GUARDING LIVES INNOVATIVELY!!!

ISO 13485: 2016 Certified

Range of Products

## Lifeguard – 3 Channel ECG Holter

- Recording: 3 Channel ECG.
- Compact/Lightweight ( 75\*55\*16mm, 50g ( Battery not included))
- Sampling Rate : Up to 1024 Hz/16Bit.
- Display : 1.3 inches OLED screen, 128\*64 dot matrix.
- Real-time wave forms display.
- Recording time: Up to 7 days.
- Powered by 1 AAA alkaline batteries, up to 168 hours ECG recording.
- Storage medium: Removable micro SD Card.
- Data Transfer: Hi-Speed USB 2.0, SD card-reader.
- Pacemaker detection: Yes.

## Lifeguard – 12 Channel ECG Holter

- Recording: 12 Channel ECG.
- Compact/Lightweight ( 75\*55\*16mm, 50g ( Battery not included))
- Sampling Rate : Up to 1024 Hz/16Bit.
- Display : 1.3 inches OLED screen, 128\*64 dot matrix.
- Real-time wave forms display.
- Recording time: Up to 4 days.
- Powered by 1 AAA alkaline batteries, up to 72/96 hours ECG recording.
- Storage medium: Removable micro SD Card.
- Data Transfer: Hi-Speed USB 2.0, SD card-reader.
- Pacemaker detection: Yes.

## Lifeguard - 12 Channel ECG Machine

### Specifications

- Recording: 12 Channel ECG
- Full keyboard, touch screen operation
- Sampling rate up to 16000Hz, pacemaker detection
- Save up to 1000 ECG records internally (expandable with SD card and USB flash-disk)
- Advanced ECG analysis: VCG/TVCG/VLP/HRV
- Support external USB printer, Keyboard, Mouse, Bar-code scanner etc.
- Data transfer to PC directly by Ethernet, USB or Wi-Fi (optional)

## Lifeguard - 3 Channel ECG Machine

### Specifications

- 7" color touch screen
- Automatic measurement, calculation, analysis, waveform freezing.
- <sup>2</sup> Thermal printer with 80mm print paper, synchronization print.
- <sup>2</sup> Built-in rechargeable li-ion battery (11.1V/4000mAh), AC/DC power conversion.
- Adapt to 100-240V, 50/60Hz AC power supply
- Support USB flash disk stored reports can be saved, opened, analyzed in PC via ECG playback software.
- The machine can store over 400 ECG reports in its built-in flash.
