

Digital Future – AI & EdTech for Lifelong Learning

Motto: *Empowering Educators, Transforming Learning*

Ulm, 2025

About the Training

Why This Training Matters

Artificial Intelligence (AI) and Educational Technology (EdTech) are no longer “future trends”—they are reshaping how we teach, learn, and adapt **today**. For educators, trainers, and EdTech innovators, the challenge is clear: how to harness these tools effectively, ethically, and inclusively to deliver **personalized, impactful, and future-proof learning**.

This training is your opportunity to step into the digital future with confidence. Over four intensive days, you will not just hear about AI—you will use it, test it, and design real-world applications for your own teaching or training environment.

Objectives

By the end of the course, you will be able to:

1. **Equip yourself with AI-powered tools** to deliver personalized learning experiences for diverse learners.
2. **Strengthen your digital competencies** for the evolving education and training landscape.
3. **Implement innovative EdTech solutions** that increase learning effectiveness, accessibility, and engagement.

What You'll Learn

We go far beyond theory—expect practical, hands-on immersion in:

- **AI for Personalized Learning** – how to design adaptive learning paths that respond to each learner’s needs.
- **Adaptive Learning Systems** – platforms that evolve with the learner and provide targeted feedback.
- **Learning Analytics** – using AI to interpret learner behavior and improve your course design.

- **Automation in Education** – freeing up your time from repetitive tasks so you can focus on teaching impact.
- **Ethical AI and Digital Inclusion** – ensuring technology benefits *all* learners, regardless of background or ability.

You will work directly with AI tools such as intelligent content creators, automated assessment platforms, and analytics dashboards—leaving the course with ready-to-use resources and strategies.

Target Audience

- **Adult educators & trainers** ready to integrate AI into their classrooms or online programs.
- **Digital learning specialists** looking to expand their technical toolkit.
- **EdTech developers & innovators** seeking to align product design with real educational needs.

No prior AI knowledge required – just basic digital literacy and a curiosity for innovation.

Training Format & Methodology

- **Interactive Workshops** – real-life scenarios, group challenges, and tool testing.
- **Case Studies** – successful AI integrations in European educational contexts.
- **Hands-On Labs** – step-by-step work with adaptive platforms and AI assistants.
- **Expert Panels & Peer Exchange** – learn from pioneers in AI-powered education and share your own ideas.

Agenda

Day 1: *Introduction to AI in Education* – Trends, tools, and opportunities

Day 2: *Adaptive Learning & EdTech Tools* – Designing learner-centered pathways

Day 3: *AI-Powered Assessment & Learning Analytics* – Measuring and

improving learning outcomes

Day 4: Ethical AI & Digital Inclusion – Technology for equity and impact

Expected Outcomes

By completing the training, you will:

- Have a **practical AI toolkit** for education and lifelong learning.
- Be able to design **personalized learning experiences** using adaptive platforms.
- Understand **data-driven teaching** and make informed pedagogical decisions.
- Apply **ethical and inclusive design principles** to your digital learning solutions.
- Earn a **Certificate of Completion** that validates your new skills and boosts your professional profile.

Why Join Now

The world of education is changing fast—and those who adapt early will lead the transformation. This training will **future-proof your skills**, expand your network with like-minded innovators, and empower you to deliver learning that truly changes lives.

Practical Details

- **Duration:** 4 full training days (09:00–17:00)
- **Period:** 23 – 26.01.2025
- **Participants:** Maximum 25 for high-quality, interactive learning
- **Location:** Ulm, Germany
- **Language:** German (support materials provided)

Secure your place now and be part of the next generation of educators shaping the digital future.

Limited seats – applications close once capacity is reached.

 Voices from the Field

"Four days that will redefine your teaching – turning AI from a buzzword into your most powerful classroom ally."

– Martha, Project Coordinator, InnovEdu

**Step into the future of education
– join us in Ulm this February
and master AI & EdTech to
transform your teaching forever!**

**Limited seats, unlimited impact – secure your place
now and become the educator who shapes
the digital tomorrow.**
