## XIII International Workshop on Nonlinear Elasticity in Materials

June 23-27, 2008

The 13th International Conference on Nonlinear Elasticity in Materials will be held from June 23 to 27, 2008, in Aix en Provence (France) at the IUT Aix-Provence.

The annual conference provides the means for a core group of researchers worldwide to meet, exchange information, and plan the next year's research. All researchers in the field of nonlinear elasticity are encouraged to attend. The conference is designed to stimulate interactions among researchers in nonlinear elasticity. In the morning sessions, researchers present their research findings while the afternoon sessions are aimed at exchanging information, data, and ideas.

## Schedule

The conference is held from Monday (06/23) to Friday (06/27). If you have some interest in Science of Nonlinear Elasticity applied to Geomechanics, Aeronautics, or Nuclear, you are invited to submit an abstract.

## Topics

- Basic research in geomaterials and other solids: Physical origin, nonlinear behaviour, inovant technics and technology, modelling...
- Industrial applications : Non destructive testing, diagnostic, instrumentation, data processing, imaging...

A round-table will close every topic dedicated to prospecting strategic directions for research in nonlinear elasticity and to investigating support future collaborations and projects.

A poster session will be organized.

The final program will be posted by the end of May.

## Abstract Submission & Author Tips

Abstracts should be submitted as a PDF by May 2 and should include a title and a summary of no more than one page using [this template](#). The name of the pdf file have to be *abstract\_icnem\_yourname*. Indicate if you prefer a presentation or a poster. A confirmation e-mail will be sent.

Abstracts and articles can be published (optional) by ASA, in Proceedings of Meetings on Acoustics (POMA) section. This year, papers will be published because the logistics are now in place. For more details, see the [POMA](#). Posted abstracts will be available online.

## Accomodations

To benefit from preferential tariffs, the [hotel reservation form](#) should be sent back before the 9th of May, 2008. After this date, no guarantee can be made. Please contact the Hotel Booking Service at your earliest convenience to book your hotel or for any complementary information.

## Tourism

Town of water, town of art. Everyone knows that Aix was built and has developed around this dual identity, but the town also knows how to be open. Open to the world, it is a city of human dimension where the preserved heritage and the city of tomorrow blend perfectly. Here, all is color, blue sky, the golden stone of the facades, the transparent green of the fountains, the shade of the plane trees, surprises held by the festival nights and a warm welcome.

## Transportation

**Venue** - IUT Aix Provence, 413, Avenue Gaston Berger, 13625 Aix-en-Provence, Cedex 1, FRANCE

**Air** - From Marseille Provence airport, shuttle buses join Aix town center every 30 minutes.

**TGV** - From Aix TGV station, Shuttle buses join Aix town center every 30 minutes.

## Car

From Nice by A8, exit n°31 "Aix les trois Sautets".

From les Alpes, or Marseille by A51, follow NICE direction, join A8, then exit n°30 "Pont de l'arc".

From Lyon by A8, exit n°30 "Pont de l'arc"
