

Garden Photography Workshops

Learn how to translate the living art you create in your garden into the lasting beauty of a photograph. Using the powerful and convenient camera you already have in your pocket, you'll learn to create images that truly capture the soul of your garden.

Learn to Use Your Tools

10 November 2025 at 1:00 pm.

Zoom Meeting ID: 824 4949 6640

This workshop is designed to demystify the art of garden photography, focusing mainly on the powerful camera in the iPhone. Learn to make your photos blossom by mastering focus, depth, and composition. Perfect for any gardener who has ever felt frustrated trying to capture the magic of a bloom.

Prune Your Photos

9 February 2026 at 1:00 pm.

Zoom Meeting ID: 811 7485 5875

Learn to edit the story of a photo both after and before snapping the shutter. This interactive workshop explores how simple edits and thoughtful composition can transform an image. See your garden with an artist's eye and find the stories hidden in plain sight. Participants are encouraged to submit photos for our anonymous critique through the course website.

Harvest Your Best Shots

11 May 2026 at 1:00pm.

Zoom Meeting ID: 882 5699 9830

Unpack the art of capturing photos for a competition. Learn to think like a judge, decode what submission themes are really asking for, and practice the kind self-critique that allows you to choose your most powerful and prize-worthy images with the confidence of a master gardener harvesting their best blooms for a county flower show.

Course Information

\$5 per class, or attend all three for \$12.

All Meetings held online via Zoom. See the course website for meeting links or enter the meeting ID in your Zoom app to join the meeting.

The Zoom meeting passcode will be sent to you after you register.

Scan the code with your phone or visit craft.andrewlinke.com/garden-photography to register.
