

U Protect

Launching of a new Technology

HEAT REJECTION AND ANTI-STICK COATING

- HGR is a breakthrough in extreme heat coatings. It encompasses the known benefits of Nano-beads with a proprietary formulation designed to withstand the rigors of any industrial setting.
- HGR is a state-of-the-art, Nano-technological, single component, UV, and anti-graffiti protection
- clear coating.
- HGR is VOC and AQMD-compliant and is ideal for immersion service on marine and automotive equipment.

HIGH THERMAL HEAT PROTECTION

— *Features & Benefits* —

Protect valuable equipment from extreme heat damage up to 80°C (1,500°F) and from damages incurred through thermal expansion/contraction substrate deterioration.

Prevent graffiti paint from bonding to it. The coating creates a special, highly cross-linked film between the surface and the paint, preventing staining and allowing for a quick and easy cleanup.

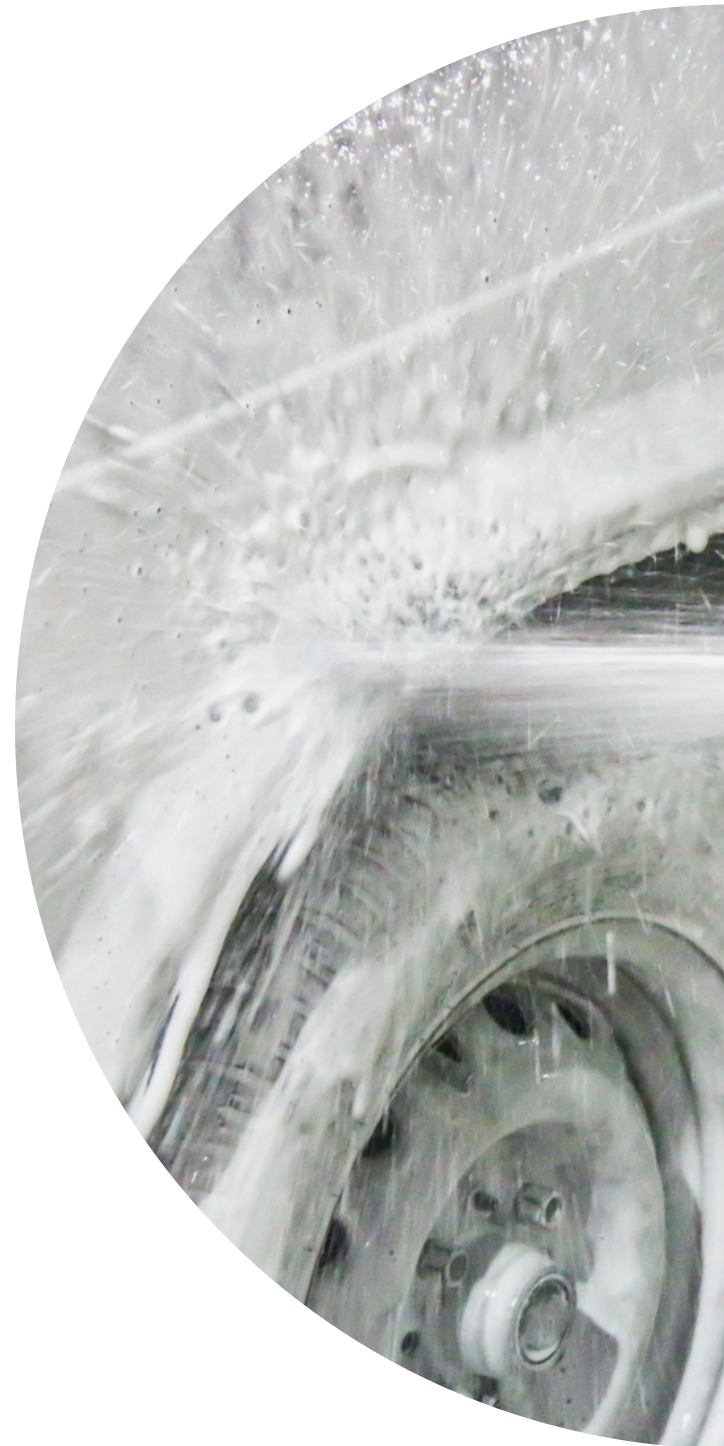

ANTI-STICK

— Features & Benefits —

HYDROPHOBIC & OLEOPHOBIC

— Features & Benefits —

HGR has a high level of hydrophobicity and is oleophobic. It will prevent rust and corrosion on ferrous/non-ferrous metals and prevent hydrocarbon adhesion.

FIRE

— Features & Benefits —

The solvent-based formulation resists fire. It is VOC & AQMD compliant. The coating can be safely used in all conditions without combustion.

MOLD AND FUNGUS

— *Features & Benefits* —

The formulation protects against fungus, mold, mildew, rust and all other humidity related issues.

HGR is impervious to UV degradation. It is a non-yellowing, non-whitening, and non-toxic product.

ULTRA VIOLET RESISTANT

— Features & Benefits —

TOUGH FINISH

— *Features & Benefits* —

HGR is classified as having a 9H finish. It will withstand some of the most abusive and abrasive conditions to be found anywhere.

SELF CLEANING

— *Features & Benefits* —

The surface equipped with the HGR will become smooth and the dust will easily get slipped in the air while running.

WARRANTY

— Features & Benefits —

We give 5 years of warranty, and the product can last more than 10 years.

WHERE TO APPLY?

— Features & Benefits —

A. For Automotive

- Body of the Car
- Any Type of Glass
- Any type of Metal
- Carbon Fiber
- Window Tinting
- PPF
- Color Film
- Battery

B. For Marine - Yacht & Water Scooter

- Body (Hull and Top deck) of the Yacht / Water Scooter
- Bow of the Yacht
- Any type of Glass
- Any type of Metal
- Fiber Glass on the Yacht
- Wood on the Yacht

A white SUV is parked on a cobblestone street. The car is the central focus, with its rear and side visible. The background shows a blurred street scene with trees and a street lamp. The text 'THANK YOU!' is overlaid in large, white, bold letters across the middle of the car. A thin blue horizontal line is positioned above the text.

THANK YOU!
