# How to Use This Journal

This isn't a workbook. It's not a checklist. It's a strategic space - for you.

### Use it to:

- Reflect on your current business goals
- Identify what's standing in the way
- Clarify your next strategic decision

You can write directly in the journal, type your responses, or simply use it as a thinking tool. What matters most is that you engage with the questions honestly—and revisit them as your business evolves.

This journal is designed to support your experience with DNFC Consulting —whether you're attending a webinar, booking a consultation, or joining The Business Fix Lab. It's not a generic tool—it's tailored to help you get the most out of our strategic work together.

### Define Your Business Goal

What's one outcome you want to achieve in the next 6-12 months?

Think beyond revenue. Consider visibility, systems, client experience, or brand positioning. What would make you feel like your business is moving in the right direction?

| My goal is              |  |
|-------------------------|--|
|                         |  |
|                         |  |
|                         |  |
|                         |  |
| Why this matters to me  |  |

# Identify Your Current Challenge

What's standing in the way of that goal?

Is it clarity, capacity, consistency, confidence—or something else? Be honest. This isn't about fixing everything—it's about naming what's slowing you down.

| The challenge I'm facing is           |
|---------------------------------------|
