

WINDLYFT HTP

CUSTOMIZABLE GLASS GARAGE DOOR SYSTEM

FEATURES & BENEFITS

- Crafted with reinforced, heavy-gauge architectural aluminum for unmatched strength and high thermal performance. WindLyft garage doors contain an industry first glass-reinforced nylon thermal barrier.
- Architectural aluminum construction: a robust 2-inch deep aluminum frame ensures long-lasting, low-maintenance performance with a modern look.
- Streamlined appearance: sleek 3-inch sightlines offer a contemporary design while maximizing visibility.
- Weather-resistant seals: precision-engineered section joints prevent air and water infiltration, ensuring reliable performance in any climate.
- Reinforced durability: enhanced structural reinforcements deliver added strength, particularly for larger double-door models.
- Additional reduction of exterior noise.
- Colour matching hardware available.
- Single or sealed units glazing available
- Endless colour and glass options.
