The rise of AI in HR

Traditional HR is just compliance, great HR is a strategic driver for growth.

More strategic work

Walli gives you back the time needed to focus on projects that will drive your business forward like product development, culture or sales.

Better talent experiences

Gain deep insight into what's happening at the individual level or company-wide sentiment – without spending hours on performance reviews or surveys.

HR = humans + robots

Our AI copilot makes your job easier, but doesn't replace higher level thinking. We simply want to give you a tool that makes it easier to do great work.

Simplify your HR to boost your business

Hire great talent faster

Streamline and automate hiring tasks to speed up the time to find, assess, hire great talent.

Full applicant tracking system, with AI help to ...

- ✓ Draft job descriptions
- ✓ Summarize & score hundreds of CVs
- ✓ Create and edit offer letters

UX/UI Designer

★★★★★★★★★ 9 Co-pilot rating

Applied

Rachel Walker's blend of creative prowess, data analysis, and strong interpersonal skills, coupled with her Bachelor's in Design and three-year track record in executing successful products, make her an excellent candidate for the UX/UI Designer role. She embodies a perfect balance of strategic thinking and hands-on implementation.
