ADS are actually universal content. Once we establish a palette of images and words, it becomes a cake walk to then repurpose them into different sizes or items... e.g. social media postings, posters, postcards, powerpoint slides, etc. Those ads above with the four women are a perfect example of that dynamic.

Banners

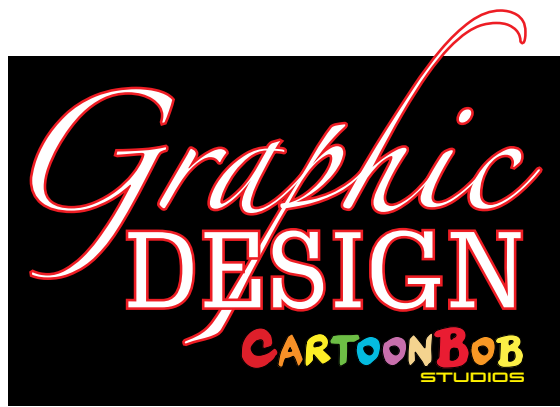

Banners... We've done them 25 feet wide for trade shows, or only a few inches wide for websites. Same design principles apply. Simple, clear, attractive, and memorable.

Capmist DM #30 is the only TRIPLE COMBINATION tablet available.

For full relief of all your patient's symptoms. Will you prescribe Capmist DM #30 today?

Capital Pharmaceutical is an Ohio based, family owned company. Our principal, Sean Crawford, says "After working in the pharmaceutical industry for over 10 years carrying cough and cold products, I've personally seen the need for effective and affordable medications. And when the majority of cough & cold medications were pulled off the market and replaced by expensive alternatives, I saw a need for something unique in this industry - Common Sense!

So we brought Capmist DM to market to treat all of a patient's cough and cold needs at a low price - even lower than most generic co-pays.

Capmist DM is also an all-American product manufactured in Colorado. At Capital Pharmaceutical we have a sense of pride in our country and taking care of our community. It is our goal to bring products back to a depleted market of prices that everyone can afford. If you share our beliefs and values - we ask that you give us a chance to make a difference and bring back some common sense to an industry that could use it. With your help, Capmist DM will be the first of many products to come. For you and your patients.

Our goal is to provide outstanding service to local physicians and affordable medications for their patients, our neighbors.

Illustration Work

Move over A.I. There are some severe limits to what A.I. can do when trying to be a seasoned illustrator like me. These are only a very few examples of some of the very specific illustrations I've done over the years for clients.

Logos

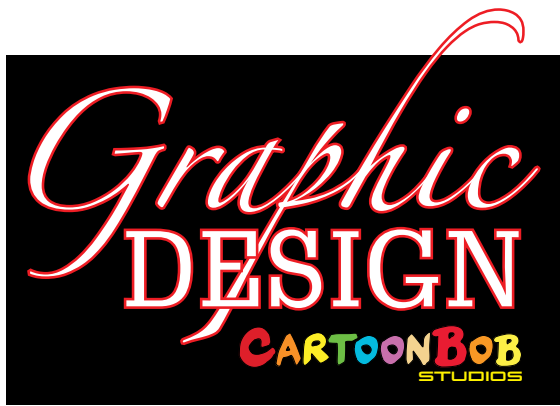

Your LOGO is your face in the business world. We take great care to get a true sense of exactly what your place in that world is, and put together roughs for you to review and discuss with us.

That's our creative process with designing a logo. Sometimes we hit 'a hole in one' and present a very viable logo design right away, and often it takes some back-and-forth development to arrive at your perfect face to present in the business world.

A Word About Using A.I. As An Artist

If you can describe and get a graphic you need using A.I.... then more power to you.

Much the same way the home computer and desktop publishing carved a new landscape for many graphics companies... e.g. typesetters, photo engravers, etc.... the newer kid on the graphics block is the ARTIFICIAL INTELLIGENCE ARTIST.

We actually use A.I. to research images that we look at to base an illustration on. It used to be just look through the stock photo sources online, but A.I. has put some of them out to pasture.

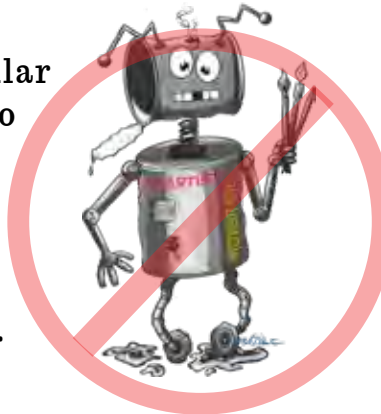

(e.g. if we needed to draw a TigerMoth plane... we'd need to see one to draw it correctly.

Same for many other things.

We CREATE beyond the limits of A.I.
There are more than just NUANCES that all contribute to a powerful illustration or cartoon. Facial expressions, body language,
