SCHOOL NON-FORMAL

All praise and thanks be to the glory of the name of the Lord Jesus for His guidance and presence, so that the NCC lessons in Hiliofonaluo can continue until this day.

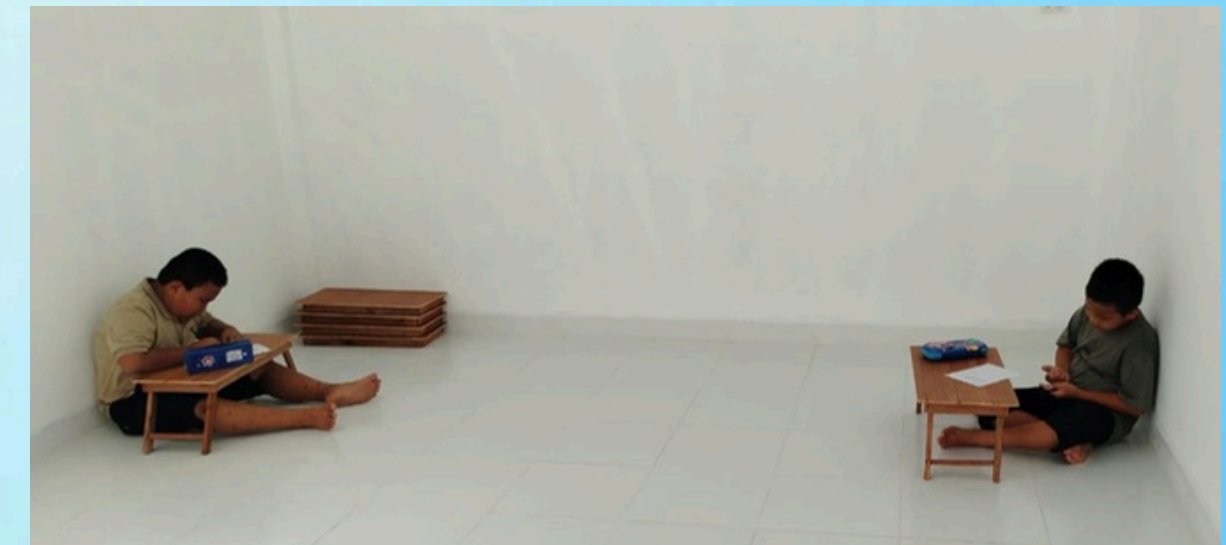

This week, we tried a new teaching method by dividing the children into three groups based on their abilities and their level of understanding of the lessons.

NCC HILIOFONALUO

NCC HILIANA'A

Praise the Lord, the new tutoring class in Hiliana'a Village has been running well. On the first day, seven children attended the lesson, and on the second day, eight children

We have observed that the condition of the children in this new tutoring location is quite concerning. They are in great need of tutoring, as many of them, despite being 10 to 12 years old, still cannot recognize numbers and letters, cannot do addition, and are unable to read.

Learning Guitar

Children who have just begun to read are required to read 1-2 chapters of the Bible.

READ THE BIBLE

Through the reading of God's Word by the children, they are taught to continue loving, forgiving, and helping others, for this is what the Lord desires in our life together

WATCHING TOGETHER

Once a week, we take time to have worship together with the NCC tutoring children. In this worship, we can praise the Lord and teach them to always be great, extraordinary, useful, and impactful children of God wherever they are. Whatever circumstances and situations they may face, they are taught to live according to God's teachings so that through their lives, they can be a blessing to others.
