# ABOUT US

Based in India, for more than four decades we have been spearheading the plumbing and sanitaryware Industry. With multiple innovations and developments, we have retained a leading market share.

At Jindal Sanitaryware Pvt. Ltd., as a complete water solution provider we are proud to be the pioneer of the sanitaryware industry in India while playing a Pivotal role in the countries development.

**Founded in 1980 by Sh. Ram Niwas Jindal, Jindal Plast has come a long way from its humble beginnings.**

Started with the vision of eco-friendly water solutions in mind, Jindal Plast has for sure been able to achieve in many terms what it was intended for. With multiple high capacity production plants across India, we are one of the largest producers of bathroom and plumbing solutions across the country.

We are recognized as a leader in design and innovation, Plumbing and Bathroom fixtures, taps, sanitaryware products and accessories for residential, commercial and industrial markets nationwide.

We are dedicated to providing a consistently reliable and modern range of high-quality products and services. Therefore, Our products are made under the strict supervision of highly qualified and experienced technical personnel. Our high-grade raw materials, superior workmanship subjected to severe quality controls at various stages, and massive infrastructure are all controlled under one roof. Our in house research and development division works to improve the quality of our products.

We have a Complete Range of Plumbing, Sanitary, Road Safety and waste management Products with advanced technology, Our customers can avail all our Products and Services from anywhere in India.

We have wide range of products. Our Pipes and Fittings are available in CPVC (Chlorinated Polyvinyl chloride), uPVC (un-Plasticised Polyvinyl chloride), HDPE (High Density Polyethylene), DWC (Double Wall Corrugated), MDPE (Medium Density Polyethylene), & HDPE PLB Duct.

with applications in households, industries Agriculture, electrical purposes, offices, communication lines, etc. In addition we also provide SWR (Soil, Waste & Rain) Drainage System, uPVC Conduit Pipes and Fittings. We also produce Water Storage Tanks, Milk Buckets and Containers.

Our Sanitaryware portfolio includes: PTMT Taps, Toilet seat covers (UF and PP available in soft close-and hard close), Concealed Cistern (In-wall Cistern), Exposed Cistern Flush Tanks), Internal Mechanisms (Flush valves and Fill valves), Mirror Cabinets, Stainless Steel Kitchen Sinks and a wide range of Bathroom Fittings and Accessories.

Our Road Safety and waste management portfolio includes: Road Barriers, Traffic Cones, Spring Post, Road Studs, Corner Guards, Speed Breakers, Wheel Stopper and all kind of Dust Bins etc.

We've maintained a commitment to always believing in better, creating stronger, healthier communities and more sustainable product solutions in an effort to leave the world a better place for generations to come.

## CPVC PIPES & FITTINGS

1. Ideal for Hot and Cold Water Plumbing.
2. High withstanding capacity ranging from max 28.1 bar pressure at 23°C and max 8.79 bar at 82°C.
3. Wide range of pipes and fittings from 3/4" to 2".
4. Pipes are available in SDR 11, SDR 13.5, SCH 40 & SCH 80.

## uPVC ASTM PIPES & FITTINGS

1. For cold water plumbing.
2. Available as per ASTM D 1785 in Schedule 40 & 80.
3. Available in sizes 1/2" to 2".
4. Lead-free and Durable.

## SWR PIPES & FITTINGS

1. Available in sizes from 75mm to 160mm.
2. Joint pressure tested up to 5 Kg/cm<sup>2</sup> in Push-fit.
3. 100% leakproof joints.
4. Fitted with best quality rubber rings.

## uPVC PRESSURE PIPES & FITTINGS

1. Pressure Pipes & Fittings are free from lead & heavy metal.
2. We maintain minimal ovality at higher precision.
3. The chance of cracking through the weld line is minimal.
4. JPLEX JINDAL Pressure pipes are manufactured in accordance with IS 4985 standard, covering a range from 40mm to 315mm in pressure rating of 2.5, 4, 6 & 10 kg/cm<sup>2</sup>.

## GARDEN PIPES

1. Crack-less and Leak Proof.
2. Chemical Resistant.
3. JPLEX JINDAL Garden Pipes are available in the sizes 12.5mm (1/2"), 25mm (1"), 32mm (1.25"), and 20mm (3/4").
4. Available in 30-meter length in single layer, double layer, zebra line, and transparent, as well as a wide range of colours.

## HDPE PIPES & COILS

1. Very cost-effective piping system.
2. Flexible and Durable, apt for electrical and agricultural usage.
3. Can withstand temperatures from -148 to 176 degrees Fahrenheit.
4. Resistant to UV and most chemicals.

## SOLVENT CEMENT

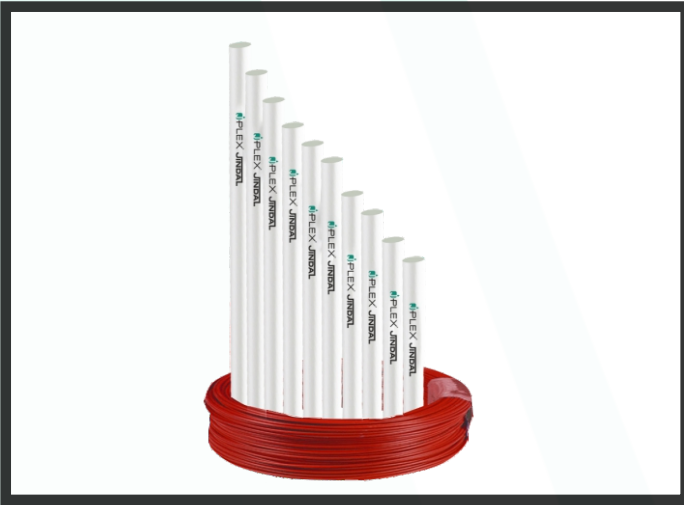

1. The most constant & highest quality Solvent Cement commercial available.
2. Easily sticks to both wet and dry Pipe Surfaces.
3. Does not wash off even with flowing water.
4. Non - toxic and safe for people and environment.

## HDPE SPRINKLER SYSTEM

1. HDPE Sprinkler System are manufactured as per IS-17425.
2. HDPE Sprinkler Pipes are available in 6 meter length with coupler in size of outside diameter 50mm to 110mm in the pressure rating of 2.5 kg/cm<sup>2</sup> & 3.2 kg/cm<sup>2</sup>.
3. Sprinkler Fittings are available in sizes of 50mm to 110mm, with pressure rating of 4 kg/cm<sup>2</sup> & 10 kg/cm<sup>2</sup>.
4. High resistance to corrosion.

## uPVC CONDUIT PIPES & FITTINGS

1. JPLEX JINDAL Conduit Pipes are ISI marked with confirmation to BIS Standards.
2. Electrical Conduit Pipes are non-combustible because they are unplasticized.
3. Handling and installation are simple.
4. Wires may be laid out more easily with a smooth internal finish.

## WATER STORAGE TANK

1. Contoured design and extra ribs to give high strength.
2. Three, Four and Five layered storage tanks for improved safety & durability.
3. Based on German technology for superior quality.
4. Available in Capacities of 300, 500, 750, 1000, 1500, 2000, 3000 & 5000 litres.

## MILK BUCKETS & CONTAINERS

1. Hygienic food grade HDPE material used.
2. Lightweight & easy to clean.
3. Made from virgin plastic.
4. Maintains original colour and strength.

## PTMT TAPS

1. Zero Drop Advantage.
2. Highly durable material for long life.
3. Easy to clean and maintain.
4. Attractive design and glossy finish.

## EXPOSED CISTERN FLUSH TANKS

1. Modern design offers a stylish look for the interior of your bathroom.
2. Strong and Durable material.
3. Advanced flush mechanism.
4. Comes with plastic bend pipe.

## CONCEALED CISTERN IN-WALL CISTERN

1. Its modern design offers a stylish look for the interior of the bathroom.
2. It's a great space saver if you have a small bathroom.
3. Hygienic and long lasting.
4. Advanced flush mechanism.

## TOILET SEAT COVERS

1. The thermoset material is unscratchable.
2. Very easy to clean and even after years looks like at the first day.
3. Synthetic resin (grains) softened and transformed by injection.
4. Made from virgin plastic.

## BATHROOM FITTINGS & ACCESSORIES

1. Mirror Cabinets.
2. PTMT Cockroach Traps.
3. Faucets Collection.
4. Bathroom Fittings such as Soap Dish, Corner Self etc.

# PVC GARDEN PIPES

JPLEX JINDAL Garden Pipes are all-weather pipes in our renowned Garden Pipes sector that have a superior build, are lightweight, and ensure top-notch quality. They are a sort of water pipe that is widely recognised for their flexibility and durability, and they are frequently used to flush out water for all garden and landscaping reasons. Garden pipes are made in India and developed specifically for Green India. Our garden pipes are made of high-quality materials and have exceptional qualities such as remaining soft in any weather conditions and having a robust adaptor and connector for convenient use. They are available in a variety of colours. They are produced under the supervision of technicians in accordance with industry standards,

## PRODUCT RANGE

Range : 1/2" , 3/4", 1", 1-1/4"

Material : Flexible PVC.

Packaging Type : Roll

Available in 30 meter length

Color : Yellow, Blue, Green, Red, Pink

Usage/Application : Garden Fencing, and Drainage

Available in single layer, double layer, zebra line & transparent

Crack Proof

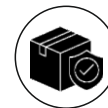

Leak Proof

Chemical Resistant

Robust Structure

Attractive & Safe Packing

Easy Maintenance

# uPVC AND CPVC SOLVENT CEMENTS

- JINDAL Solvent Cements fuses the material together, creating one uniformly bonded piece of thermoplastic.
- It is a fast, easy and incredibly reliable joining method.
- Assures unmatched superiority, backed by extensive R&D efforts.

### CPVC HEAVY DUTY SOLVENT CEMENT

Item Code	Tin Size	Pcs. per Box	M.R.P.
JPSOLTB025	25 ml	5X100	85.00

### REGULAR SOLVENT CEMENT FOR RIGID PVC PIPES & FITTINGS

Quantity	Rate per Tin/Can	Packing per Box (in nos.)
50 ml.	65.00	245
100ml.	95.00	100
250 ml.	150.00	50
500 ml.	250.00	20
1.0 Ltr.	450.00	10

### Directions for Uses

- To make consistently good joints, the following points should be clearly understood.
- Stir or shake before using.
- Clean pipe and fitting with cleaner.
- The joining surfaces must be softened and made semi-fluid.
- Apply liberal coat of solvent cement to pipe and fitting Do not 'overcoat' thin wall or bell end pipe.
- Assemble parts QUICKLY! Cement must be fluid. If not fluid, re-coat both parts.
- Push pipe firmly into fitting using a 1/4 turning motion until pipe bottoms.
- Hold pipe and fitting together for 60 seconds.
- Allow joint to cure sufficiently before handling.
- Do not pressure test until cement is fully cured.

### Storage & Handling

- Store at temperatures between 10°C and 50°C.
- Keep container closed when not in use.
- Keep away from heat, spark, open flame and children.
- Store in cool, dry, well-ventilated place.
- Do not mix with any other solvent.

# HDPE PIPES & COILS

Jindal Sanitaryware Pvt. Ltd. High Density Polyethylene Pipes are made from thermo plast polymers, a cost effective material used for a broad range of piping solutions in landfill, industrial, electrical municipal and agricultural application. They have been subjected to the most gruelling of tests and proven effective for above ground surface, buried slip lined floating and sub surface marine locations.

HDPE Pipes carry potable water waste, water slurries, chemicals, electric wires and hazardous waste and compressed gases with the greatest ease. In fact, Polyethylene Pipes have a long and distinguished history of service.

- ◇ Type and colour :- Black colour with Blue Strips
- ◇ Product Range(MM) :- 20mm to 315mm
- ◇ Pressure :- PN2 to 20
- ◇ Material Grade :- PE 100 /80/63
- ◇ Standards :- Is 4984-2016
- ◇ Application :- Potable Water Supply, Industrial, Electrical Work, etc.
- ◇ Made under strict quality standards and conform to various ISI and international standards

## DIMENSIONS

S.NO.	Size Range	Length (in metres)
1	20mm to 50mm	100, 200, 300, 500 & 1000 metre coils
2	63mm to 75mm	100, 200 & 300 metre coils
3	90mm to 110mm	100, 125, 150 metre coils & Straight length of 6 metre
4	125mm to 315mm	In Straight length of 6 metre

# HDPE SPRINKLER SYSTEM

IS: 17425

- HDPE Sprinkler Pipes & Fittings are manufactured as per IS-17425.
- HDPE Sprinkler pipes are available in 6 meter length with coupler in size of outside diameter 50mm to 110 mm in the pressure rating of 2.5 kg/cm<sup>2</sup> & 3.2 kg/cm<sup>2</sup>.
- Sprinkler Fitting are available in sizes of 50mm to 110mm pressure rating of 4 kg/cm<sup>2</sup> to 10 kg/cm<sup>2</sup>.
- Sprinkler pipe is easy to use & safe Ideal for seasonal & permanent planting.
- High resistance to corrosion.
- Easily it adapts to all kinds of terrain.
- Eliminate the water loss by providing a reliable seal with the sealing system.
- Chemically inert, and suitable to use liquid fertilizers and pesticides.
- Easy handling & quick installation by using coupler joint for both pipes.

## uPVC CONDUIT PIPES AND FITTINGS

- JPLEX JINDAL Conduit Pipes are ISI marked with confirmation to BIS standards
- Electrical Conduit Pipes are unplasticised and as a result non supporters of combustion
- Easy handling and installation
- Smooth interior finish facilitates easy laying of wires
- Tested for Bending, Impact, Compression and Collapsing
- Very cost effective Piping System

### DIMENSIONS OF THE uPVC CONDUIT PIPES

Normal Size	Outer	Tolerance on	Inside Diameter (minimum)		
			Light	Medium	Heavy
20	20	-0.3	17.40	16.90	15.80
25	25	-0.4	22.10	21.40	20.60

ROTO MOULDING WATER TANKS

NOW INTRODUCING

**Weather Proof**  
Premium Water Storage Tanks

100% Virgin Food Grade Raw Material

Antibacterial-100% Safe For Drinking Water

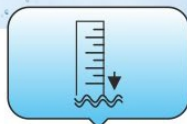

UV Stabilized- No Weather Effect

5 Layered Design with Extra Thick Foam For Superior Insulation

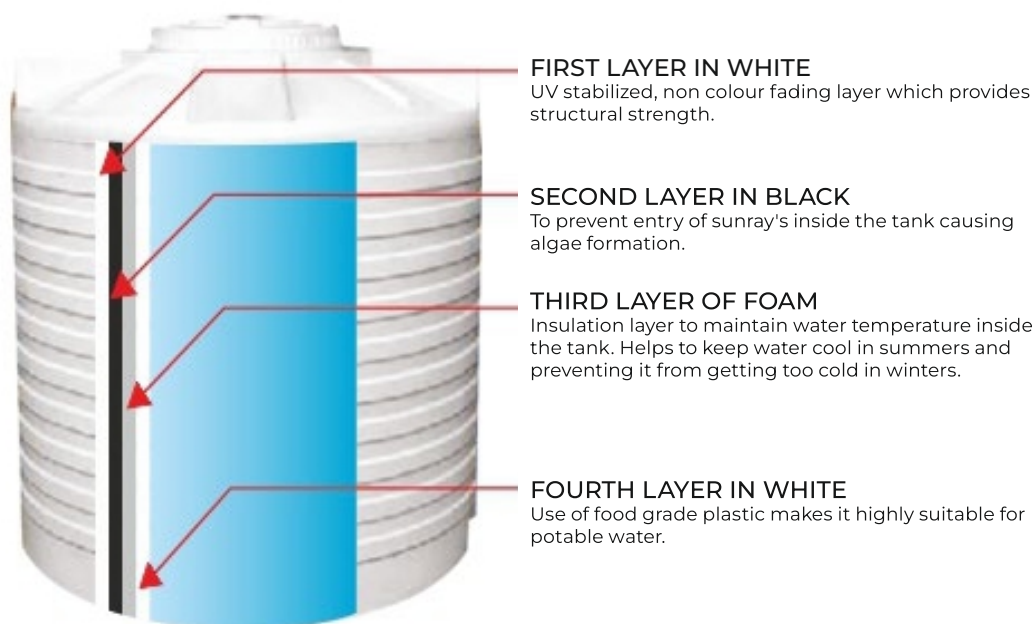

Insulated Covers with Inbuilt Locking Provision

Provided with Water Level Indicator & Pump Controller

The Jindal Plast India is an acknowledged leader of India's plastic industry. It is credited with pioneering several path breaking products and has been a torch bearer in the transition from conventional to advanced plastic piping products in the country. Its customer centric approach fuels its research for designing unmatched quality products to meet the aspirations of its quality conscious customers. The innovative product portfolio offered by Jindal plast is extensive in range and application and comprises variety of pipes and vast spectrum of fittings totalling over 100 diverse products.

After encouraging response to the blow moulded water tanks, we are pleased to offer yet another unique quality product i.e. premium water storage tanks under the brand name of Weather Proof. These first of its kind premium overhead water storage tanks are designed to offer many best in class features to meet the requirements of elite class of customers. Weather Proof tanks are made available in five layered design with extra thick foam layer to make it extra strong, durable and most importantly to offer superior thermal insulation properties.

CAPACITY	3 Layer	4 Layer	Jindal Pure 5 Layer

3000 Litres	16500.00	19500.00	22500.00
5000 Litres	27500.00	32500.00	37500.00

## Installation guidelines

- Provide a full bottom levelled support wherever necessary.
- Before installation, ensure that the top surface of the bottom support is plain and free from any sharp stones or metal pieces.
- Outlet connections should be drilled at least one inch from the bottom.
- Ensure proper support for inlet (s) and outlet (s) pipes to avoid undue pressure/ stress on the tank body.
- Use drill machine to make the holes on the tank and ensure that holes are of proper size.
- Never allow tank to remain dry for long duration once it is put to use.

- Hygienic Food Grade HDPE material used
- Lightweight & easy to clean
- Made from Virgin plastic
- Maintains original colour and strength
- Better substitute in comparison to steel or aluminium containers
- Capacity of 5, 7.5, 10, 15, 20, 30 and 40 litres
- High Chemical Resistance & UV stabilized
- Anti-bacterial and anti- microbial properties
- Used in Dairy, Food Industry and Household Purposes

# TOILET SEAT COVERS

### UF (Urea-Formaldehyde, Thermoset)

- The thermoset material is unscratchable.
- Very easy to clean and even after years looks like at the first day
- A high quality material and aesthetically looks like ceramic
- Resistant against cigarette burns
- Can be 3D printed.
- Sounds more deep and less "plastic"

### PP (Polypropylene, Thermoplastic)

- Synthetic resin (grains) softened and transformed by injection.
- Made from virgin plastic
- Fitted with high quality hinges
- Doesn't lose its colour and strength
- Shiny look
- Unbreakable design

- Available in both Soft Close and Hard Close Variants
- Antibacterial material for safety and hygiene
- Easy to Install, Maintain and Fix
- Available for Floor Mounted, Wall Mounted, Two Piece and One Piece water closet
