## STANDING THE TEST OF TIME

Windows are a permanent fixture in your happiness. How about sharing this piece of joy with generations to come? **Adorno Fensters**, we don't just put windows together, but we engineer them to be perfect. With an attention to details that borders on obsession, we craft the windows with utmost precision, so that it shows even decades later.

Presenting **Adorno Fensters** windows—designed to perfection. using German Engineering.

### TWO LEADERS. ONE GREAT PARTNERSHIP.

Adorno Fensters and NCL VEKA, Germany, Two behemoths with a combined experience of 90 years in window manufacturing, have come together to form Adorno Fensters and VEKA.

With VEKA network of fabricators in the country being the larger, and VEKA being the largest uPVC manufacturer in the world, NCL VEKA has a capacity to manufacture 24,000 tonnes of profiles every year, thereby, meeting the requirements of 5,00,000 homes (approximately).

Conforming to the highest European standards, NCL VEKA's products are also best suited for Indian conditions.

## FEATURES THAT STAY PERFECT FOR DECADES.

### LONG-LASTING STRENGTH

Most uPVC tends to change its colour and property due to sustained exposure to radiation. The engineered blend used in Adorno Fensters windows is UV stabilised that gives it a long life.

### ENERGY-EFFICIENT

The multi-chambered design of Adorno Fensters profile prevents the transfer of heat inside your house. This makes your house energy efficient by reducing your air-conditioning cost significantly.

### HEALTHIER INDOOR AIR QUALITY

The usage of high quality pile along with dual layer sealing system in Adorno Fensters windows prevents dust and pollution from entering your home. This ensures the air inside your home is cleaner and healthier.

### SAFE & SECURE

Every Adorno Fensters window is reinforced by a concealed GI section which is designed based on the wind pressure of that region, providing additional strength and stability. Making your home safe and secure.

### LEAD-FREE

Adorno Fensters windows are lead-free in line with the global trend to eliminate the use of lead in the construction industry. So you can be sure about the health of your family.

### WEATHERPROOF

The TPE gasket Adorno Fensters window keeps rainwater and wind away from your home, while the impact modifier provides resistance to the window during extreme weather conditions. This makes an Adorno Fensters window almost invincible in any kind of weather.

# FOUR GREAT REASONS

## TO CHOOSE US.

### GERMAN TECHNOLOGY

VEKA profiles are German engineering. They come with co-extruded Thermo-plastic Elastomer (TPE) gaskets. This unique gasket welds seamlessly with the corner joint and leads to better thermal & sound insulation, adding to the appeal of your windows. Glazing beads co-extruded with soft PVC gasket in colours to match the TPE gasket provides durability and better grip to the glass.

### FLEXIBLE DESIGN OPTIONS

VEKA doors and windows are custom designed for India. Which means that they have outward opening and have provisions for installing grills and insect mesh. Virtually any design, shape, size and colours are possible with Adorno Fensters

### END-TO-END SOLUTION

VEKA has the largest dedicated fabricator network in the country who are trained in fabricating different types of doors & windows. They provides end-to-end service right from suggesting the right profiles to fabricating them and then finally installing them. So that you do not have to worry at any stage.

### UNMATCHED SERVICE QUALITY

Technical Support Teams of the company are deployed at different locations to facilitate proximity with fabricators. The Technical Support Team Periodically visits the fabricating units and audit the process followed to ensure compliance with the specifications and process guidelines laid down by the company.

## CERTIFICATES

Adorno Fensters windows have been tested for its physical properties and its lead content. They Conform to the quality standards approved by the major accreditation councils.
