About **Greenman packaging Pvt. Ltd.**

Greenwall is a purpose-driven startup transforming how India packages and brands products. Based in Bihar, we create biodegradable packaging solutions using agricultural waste—like husk, straw, and crop fiber—turning farm by-products into functional, planet-friendly packaging.

We offer a one-stop platform for eco-packaging and custom branding, specially designed for MSMEs, D2C brands, and small businesses across India. From compostable boxes and pouches to custom labels and digital design, everything we do helps reduce plastic waste while building strong, sustainable brands.

Greenwall helps you grow your business—without costing the Earth.
