# WHITE PAPER

SWIFT TOKEN

## *"SWFT"*

LAUNCHED DECEMBER 13, 2024

SWIFT Token

TICKER : *SWFT*

CONTRACT:

2JNdVmHaGHMxmNeF4bmY3n6RwtyezkoAToaFdqT2Xkfv

ABSTRACT

The SWIFT Token serves a dual purpose as an escrow payment token and a payment processor within various markets, including goods and freelancing services. This whitepaper outlines the fundamental features and functionalities of SWIFT Token, emphasizing its role in revolutionizing e-commerce and merchant marketplace sites.

ESCROW PAYEMENT TOKEN

SWIFT Token acts as a secure and transparent escrow payment token, facilitating trust between buyers and sellers in various transactions. Utilizing smart contract technology, SWIFT Token ensures that funds are held securely until Predetermined conditions are met, mitigating the risk of fraud and disputes.

E-COMMERCE INTEGRATION

E-commerce platforms can integrate SWIFT Token to enhance the overall user experience. Buyers benefit from secure and efficient transactions, while sellers enjoy reduced payment processing fees and minimized chargeback risks. SWIFT Token's integration fosters a more trusted and seamless online shopping environment.

INTRODUCTION

SWIFT Token is a blockchain-based digital asset designed to streamline and secure online transactions. Its unique capabilities as both an escrow payment token and a payment processor make it a versatile andefcient solution for a wide range of markets.
PAYMENT PROCESSOR TOKEN

As a payment processor token, SWIFT Token enables swift and cost-eective transactions within e-commerce platforms and merchant marketplaces. Its blockchain-based infrastructure ensures faster settlement times, lower transaction fees, and increased security compared to traditional payment methods.
GOODS AND FREELANCING SERVICES MARKETS

SWIFT Token is tailored to meet the needs of both goods and freelancing services markets. For goods, it provides a seamless payment experience for buyers and sellers, enhancing the efciency of online retail transactions. In freelancing services, SWIFT Token simplies payment processes, offering freelancers and clients a secure and reliable means of transacting for services rendered.
MERCHANT MARKETPLACE SITES

Merchant marketplace sites can leverage SWIFT Token to create a robust payment ecosystem. By offering SWIFT Token as a payment option, these platforms empower sellers with a reliable and costeffective payment solution. The token's escrow capabilities further contribute to a trustworthy marketplace environment, encouraging more transactions and customer satisfaction.
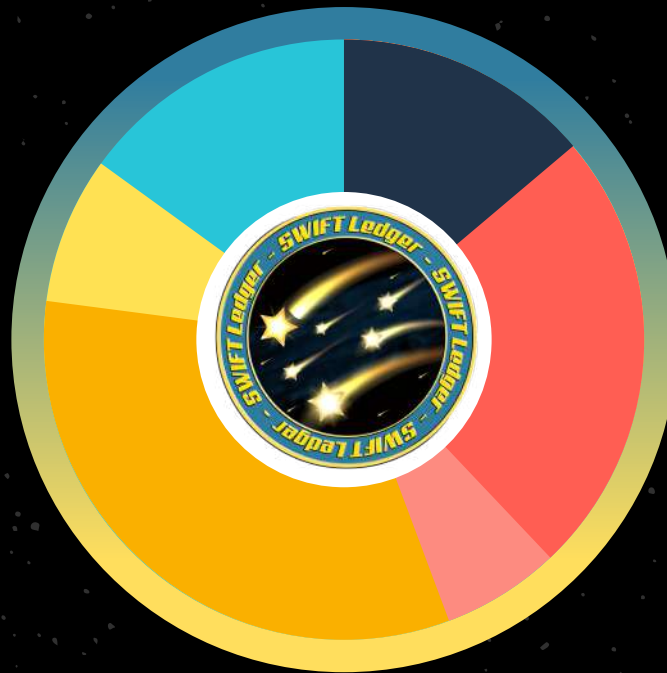

CONCLUSION

SWIFT Token represents a transformative force in the world of digital transactions, serving as both an escrow payment token and a payment processor. With its applications in goods and freelancing services markets, as well as seamless integration into e-commerce and merchant marketplace sites, SWIFT Tokenis poised to redene online payments and contribute to the growth of secure and efcient digital commerce.

TOKENOMICS

TOTAL SUPPLY

SWIFT Token has a xed total supply of 1 billion tokens, ensuring transparency and predictability for
the community.

SELL TAX

THERE IS NO TAX ON BUY. THERE IS A NOMINAL 1% TAX ON SALE THAT GOES TO THE MARKETING WALLET.

BURN MECHANISM

There is no auto burn. The Team will be burning tokens periodically using marketing

CIRCULATING SUPPLY & LP LOCK

100% of the tokens will be circulating or locked. LP will be locked. There will be rolling LP locks from buys of the team.

*25% of the tokens will be added to Solana pairing on the Dex*

25% of the tokens will be added to XRP Pairing on the DEX

25% of the tokens will be added to a USD pairing on the DEX

25% of the Tokens will be used for CEX

All Tax will be used for marketing endeavors and to engage community

KEY OBJECTIVES

SWIFT Token aims to foster a strong and engaged community. The deationary model encourages longterm holding, aligning the interests of the community with the overall success of the project.

COMMUNITY GROWTH

SWIFT Token aims to foster a strong and engaged community. The deationary model encourages longterm holding, aligning the interests of the community with the overall success of the project.
PRICE STABILITY

The combination of the burn mechanism and the LP Locks are designed to mitigate volatility and create a more stable price trajectory over time.

STRATEGIC MARKETING

The time release vesting locked tokens are used to finance promotional activities over time. This includes social media campaigns, inuencer partnerships, and other initiatives aimed at increasing awareness and adoption. Many of the tokens will be used for the process of listing on CEX platforms such as MEXC and beyond.
TRANSPARENCY AND FAIRNESS

SWIFT Token prioritizes transparency in its operations and nances, providing regular updates to the community. The fair distribution of tokens and the deationary model contribute to a more equitable ecosystem.

CONCLUSION

SWIFT Token presents a unique opportunity for investors seeking a community-driven cryptocurrency with a sustainable and deationary model. By combining a xed supply, burn mechanism, Token and LP locks, SWIFT Token aims to create a robust and self-sustaining ecosystem for its growing community.

SWIFT TOKEN PROJECT ROADMAP

CREATION COMPLETION DECEMBER 13, 2024

Launch SWIFT on Solan Blockchain.

SMART CONTRACT DEVELOPMENT FOR PAIRINGS (Q1 2025):

1st pair Completion January 1, 2025

STRATEGIC PARTNERSHIPS (Q2 2025):

Form partnerships with key players in goods and freelancing services industries. Establish collaborations with e-commerce platforms and merchant marketplace sites.

USER INTERFACE (UI) UPGRADE (Q3 2025):

Enhance the user interface for a seamless and intuitive experience. Integrate user feedback to improve overall usability.

SECURITY AUDIT (Q3 2025):

Conduct a thorough security audit to ensure the integrity of the platform. Implement any necessary security enhancements.

COMMUNITY ENGAGEMENT (Q3 2025):

Expand services to additional geographical regions. Localize the platform to accommodate diverse languages and user preferences.

INTEGRATION WITH OTHER CHAINS (Q1 2026):

Explore and implement interoperability with other blockchain networks. Enhance accessibility and broaden user base.

CONTINUOUS IMPROVEMENT (ONGOING):

Regularly update and improve features based on market trends and user feedback.

SWIFT LEDGER

STAY ABREAST OF TECHNOLOGICAL ADVANCEMENTS FOR
SUSTAINED RELEVANCE. THIS ROADMAP OUTLINES
THE KEY MILESTONES FOR SWIFT TOKEN,
FOCUSING ON A STRATEGIC AND PHASED
APPROACH TO ENSURE THE PROJECT'S SUCCESS
AND LONG- TERM VIABILITY. NOTE THAT
TIMELINES AND PRIORITIES MAY BE SUBJECT TO
ADJUSTMENTS BASED ON MARKET DYNAMICS
ANDEMERGING OPPORTUNITIES.
