

BACKGROUND

If we looked at MOHANOKOR Regime, Cambodia was a reputed and great country on the fields of economy, society; especially, culture, tradition, Buddhism, Brahmanism as the civilized country ever been great since the primitive era as always had heroes, ancestors, great kings, royal kings Buddhist Bodhisattva having bound the personal biography at each era with the evidence on the rocky inscription, great wall such as: Theory, alphabet, letter, conception, memory, basic stances together with restoring and building the infrastructures for the next Khmer generations until the present.

As particular, culture, tradition and Buddhism sectors were established many worship areas in that era as the wide-range of heaven, place on the heavenly mountain, great state has taken the rocky slab to create as good-look and beautiful temples and the premises for residing of the previous heroic kings and the people had always been proud of and supported with the exact relief and originated with the smile via the construction of style carving out on the body of great temple at all sides of the temples always showing the history of the Khmer descendant as KHEMARAK descendant with the attitude of humility, non-invaded mind and invasion to all other countries or creating any greedy and opposed group to kill any race and religion.

Previous era of Cambodian country has a wide-range of land areas on a big part of the territory and full of gold, silver, precious metal ores as other countries called SOVANNAPHUM promontory in that era.

But it should be regret due to the loss of religious relief, environmental pollution in the society from the foreign expatriates and unreliability between each other causing to loss the properties on the territory until the present without having any remarkable evidence. Moreover, Kampuchea Democratic Regime called POL POT regime has destroyed all everything from uproot to the leaf top, infrastructure of society has fully destroyed, the people have migrated and killed, religion has fully destroyed. Fortunately, due to the 2 Thnou National Liberation Front Line led by three Samdech having toppled the genocidal regime with overcoming as the historical success on the date of January 07th, 1979. After the liberation day January 07th, 1979, everything have re-survived from nothing to have the social infrastructure together with the empire and Buddhism religion having advanced as mushroom; in 1993, the national unity movement led by UNTAC having designated the 2nd Kingdom of Cambodia under the national motto “**Nation Religion King**”.
