6	Synth DI	14		22		30	
7	OH drums	15		23		31	
8	Bass Drum	16		24		32	

NOTES

We use in-ear monitors, we feed all signal DI through our IEM mixer to the front of the house. We mix our own monitoring levels. House gets unaffected direct sound from all vocals and instruments. Guitar and Bass amps are used for a bit of stage volume. Drummer doesn't use IEMs, we provide him with a mixed signal through a powered wedge.
