## VISION STATEMENT

We're committed to deliver excellence in executing the projects across the full project life cycle in line with the agreed capital and operating targets including but not limited to HSE, Quality, Cost and Schedule.

## MISSION STATEMENT

Our aim is, to deliver exceptional project management and engineering services ensuring high value for our clients by implementing global best-in-class customized project and engineering management services and tools by a team of highly skilled professionals.

## CORE VALUES

We believe in working together to foster creativity and leverage individual strengths in order to achieve common goals and objectives.

### **Integrity:**

Our business activities are conducted ethically and strictly in accordance with local and international laws, wherever we operate.

### **Responsible:**

Our top priority is the growth and well-being of our employees, stakeholders, and clients, ensuring a safe and healthy environment.

### **Value of our people:**

We invest in our employees, empowering them to reach their full potential with the freedom to make their own decisions.

### **Flexibility:**

The individual adopts a flexible and practical approach to meet client needs, ensuring high-value work is delivered on time, within budget, and meets expected performance indicators.

### **Delivering on Commitment:**

We prioritize our employees, stakeholders, and clients daily, delivering on our promises and striving to establish long-term partnerships for mutual benefit.

## QUALITY POLICY

HSM aims to be a top-tier engineering, manufacturing, and construction company by delivering quality, reliable, and performance products and services.

In order to achieve this, we shall ensure that:

- The company's top management prioritizes quality.
- All employees are accountable for adherence to company standards.
- Quality checks are implemented at all levels, and a proactive quality management system is implemented for continuous improvement.
- Risk-based thinking is promoted, and quality goals are periodically developed and achieved by all stakeholders.

## HEALTH SAFETY AND ENVIRONMENT

HSM is a specialized-class engineering, manufacturing, and Construction Company committed to sustainable performance in Health, Safety and Environment.

In order to achieve this, we shall:

- Adhere to HSE standards, ensure stakeholder health and safety.
- Demonstrate personal ownership, empower employees to report unsafe conditions.
- Manage risks, establish an emergency response system.
- Establish an HSE audit system.
- Communicate the policy to stakeholders, and encourage worker participation in HSE related matters.

# ORGANIZATIONAL CHART

## MECHANICAL FABRICATION

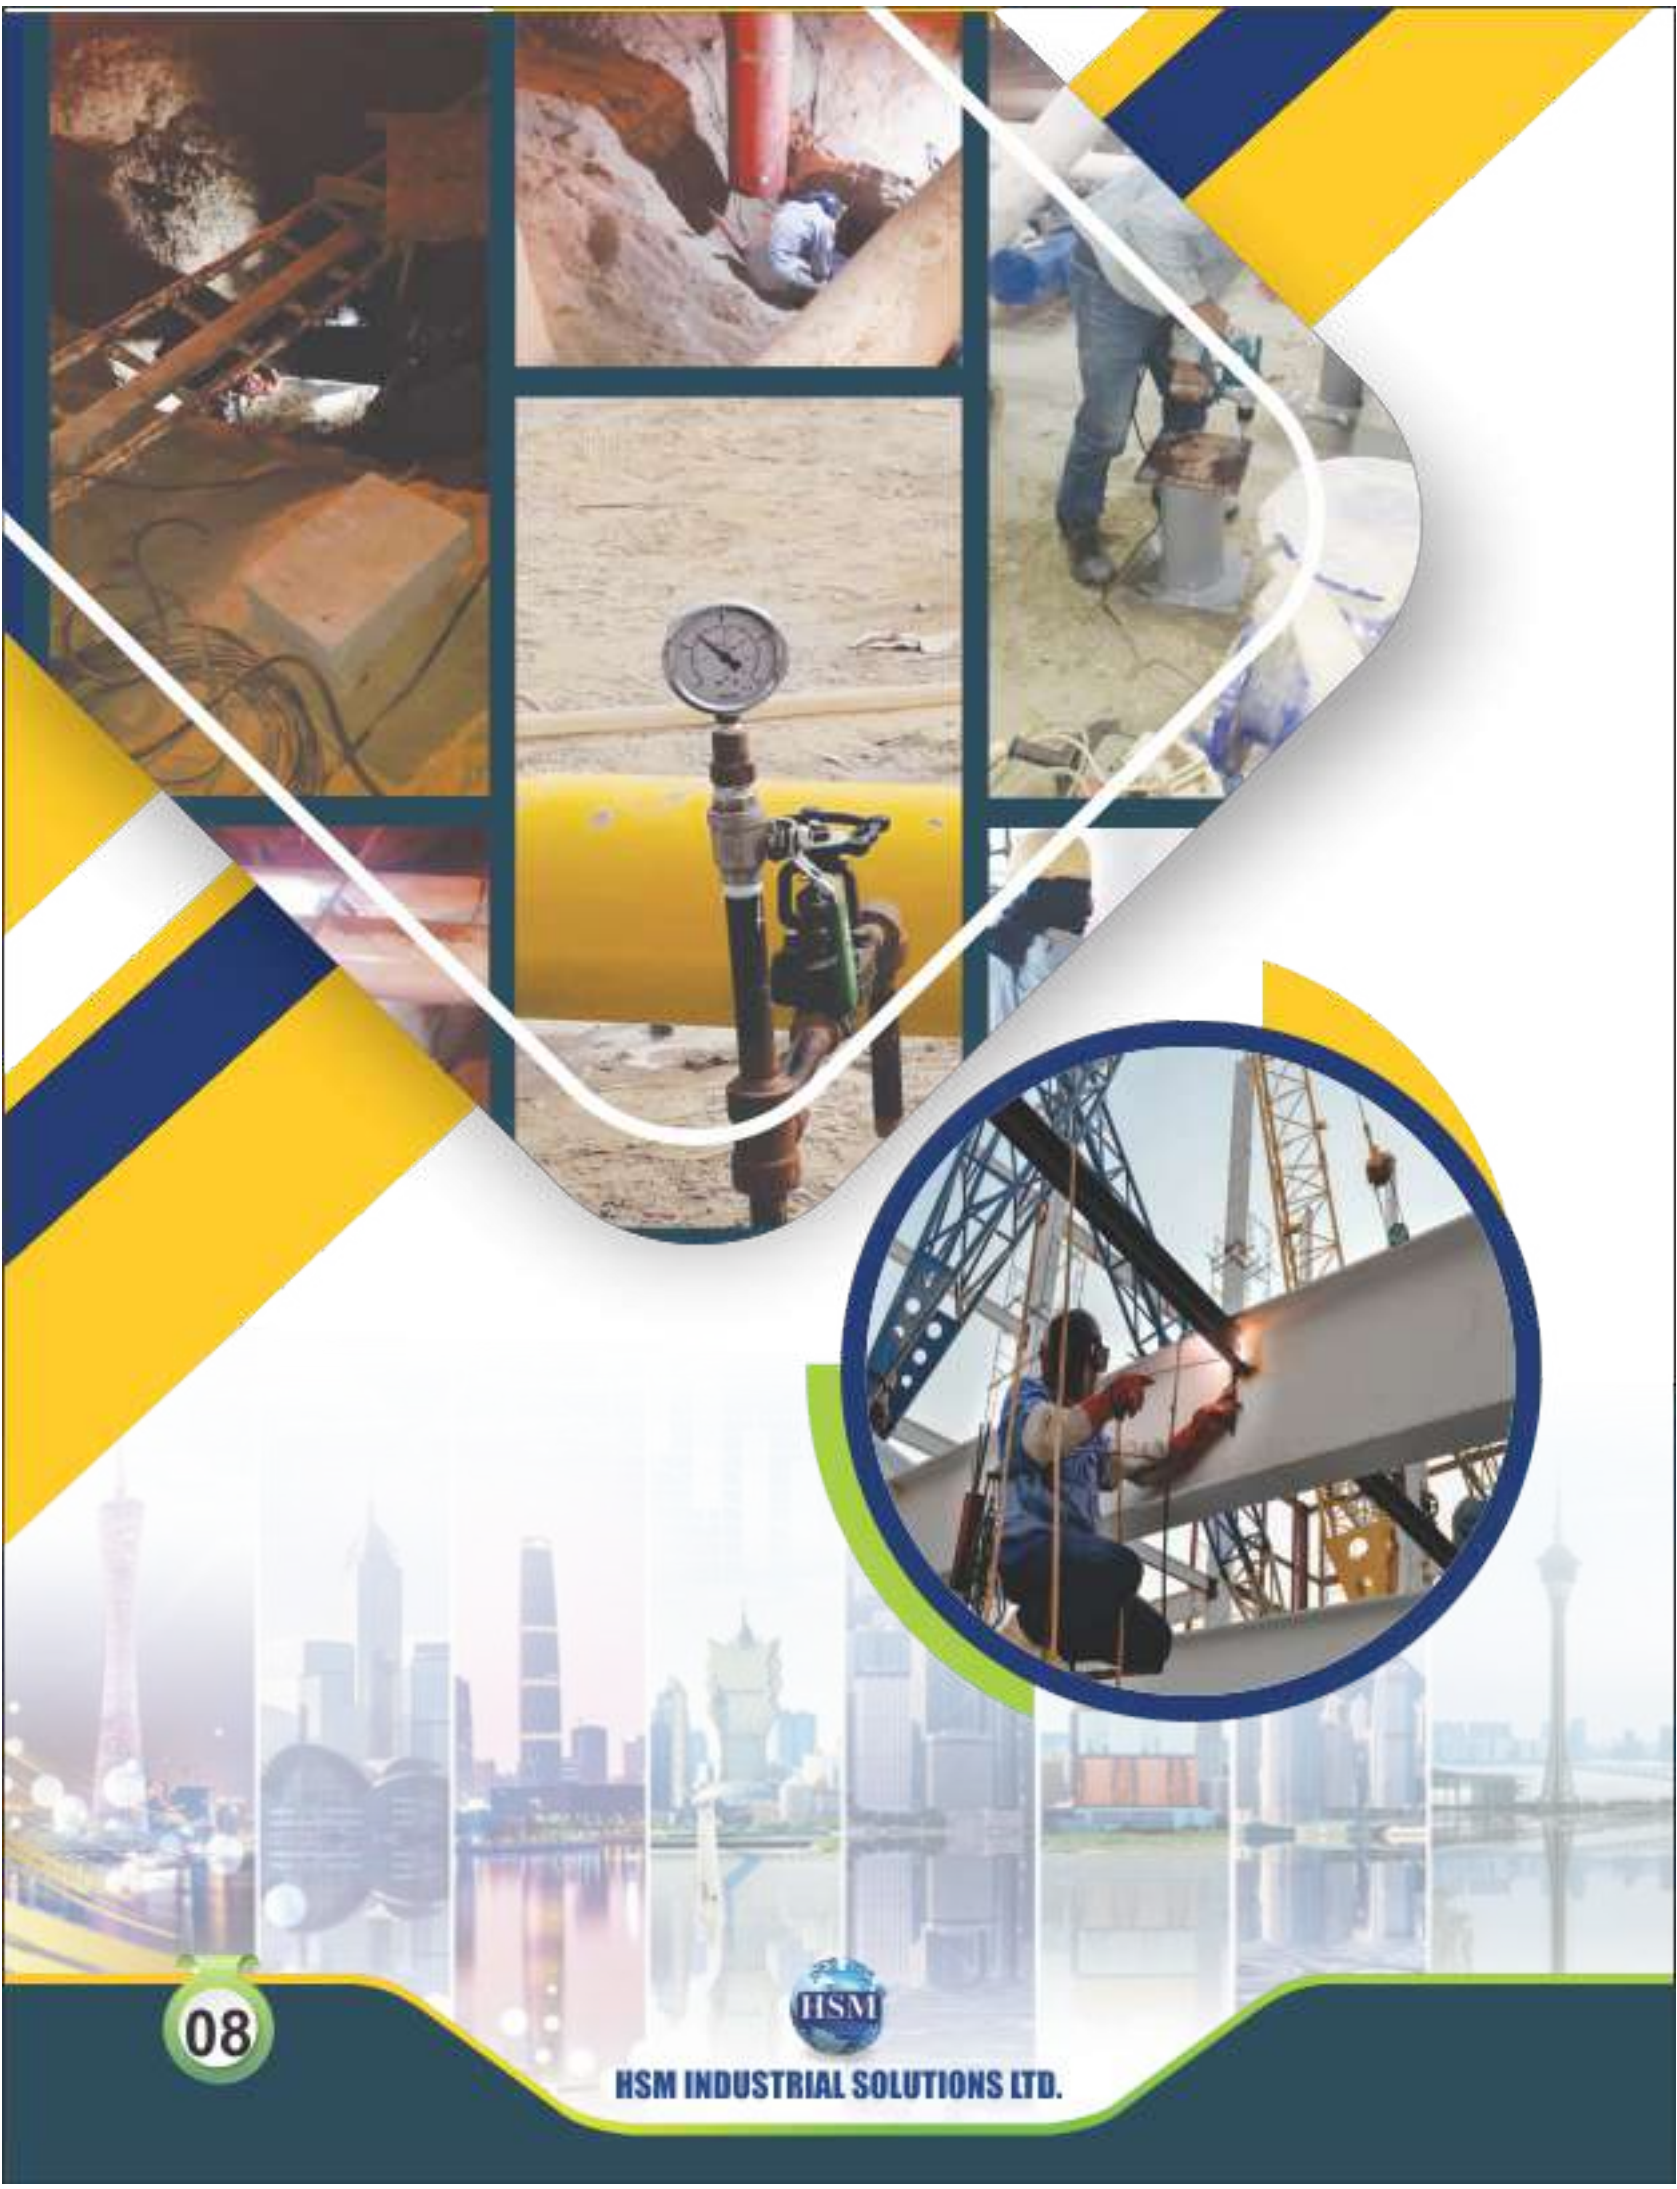

- HSM INDUSTRIAL SOLUTIONS LTD. Fabrication Division has a good track record and wide experience in the petrochemical and related industries. Our services include the fabrication and installation of structural and miscellaneous steel, equipment components, plate work, and bridge girders. In order to offer our customers a sole source steel fabricator to supply your entire project. HSM Engineering manages strategic partnerships with a select group of fabricators, offering a combined output structural steel. We have become the single-source structural steel fabrication and construction firm of choice by providing a dynamic full range of design, engineering, fabrication and erection services. Our complete in-house capabilities successfully enable fast response, maximum flexibility and complete coordination of all phases of any project.
- Related Activities
- Pressure Vessels / Columns / Reactors/ Towers
- Heat Exchangers / Air Fin Coolers
- Shop & Site Storage Tanks
- Flare Tips & Stacks
- Piping Spools

HSM INDUSTRIAL SOLUTIONS LTD.

## MECHANICAL ERECTION

HSM INDUSTRIAL SOLUTIONS LTD. has the capability to undertake mechanical fabrication and erection services at permanent work bases as well as make shift arrangement at sites. The ready availability of skills, man power, machinery and requisite paraphernalia makes it convenient to carry out mechanical fabrication and erection in following areas:-

- > Process Piping & Vessels
- > Fire fighting piping and related system
- > Fuel Tanks
- > LNG & CPG strong Tanks
- > Over Head and gentry cranes
- > Structural Steel
- > Dedusting Systems
- > Lifting & Commissioning of delicate electro mechanical members like Turbines, Transformers etc.

HSM INDUSTRIAL SOLUTIONS LTD.

## PLANT MAINTENANCE

HSM INDUSTRIAL SOLUTIONS LTD. takes pride in having highly skilled team of professionals to work in tough environment of refineries, chemical, petro - chemical, fertilizer, power, desalination and cement plants for maintenance, turnaround & shutdown projects, having key strength of 800 skilled personnel with experienced supervisory & management team having vast exposure to various plants in the Kingdom. Our main forte is to schedule safe job completion meeting quality standards and safety as a prime objective. The typical expertise lies in following areas:

- Annual & Planned Turnaround
- Emergency & Warrantee Shutdowns
- Plant Maintenance & Modifications
- Retrofits & Revamps
- Overhauling of the Specialized Equipment
- Repair & Refurbishment of Static Equipment

**HSM INDUSTRIAL SOLUTIONS LTD.**

## ELECTRICAL & INSTRUMENTATION

HSM INDUSTRIAL SOLUTIONS LTD. understand that instrumentation is critical for ensuring stable, accurate and reliable control of process. We offer following instrumentation services: Supply & Installation of Transmitters, Switches & Gauge for Pressure, Temperature Flow and Level application, Control Valves, on / off valves, Breather valves, Safety Valves, panels, junction boxes, cable laying & termination, perforated cable tray work, pedestal fabrication. Supply & Installation of DCS and PLC systems, SCADA systems, hazardous area control systems, fire and gas systems and process installation, termination & commissioning of indicators, transmitters and controllers, valves & other field instruments. Supply & Installation including cabling, marshaling panels, instrument air/gas tubing and impulse piping work. Testing, calibration & loop checking through fully trained technicians with certified testing equipment. Specialist knowledge on industrial projects for material selection and procurement related to electrical & instrumentation. Ability to pre-fabricate instrument support & other fabrication work for control packages on or off site. Supply of Manpower like skilled Engineers, Technicians for shut down maintenance, installation

**HSM INDUSTRIAL SOLUTIONS LTD.**

## CIVIL CONSTRUCTION

HSM INDUSTRIAL SOLUTIONS LTD. has been active in contracting construction as part of its overall Operation & Maintenance portfolio. As part of its plan, it has embarked on a strategy to enhance its market share in the very active construction sector in globally. With this in mind, it has strengthened its core competencies and formed some major Joint Ventures, bidding for projects in a number of diverse government sectors and is now fast becoming a formidable competitor in the field of construction.

- Commercial Construction
- Industrial Construction
- Pipeline Construction
- Road Construction

**HSM INDUSTRIAL SOLUTIONS LTD.**

## COATING SERVICES

HSM INDUSTRIAL SOLUTION LTD. Provide Coating Services involve applying a thin layer of material to a surface for protection, decoration, or to enhance properties. These services are used by manufacturers who don't have the necessary coating technology in-house, with companies delivering parts or finished products to the coating shop for the application of a coating.

Types of Coating Services:

**Powder Coating:** Applies a powder coating to a surface, which is then cured by heat to create a durable finish. This method is used on a variety of materials like metal, plastic, and wood.

**Electroplating:** A process that uses an electric current to deposit a metal coating onto a substrate, improving conductivity, corrosion resistance, and creating decorative finishes.

**Industrial Coating:** Involves applying a layer of material to protect or enhance the surface of parts, components, or equipment.

**Roll Coating:** Applies a coating to a flat substrate using rollers.

**E-Coat:** A process similar to plating and painting, where a part is submerged in a water-based solution containing a paint emulsion.

**Thermal Spray:** Applies a coating by melting a material and spraying it onto the surface.

Other specialized coatings: Including epoxy, urethane, zinc primers, enamels, and high-temperature coatings.
