of protein, composed of 44% soy. They are primarily used to feed farm animals and represent two-thirds of the world's total protein feed production.

Characteristics:

- Nutritional Value: High protein content (47–49% in high-protein meals).
- Processes: Soybean oil extraction, resulting in meals with varying protein and fiber levels.
- Residual Oil: Less than 2% in solvent-extracted meals and more than 3% in mechanically extracted meals.

Primary Uses:

- Animal feed (poultry, pigs, cattle).
- Soybean meal for human consumption.

REFINED OILS

BUSINESS PHILOSOPHY:

We strive to establish long-lasting and beneficial relationships with our clients, offering high-quality products that meet international standards.

Types of Oils Available:

- Refined Sunflower Oil
- Refined Soybean Oil
- Refined Rapeseed Oil
- Refined Corn Oil
- Crude Sunflower Oil
- Crude Soybean Oil
- Crude Rapeseed Oil
- Crude Corn Oil
-

Specifications:

- Suitable for human consumption.
- Compliant with international standards.

RICE

AVAILABLE PRODUCT:

White Rice:

Technical Specifications:

- Minimum Protein: 80%
- Maximum Fat: 2.5%
- Maximum Moisture: 12.0%
- Maximum Foreign Matter: 2.0%
- Aflatoxin: Complies with maximum allowed limits.

Parboiled Rice:

- Natural process that retains nutrients.
- High in carbohydrates, B vitamins, and fiber.
- Does not require washing or sorting.
-

Nutritional Information (Parboiled Rice):

- Energy Value: 169 kcal (8%)
- Carbohydrates: 39 g (13%)
- Proteins: 3.3 g (4%)
- Dietary Fiber: 1.7 g (7%)
- Sodium: 0 mg (0%)°

YELLOW CORN

PRIMARY USE:

Human and animal consumption.

Production Cycle:

1. Market analysis and agricultural planning.
2. Cultivation and harvest (June and July).
3. Storage and processing (cleaning, drying, and dispatch).

Final Uses:

- Main component in feed for poultry, pigs, and cattle.
- Direct use in human diet (flours, oils, sweeteners, pasta, cookies).

AÇAÍ

AVAILABLE PRODUCTS:

Frozen Açaí (Pure or as an Ingredient)

Traditional Açaí

Presentations:

- Net Weight: 6 kg (13.22 lbs).
- Foodservice Pack: 60 packs x 100 g (3.5 oz).
- Retail Pack: 15 bags x 400 g (14.1 oz).
-

Characteristics:

- No added sugars, artificial preservatives, or trans fats.
- Rich in antioxidants, fiber, and nutrients.
