MATT FINISH

Non-polished glaze tiles, randomly textured, non-reflective, scratch-resistant, and low-abrasion surfaces

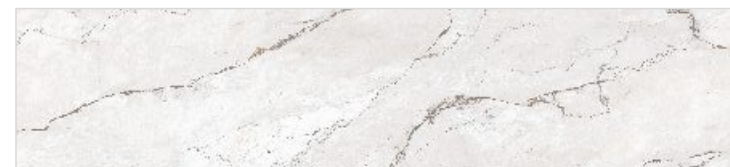

HIGH-GLOSS

Mirror-like reflections are visible in the design. Depth and sharpness in printing provide rich and extremely reflective gloss visibility.

CARVING

With scattered carvings randomly distributed across, resulting in a partially glossy and matte appearance.

DEAD MATT

Dead matt, non-reflective smooth surface with textured veins crafted using transparent yet shiny ink, which becomes reflective at certain angles.

DRY GRANULA

DIGI MATT

Full digital application tile with no top glaze. Transparent and shiny printing ink is used to create a depth-like effect on the smooth surface

MARBLE FINISH

Fast and Economical

GRESBOND Premium Tile adhesive can be easily applied over large areas with a notched trowel.

Easy to Work with

GRESBOND High-quality tile adhesives for wall application have good non-slump properties. The freshly laid tiles therefore do not slip on the wall. It is thus possible to lay the tiles from top to bottom without using spacers. This makes it easier to produce a uniform pattern.
