

22nd International Conference on Nonlinear Elasticity in May 28 - June 3, 2017 Cargèse, Corsica

ICNEM '17 - CARGESE, CORSICA

ICNEM '17 Poster Winners

Congratulations to the three winners of the poster competition held during the ICNEM'17 conference!

1st place (300 Euros): Maxime Harazi - Time Reversal of Ultrasound in Granular Media

2nd place (150 Euros): Ariana Astorga - Evidence of Nonlinear Elastic Behavior in Buildings

3rd place (100 Euros): Harold Berjamin - A 3D Model of Nonlinear Elasticity, Hysteresis, and Nonequilibrium Dynamics

Welcome

The 22nd annual International Conference on Nonlinear Elasticity in Materials (ICNEM) will be held in Cargèse, Corsica (France) May 28 - June 3, 2017, on the west coast of the island of Corsica ([Wikipedia](#) | [YouTube](#)). The conference center, the [Institut d'Études Scientifiques de Cargèse](#) (INSTITUT D'ÉTUDES SCIENTIFIQUES DE CARGÈSE, France - Phone: +33 (0)4 95 26 80 40), provides a relaxing and enjoyable environment that optimizes fruitful scientific interactions. The center is located on the beach and within walking distance from Cargèse - 20 minutes via the main road or 15 minutes via a goat path.

The Institute is hosting the [EGRIN summer school](#) the same week with a joint ICNEM/EGRIN session organized on the afternoon of May 29. The [EGRIN summer school](#), hosted by the University of Grenoble, will be held the following week.

We expect approximately 45 participants with a good blend of students, post-docs, junior scientists, and more renowned ones. This should be a great opportunity forward to seeing you all in Cargese this summer!

Best regards,

Marcel Remillieux & Paul Johnson

Invited Presentations

In addition to regular presentations, there will be a number of invited speakers giving longer ~50 min presentations on special topics of interest.

- *Nonlinearity in Unconsolidated Granular Materials* - Xiaoping Jia, Professor, Institut Langevin, University Paris-Est Marne-la-Vallée, France
- *Ambient Noise Imaging* - Michel Campillo, Professor, Institut des Sciences de la Terre, University Joseph Fourier, France
- *Nonlinear Nondestructive Testing and Evaluation* - Laurence J. Jacobs, Professor, Georgia Institute of Technology, USA
- *Numerical Modeling of Nonlinear Elasticity* - Bruno Lombard, Research Scientist, Laboratory of Mechanics and Acoustics, CNRS, France
- *Nonlinearity Associated with Damage in Faults* - Yehuda Ben Zion, Professor, University of Southern California, USA
- *Nonlinear Phasing and Dephasing of Three Wave Mixing of Stoneley Waves* - David L. Johnson, Retired Research Scientist, Schlumberger, USA

Abstracts / Program

- [ICNEM '17 Conference Program \(V 5.24\)](#)
- [ICNEM '17 Abstracts Book \(V 5.24\)](#)

Poster Sessions

Poster sessions will be held from 2:00 to 3:00 PM on Tuesday (5/30), Thursday (6/01), & Friday (6/02). Presenters are expected to attend their own poster sessions. There will be a poster competition and three winners will be awarded for the three best poster presentations.

Update - Congratulations to the three winners of the poster competition held during the ICNEM'17 conference!

- 1st place (300 Euros): Maxime Harazi - Time Reversal of Ultrasound in Granular Media
- 2nd place (150 Euros): Ariana Astorga - Evidence of Nonlinear Elastic Behavior in Buildings
- 3rd place (100 Euros): Harold Benjamin - A 3D Model of Nonlinear Elasticity, Hysteresis, and Nonequilibrium Dynamics

Registration / Reservations

Registration follows a two-step process - abstract submission + actual registration. (See our [registration PDF file](#). The deadline for abstract submission is May 12th.

First create an account on the our [registration site](#). Once abstracts have been reviewed and the selection process is completed, you will receive an email with the second step of the process - registration fees, lodging preferences, food preferences, etc. The deadline for this second step was May 12th.

Once you log into the [ICNEM/IESC website](#), you will have access to the registration form. The *Accommodation* options include A) room in a hotel, B) room at the institute, or D) or I don't need accommodation. One may choose from a single or shared room.

If you opt to stay in a hotel or make your own lodging arrangements, the registration fee is €700. If you stay in a shared room at the institute, the registration fee is €890.

If you select the “without lodging” option, the registration fee is reduced to €700, but you are responsible for your lodging. If you select the “with lodging” option, the registration fee is €890.

room(s) for you in town according to your preferences which you can specify in the “Details” box.

We ask that all students and post-docs stay in shared rooms. Cargese is a small village. Space is very limited, even more because we are having a conference the same week. If you decide to make your own reservation and Cargese is fully booked, Sagone, a larger town is about 15 minutes drive from Ajaccio. Sagone has more hotels and lodging opportunities. The drive between Sagone and Cargese is not unpleasant at all.

The €890 registration fee includes...

- a) shared or single room at IESC or in an apartment in Cargèse (depending on availability) from Sunday (May 28th) to Saturday (June, 3rd)
- b) aperitif-style welcome reception on Monday (May 29) evening,
- c) conference lunches,
- d) coffee breaks,
- e) breakfasts (If staying at IESC, breakfast will be served there. If at a downtown apartment, breakfast will be served at a café/bar.),
- f) evening diner Thursday (June 1) at the **Casablanca** beach restaurant in Piana (for shared rooms and single rooms only), and
- g) round-trip bus transportation from Ajaccio airport to Cargèse.

Please chose the appropriate fee according to what you specified in your registration form. For more information, see our registration [page](#)

Transportation / Visiting Corsica

It is recommended to travel to Cargèse through the nearest airport or harbor located in Ajaccio. Scenic routes through Calvi or Bastia allow for longer drive times. Average drive times from main towns/airports are as follows...

Ajaccio – Cargèse: 50 km / 31 mi / 1.5 hr

Bastia – Cargèse: 154 km / 95 mi / 3.15 hr

Calvi – Cargèse: 104 km / 64 mi / 2.5 hr

ICNEM Shuttle - Free organized bus shuttles for ICNEM participants will be provided from Ajaccio to Cargese on Sunday, May 28 and from Bastia to Cargese on Monday, May 29.
