## ANTIQUE POTTERY

Handmade from **premium red clay** and inspired by ancient ruins, the **Antique Pottery** collection radiates a raw, weathered elegance.

Each piece is carefully shaped by hand, revealing rich, aged textures and naturally flowing tones.

Fired at over **1200 °C in wood kilns**, the finish matures slowly over 7 days for **lasting depth** and **durability**.

Its rounded, sculptural forms like the **Orb Jar** serve beautifully as planters or tranquil water features.

**Frost-resistant** and truly one of a kind, these **artisan-crafted vessels** bring timeless character to both **indoor** and **outdoor spaces**.

## LAVA POTTERY

**Our Lava Pottery is 100% handmade** from dark, heavy clay. Each piece is **hand-thrown** and **fired at high temperatures** in traditional **wood-burning kilns**, resulting in natural variations in **color** and **size**. Every pot is **unique**, **durable**, and **frost-resistant**.

The surface texture resembles raw, organic formations—like **cooled lava** or **weathered coral**—**rugged, porous**, and rich in character. The finish captures the **elemental beauty** of nature's forces, with a **tactile, aged** appearance that feels unearthed from **ancient volcanic terrain** or **deep ocean beds**.

Each piece is a **sculptural statement**, bringing a **relic-like presence** and **bold texture** to any garden or outdoor setting.

We offer **custom color options** from our selected **color chart**, as well as a choice between a **full lava finish** or a **striking half-lava, half-glazed** combination—designed to suit your vision.
