

# PATRICK DAVIDSON

## REMOTE GRAPHIC & VIDEO ARTIST

### Graphic Design, Production Artist, Animation, Video Editing, Motion Graphics, Illustration

I began my graphic design career working in-house at an advertising agency in Sacramento. After relocating to Los Angeles, I obtained a position in a corporate graphics department within the healthcare industry.

My success over the years is due to my ability to manage multiple tasks and meet deadlines. I have a strong history of effective communication and teamwork skills. I hold dual citizenship and can read, write, and converse in Spanish.

After backpacking through South America, I started my career as a remote graphic and video artist, which I continue today.
