DIRHAM MESSAGE	15

ABOUT US BRIEFOVERVIEW

Established in 2024, Dirham Pharmaceutical Corporation, Dirham Scientific Bureau, provides a range of health care solutions, importing products from our global partners and distributing them to our dear clients all over Iraq.

Dirham has developed a reputation for excellence and has rapidly grown as a supplier in Iraq and now Dirham markets and its products in 19 provinces with a simple aim: the pursuit of uncompromising quality.

FACILITIES EMPOWERING

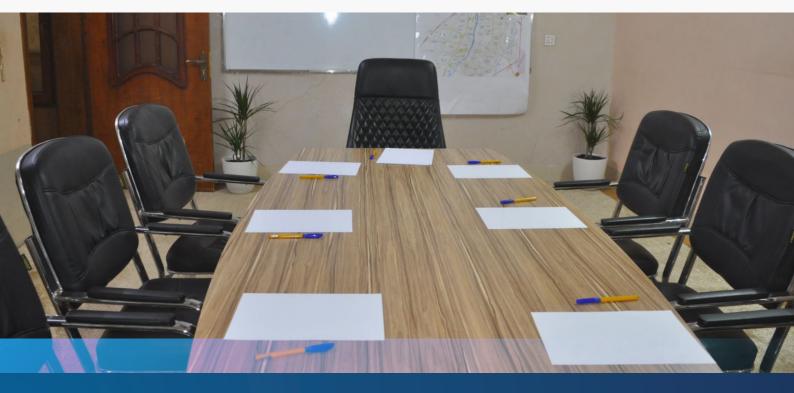

We are supply a competitive prices with minimum and maximum quantity, according to the requirements of the customers.

We are capable of fulfilling the urgent and bulk requirements of the clients in the best possible manner.

We distribute our products almost all over Iraqi provinces in both sectors, government and private.

We are importing from well-known leaders, pharmaceutical manufacturers, supplying, distributing, wholesaling, retailing, and trading pharmaceutical products, medical products, and medical devices.

We are among the leading industries engaged in importing and supplying a quality-assured range of pharmaceutical products to our clients. Furthermore, we strive to make these products available to the customers (government and private) at suitable prices in the market within stipulated time frame, in order stand efficiently by expectations.

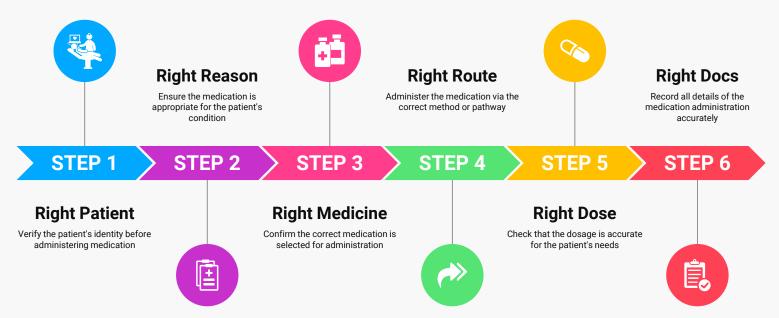

STRATEGY

BLUEPRINT FOR THE FUTURE

Today, we are striving to become a top pharmaceutical scientific company that is trusted and supported by our partners. We intend to do much more for the benefit of the medical community and human health.

We seek a place beyond imagination where fertile soil nourishes seeds of change. We pursue talent and technology beyond cultural and national boundaries, disrupting common paradigms. And if there are a million people with the same disease, we'll find a million individual ways to treat them. Together with the medical community, we strive to deliver hope and relief to those who suffer.

Across our country, home to 42 million people, we're finding new treatments for today, for tomorrow, for the future of human care. And, when the world says there's no cure, we don't surrender until we find one.

DISTRIBUTION & LOGISTICS

NAVIGATING NETWORKS

Disham is operating one of the best equipped and state of the art logistics buildings of 2,000 sqm in Erbil, Mosul, Suliamaniah, Kirkuk and Baghdad, including freeze conditions. Disham has been undertaking distribution deals and contracts for large-scale clients and local firms.

A full set of services (such as logistics management, distribution, sticker labeling, warehousing, orders management, transactions, payment collection, accounting support, customized transport and drug stores hubs) guarantees the client's satisfaction. Regular inspections from standards firms certify the quality of installations, the procedures and the development of an excellent experience over the years.

COLD CHAIN MANAGEMENT CHILLED FOR LIFE

Certain life-saving medicine needs to be kept at a constant temperature between +2°C and +8°C. Our cold chain management ensures that the materials are in the designated temperature range.

OUR MISSION PURPOSE WITH PASSION

Dirham's mission is to dedicate itself to adding exceptional value through the distribution of innovative medical products and services for the benefit of the medical community and human health.

To provide quality-assured, outcome-based healthcare and well-being to our community in collaboration with clients, staff, and partners.
