

Inclusive Learning – Digital Accessibility for All

Motto: *No Barriers, Only Opportunities*

Ulm, 2025

About the Training

Why This Training Matters

In a truly inclusive education system, no learner is left behind. Yet for millions worldwide, digital barriers still prevent full participation. This intensive 5-day training in November 2025 in Ulm, Germany empowers educators, trainers, and EdTech innovators to break down those barriers with cutting-edge tools, inclusive design strategies, and AI-powered accessibility solutions.

You will not only explore what “accessibility” means—you will build it into your own teaching practice, creating learning environments where diversity is celebrated and every student can thrive.

Objectives

By the end of this course, you will be able to:

1. **Use accessibility tools**—such as speech-to-text, screen readers, and AI-assisted learning platforms—to support learners with disabilities.
2. **Apply Universal Design for Learning (UDL)** principles to make your courses more inclusive and flexible.
3. **Design digital strategies** that increase access, engagement, and equity for all learners.

What You'll Learn

We go far beyond theory—expect immersive, practical experiences in:

- **Basics of Digital Accessibility** – understanding standards, guidelines, and practical applications.
- **AI in Inclusive Learning** – harnessing AI to personalize and support diverse learning needs.
- **Universal Design for Learning (UDL)** – structuring courses that are accessible from the start.

- **Assistive Technology for Digital Classrooms** – exploring tools that remove participation barriers.
- **Inclusive Strategy Development** – building a step-by-step roadmap for long-term accessibility.

You will work directly with real-world case studies, tested accessibility tools, and collaborative projects—leaving the course with ready-to-implement strategies and resources.

Target Audience

- **Educators & trainers** seeking to make their teaching accessible for all learners.
- **Inclusion specialists** working in schools, universities, or adult education.
- **EdTech developers** building solutions with accessibility at their core.

No prior AI experience is required—just basic digital skills and a commitment to equity in education.

Training Format & Methodology

- **Interactive Workshops** – practice designing accessible learning materials.
- **Live Demonstrations** – see how AI and assistive tools work in real classrooms.
- **Case Studies** – examples of inclusive learning successes from across Europe.
- **Hands-On Labs** – build and test your own accessible digital resources.
- **Peer Exchange & Networking** – connect with other educators driving accessibility innovation.

Agenda

Day 1: Basics of Digital Accessibility – Hands-on Workshop

Day 2: AI in Inclusive Learning – Practical Demonstration

Day 3: Universal Design for Learning (UDL) – Strategy Development

Day 4: Assistive Technology for Digital Classrooms – Interactive Labs

Day 5: Final Project & Certification – Presentation & Review

Expected Outcomes

By completing the training, you will:

- Have a complete Digital Accessibility Toolkit ready for classroom use.
- Be able to design inclusive courses that meet international accessibility standards.
- Integrate assistive technologies effectively into both in-person and online teaching.
- Apply UDL to create flexible, learner-centered experiences.
- Earn a Certificate of Completion that validates your expertise in inclusive education.

Why Join Now

Digital accessibility is not just a technical feature—it's a human right. This training equips you to transform education for all, ensuring that technology becomes an equalizer, not a barrier. You will leave ready to lead in the growing global movement for inclusive, accessible, and equitable learning.

Practical Details

- **Duration:** 5 full training days (09:00–17:00)
- **Participants:** Maximum 25 for high-quality, interactive learning
- **Location:** Ulm, Germany
- **Date:** 12 – 16.11.2025
- **Language:** German (support materials provided)
- **Organizer:** InnovEdu Nexus Institut

 Voices from the Field

"This training will show you that accessibility isn't an add-on—it's the foundation of great teaching."

– Fabian, Project Coordinator, InnovEdu
