## BGRAI – Intelligent AI for Lead Generation & Engagement

### TECHNOLOGY STACK & INTEGRATION

#### AI & NLP

Conversational AI for intelligent messaging and responses.

#### AUTOMATION & WORKFLOW OPTIMIZATION

Reduces manual effort in lead management and engagement.

#### SECURE & SCALABLE

#### OMNICHANNEL INTEGRATION\*

Supports email and SMS.

BGRAI is an advanced Agentic AI solution designed to streamline lead generation, validation, customer engagement, and operational efficiency. By leveraging AI automation, multi-source validation, and intelligent outreach, BGRAI optimizes new customer acquisition, engagement, and retention while reducing manual effort.

Acting as an intelligent assistant and lead validation system, BGRAI ensures high-quality leads, seamless communication, and automated responses across multiple channels, including email.

### AI-Powered Lead Generation & Qualification

- Automated Lead Discovery: Identifies and captures potential leads from multiple sources, including websites, social media, and third-party databases.
- Multi-Source Contact Validation: Cross-verifies and finds C-suite information using company databases, LinkedIn, CRM records, and public sources.
- \* AI-Based Lead Scoring: Evaluates and prioritizes leads based on engagement level, intent, and quality.

\* Future Enhancement

### Automated Lead Engagement & Nurturing

- \* Chatbot & Virtual Sales Assistant: Provides real-time engagement on websites and messaging platforms.
- \* Personalized Email Sequences: AI-driven automated responses to lead inquiries, tailored based on interest level.
- \* Social Media Outreach Automation: Engages with potential leads through LinkedIn, Twitter, and other platforms via AI-powered messaging.
- \* AI-Powered Follow-Ups: Schedules and automates smart follow-ups for leads based on interaction history.
