# *Fashion Industry*

One of the key objectives of ENTREP FASHION project is empowering migrant women in the fashion industry through an innovative entrepreneurial education program that equips them with essential skills and knowledge in textiles and fashion.

Knowledge SharePoint Session provided insights into the latest trends impacting our industry. We wrapped up with a robust discussion on the Entrepreneurial Concept 'MADE TO ORDER', where we outlined strategies to refine our approach.

**27.06.2024** We are pleased to announce the completion of the online surveys and data analysis phase for the Blended Training and Work-Based Entrepreneurial Education Program for Migrant Women in the Fashion Industry.
