

# AGRICULTURAL PRODUCTS

Hebron Holdings is a leading company in research, development, production, promotion, and commercialization of high-quality products. Our mission is to transform natural resources into innovative products that meet the highest international standards.

# SUGAR ICUMSA 45

## ICUMSA 45 Sugar Specifications

Purity: Minimum Polarization of 99.80°.

Appearance: Sparkling white color, dry and free-flowing.

Granulation: Fine Standard.

Moisture and Ash: Maximum 0.04% each.

Microbiological Quality: Free of pathogens (Salmonella, Staphylococcus aureus, Bacillus).

Heavy Metals: Strict limits for Arsenic (1 ppm), Copper (3 ppm), and Lead (2 ppm).

Pesticide Traces: Specific limits for DDT (0.005 mg/kg) and others.

Others: 100% solubility, free of odors and sediments. Radiation (Cesium/Iodine) and SO<sub>2</sub> Certificate.

# SUGAR VHP 600/1200

## VHP 600/1200 Sugar Specifications

Purity: Minimum Polarization of 99.70° (Very High).

Appearance: White, odorless crystals.

Granulation: 600 to 1200 microns.

Moisture and Ash: Typically < 0.04% and < 0.04% respectively (reference values, subject to lot specification).

Microbiological Quality: Complies with microbiological limits for food products.

Heavy Metals: Below the maximum permitted limits for human consumption.

Pesticide Traces: Complies with international MRLs (Maximum Residue Limits).

Others: High solubility in water. Stable at standard temperatures.

# SOYBEAN MEAL

## QUALITY SPECIFICATION: SOYBEAN MEAL FROM BRAZIL

Moisture: Max. 12.00%

Protein: Min. 46.00%

Fat: Max. 1.0%

Fiber: Max. 3.25%

Sand & Silica: Max. 2.50%

Ash: Max. 6.5%

Urease Activity: 0.05 to 0.30 mg N/g at 30°C

Aflatoxin: Max. 20 ppb

Appearance & Texture: Homogeneous, free-flowing, no lumps or cakes, not dusty.

Contaminants: Free of urea and ammonia.

# YELLOW CORN GMO

## QUALITY PARAMETERS:

Moisture: 13% Maximum

Damaged Kernels (including insect damaged): Max 3%

Foreign Matter: Max 3%

Other Grains: Max 2%

Broken Kernels: Max 3%

Aflatoxin: 20 PPB Maximum

Admixture: 2.00% Maximum

Test Weight: Minimum 70 lbs per bushel

Radiation: Normal levels

# RICE RICE GRADE 1

## Rice Grade 1 Specifications

Type: White Rice Grade 1 (Type 1)

Moisture: Up to 12.0%

Broken Grains: Max. 4.0%

Cracked Grains: Max. 0.5%

Mycotoxins: Absent

Grain Quality: Free from moldy, burnt, and black grains.

Foreign Matter and Impurities: Absent

# BASMATI RICE

## **RAW BASMATI RICE (PREMIUM GRADE)**

- Long grain (7.0mm+ basmati standard) | White color | Non-parboiled
- Strong natural aroma | Soft, fluffy texture after cooking
- Best for: Home use, gourmet retail, traditional dishes
- Export quality | APEDA registered | Fumigation certificate available

## **IR-64 LONG GRAIN PARBOILED RICE (GOLDEN)**

- Long grain (5.9-6.0mm) | Golden yellow color | Parboiled process
- Firm, non-sticky texture | High nutrient retention
- Ideal for: Catering, buffets, export markets
- 100% Sortex cleaned | Broken: 2-5% max | Moisture: 14% max.
