FEATURES AND SPECIFICATIONS

- Architectural aluminum construction: a robust 2-inch deep aluminum frame ensures long-lasting, low-maintenance performance with a modern look.
- Streamlined appearance: sleek 3-inch sightlines offer a contemporary design while maximizing visibility.
- Superior energy-efficiency: glass reinforced nylon thermal break - the only in the garage door industry provide excellent thermal efficiency for consistent comfort throughout the year.
- Weather-resistant seals: precision-engineered section joints prevent air and water infiltration, ensuring reliable performance in any climate.
- Reinforced durability: enhanced structural reinforcements deliver added strength, particularly for larger double-door models.
- Additional reduction of exterior noise.
- Colour matching hardware available.

GLASS REINFORCED NYLON THERMAL BREAK
