Bonus AI Tools Included:

1. Discount Strategy Calculator.

Stop guessing whether discounts are “helping” or silently killing your margins. With this calculator, you’ll instantly see the real financial impact of promotions on your bottom line.

- Test different discount levels before you launch.
- Compare short-term sales spikes vs. long-term profit erosion.
- Make data-driven decisions that protect your cash flow.

No more blind discounts — every sale becomes strategic.

2. AI Quick-Fix Cash Boosters Generator

Struggling with cash flow? This AI tool gives you **5 personalized, fast-action strategies** to boost cash in the next 30 days — tailored to your inputs (brand size, product mix, sales channel).

- Identify quick revenue wins.
- Spot hidden cost leaks.
- Get custom action steps in seconds.

Think of it as your on-demand “cash flow consultant” available 24/7.

👉 Together, these tools turn your decision-making into a data-driven, cash-positive system — so you don’t just learn theory, you get practical, immediate results.

★ **Bundle Purpose:** This package provides a *complete, plug-and-play solution* for fashion eCommerce founders to:

1. Understand and optimize their cash flow.
2. Implement practical pricing, retention, and revenue strategies.
3. Scale their brand with predictable profitability.

All worksheets are designed to be **simple, actionable, and fillable**, requiring no advanced tools or tech skills.

📁 **Optional Bonus:** Turnkey Pricing & Packaging Workbook for service businesses (in exchange for referrals or recommendations).

All inquiries, feedback or suggestions are welcomed.
