

Beauty Grows Wild

BULK WEDDING FLOWERS GUIDE

www.beautygrowswild.com

WELCOME

Hello!

Thank you so much for your interest in Beauty Grows Wild flowers.

One of the questions I receive the most about DIY flower packages is "how many buckets do I need?" This guide will help you to dial in exactly what you need and hopefully alleviate the stress and unknowns.

DIY packages are an excellent choice for those who have friends or family willing to help with arrangements as well as day of setup.

Choosing local means you get the freshest possible flowers, they smell amazing and the varieties are unique and gorgeous.

Thank you for supporting local and I can't wait to work with you!

XOXO

-Emily

THE PROCESS

Review this guide

- 01** Please read through this entire guide. We ask that you submit your request for event flowers at least two weeks before your event. The sooner you submit your request, the better! We only take so many per week throughout growing season.

Create a list of the type of arrangements you want to create

- 02** **and quantities of each**
In the following pages, you will find stem count guidelines. Use these as a general guide to determine how many stems you will need. This will help you order the correct number of buckets.

Submit your order form

- 03** On our website, you will find the DIY bucket order form. Submit this information as early as you can. Within a week of receiving this information, we will reach out to you with confirmation that your date is available along with an invoice and contract.

Final check in

- 04** One month prior to your event, Beauty Grows Wild will check in via email and lock in the pick up details for your flowers. Flowers must be picked up in an air conditioned SUV, NO pick up trucks.

Final payment due

- 05** 30 days before your event, your remaining balance is due. At this time if there are any minor changes or additions you'd like to make, please let us know.

The fun begins!

- 06** Your flowers will be prepped and ready in buckets of water when you come to pick them up. Please be sure to store them in a cool location until you are ready to use them and top off the buckets with clean, fresh water as needed.

ESTIMATING FLOWER QUANTITIES

01

Bridal Bouquet

11-13 stems of greenery + 30-33 stems of focal and filler flowers to create a beautiful, lush bridal bouquet

02

Bridesmaid Bouquet

5-7 stems of greenery + 13-15 focal and filler flowers to create a sweet bridesmaid bouquet to compliment the bridal bouquet

03

Corsage

2 stems of greenery + 1 focal flower + 3 filler/secondary flowers

04

Boutonniere

2 stems of greenery + 1 focal flower + 2 filler/secondary flowers

05

Centerpiece Quart Size Mason Jar

5 stems of greenery + 9-11 focal + filler flowers

06

Centerpiece Pint Size Mason Jar

3 stems of greenery + 7-9 focal + filler flowers
