

FAUCETS COLLECTION

**PERFECT
FAUCET
FOR EVERY
STYLE.**

www.neeron.in

At NEERON, we believe that water is more than just a necessity; it's an art form. Our bathroom faucets and showers are meticulously sculpted, each piece a testament to our unwavering commitment to craftsmanship. From the initial design to the final polish, every detail is carefully considered, resulting in products that are as beautiful as they are functional. Discover the art of water with NEERON."

THE NEERON EXPERIENCE: WHERE WATER MEETS LUXURY SINCE 2016

"NEERON: Where innovation meets elegance. We are a leading manufacturer of high-quality bathroom fittings, renowned for our exquisite craftsmanship, innovative designs, and unwavering commitment to customer satisfaction. Our faucets and showers are meticulously crafted to enhance your daily routine and transform your bathroom into a sanctuary of relaxation."

2 Million

Units production per year

A FOUNDATION OF EVERY FLOW

Foundry

Induction furnaces, core shooters and gravity die-casting machines.

Machining

Hi-speed Computer Controlled CNC Machine And In-house Tool Room.

Casting

Virgin brass ingots are melted in the induction furnace and die-casted to be shaped in accordance with the technical designs.

State of Art Grinding & Polishing

Semi-automatic Polishing Machines, Multi Station, Multi Spindle Rotary Polishing Machines, Hi-tech Polishing Machines.

Electro Plating Line Surface Finishing

Chrome-plating Involve Finishing Of The Products Through Electroplating Standard Nickel.

Final Product Assembly

Experts Assemble Various Parts Using Pneumatic Tools

FAUCET TECHNOLOGIES

Qualified

Using high-class brass material to ensure the health of water using from source.

Low Pressure Casting

Adopting the advanced low pressure casting technology can avoid the possibility of air and impurity entrance. The castings will be with high density and fewer defects, which can ensure the durability of products.

The Advanced Surface Finish Process

After accurate milling, and fully automatic polishing, the cast surface will be with clear outline to show the product design well.

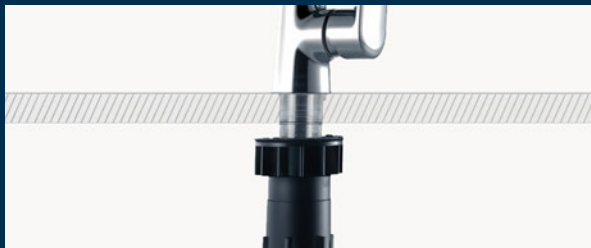

CNC Machining

The faucets are machined by CNC machine, with accurate and stable dimension, to ensure the stability of assembly and avoid the product leaking.

Water Saving Design

Using air injection technique to make water flow be plentiful and lively, improve utilization of water.

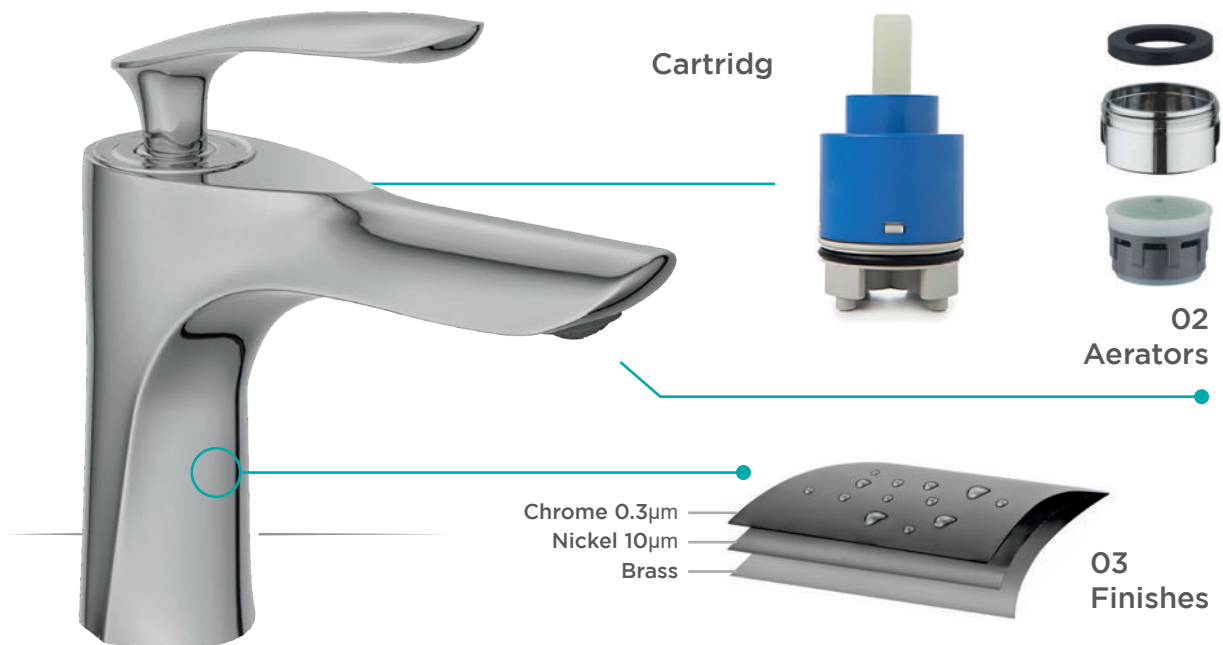

Fast Installation Structure

Using long barrel and large nut as installation components of faucets, make it convenient and fast to install the faucet firmly without any tools.

FEATURES OF NEERON FAUCETS

Smart features, effortless control: Discover the technology that enhances your everyday experience.

Cartridges

Wide-angle lever provides ultra comfort and flawless, smooth operation of the NEERON bathroom faucet.

We make the cartridge spindle of the washbasin taps with brass instead of plastic, to avoid breakage.

The bathroom faucets work smoothly even at high temperatures and in various pressure conditions.

Aerators

Every NEERON basin tap comes fitted with aerators, which are devices that mix air with water to give it a soft and splash-free flow.

Our integrated honey-comb-structured aerator, which is a part of every tap for bathroom and bathroom faucets, provides lime build-up protection.

Multiple Finishes

The chrome finish for every curated NEERON tap including bathroom mixer taps, water taps, tap showers, etc comes with high plating thickness and it provides tolerance to extreme climate and water conditions, causing minimal wear and tear.

NEERON's faucets are available in multiple colours and PVD colours to match every bathroom style.
