**Saad Al Shammari**  
CEO

## MESSAGE FROM CEO

“ Since every day is a fresh start for us, we strive to meet the needs of our esteemed traders and clients throughout the globe. To ensure that all of our manufactured goods reach end users without hiccups, we plan to extend our network throughout the GCC.

“ By importing goods of the highest caliber and guaranteeing timely delivery, we are unwavering in our efforts to enhance our performance in the market.

“ We want to build long-term relationships with our customers and traders by providing consistent performance and unparalleled service, as well as ensuring the quality of the products we offer.

“ We prioritize customer satisfaction by providing top-notch services, high-quality products, and affordable prices. So, we promise that you can always rely on us.

## ABOUT

# OUR COMPANY

We, Silver Shield Trading and Services. is one of the reputed companies in the Kingdom of Saudi Arabia, established in the year 2000, is considered to be one of the leading supply chain management company, manufacturers, suppliers, distributors, wholesalers, and retailers of the premium quality of welding equipment and accessories, fire blankets, metal working, tooling and cutting, and many more verticals. With our popular Tools Welding Tools, Cutting Tools, Power Tools, Safety Tools.

### **We are renowned as a quality driven organization because of the following reasons:**

- Business Ethical practices
- Highly improved infrastructure facility
- Experienced team of skillful
- Client Centric Approach
- Wide distribution network
- Timely delivery
- Wide Sourcing Network

#### **Our vision**

" To create a well-known and globally dominant company that can handle the demands of international trade and expand our product line with a highly skilled workforce "

#### **Our Mission**

" Our goal is to use an effective worldwide network to deliver cost-effective and comprehensive supply chain services."

#### **Our Strengths**

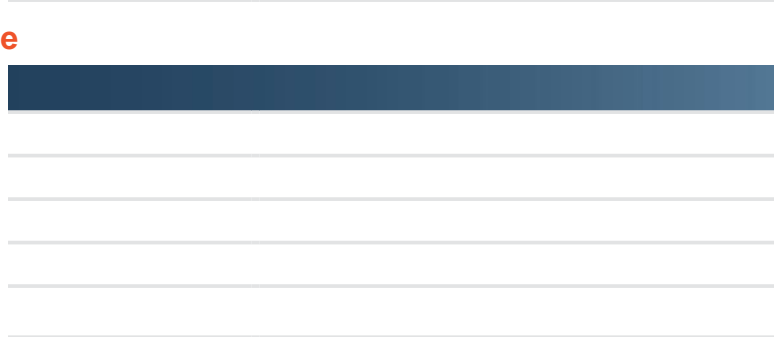

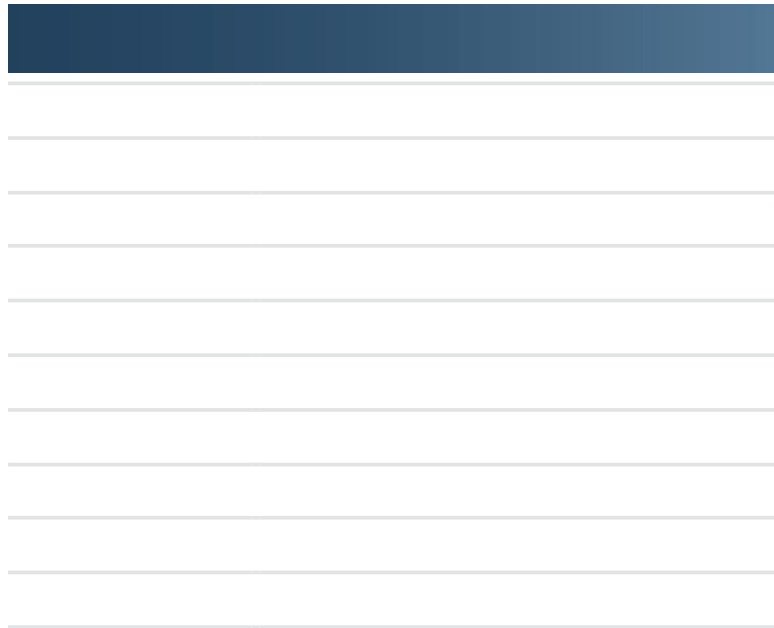

We provide a large selection of welding accessories as well as other cutting and tooling products to meet the needs of different customers in the Kingdom of Saudi Arabia's industrial market.

# ADJUSTABLE WRENCH

When it comes to safety and precision, the Non-Sparking Brass Adjustable Wrench is your trusted companion. This high-quality tool is designed to provide peace of mind in environments where sparks can be a serious hazard.

Part Number	Product Description
AWB6	Adjustable Wrench Brass 8"
AWB8	Adjustable Wrench Brass 10"
AWB10	Adjustable Wrench Brass 12"
AWB12	Adjustable Wrench Brass 15"
AWB15	Adjustable Wrench Brass 18"
AWB18	Adjustable Wrench Brass 24"

### Key Features:

- ★ **Non-Sparking Brass:** Crafted from durable brass, this wrench is non-sparking, making it ideal for use in explosive or flammable surroundings.
- ★ **Adjustable Design:** The wrench features an adjustable jaw, allowing you to easily tackle a variety of tasks with different bolt sizes.
- ★ **Precision and Reliability:** SSTS tools are known for their precision and reliability, ensuring that you can complete your tasks efficiently and accurately.
- ★ **Comfortable Grip:** The ergonomic handle provides a comfortable grip, reducing hand fatigue during extended use.
- ★ **Safety First:** With its non-sparking properties, this wrench minimizes the risk of accidents, making it an essential tool for industries where safety is paramount.

## Hands Tools & Non-Sparking Tools

# PIPE WRENCH

Discover the reliability and safety of Non-Sparking Brass Pipe Wrenches. Designed for professionals, these wrenches are built to handle a variety of tasks with ease. Crafted from high-quality brass, they are not only durable but also non-sparking, making them ideal for use in potential- ly hazardous environments.

### Key Features:

**Safety First:** brass pipe wrenches are non-sparking, reducing the risk of fire or explosion when working near flammable materials or in volatile settings.

**Durable Build:** Made from robust brass, these wrenches are built to last, ensuring longevity even in demanding conditions.

**Secure Grip:** The ergonomic handle design provides a comfortable and secure grip, allowing for precise control and minimized hand fatigue during use.

**Versatile:** SSTS wrenches are suitable for various pipe sizes and materials, making them versatile tools for professionals in plumbing, construction, and industrial maintenance.

**Easy to Use:** With a simple yet effective design, these wrenches are user-friendly and suitable for both beginners and experienced trades-people.

# WRENCH SPANNERS

When safety is paramount, trust SSTS Non-Sparking Brass Wrenches to get the job done without the risk of sparks. These high-quality tools are designed for use in environments where flammable gases or liquids are present, ensuring a secure and hazard-free workplace.

### Key Features:

**Non-Sparking:** SSTS Brass Wrenches are made from high-grade brass, a material that doesn't produce sparks when struck against metal surfaces. This eliminates the risk of ignition in potentially explosive atmospheres.

**Durable Construction:** Crafted with precision and built to last, our wrenches are corrosion-resistant and offer exceptional longevity, even in challenging industrial conditions.

**Wide Range:** SSTS offers a variety of wrench sizes to suit different applications, making them versatile tools for professionals in various industries.

**Easy to Use:** The ergonomic design ensures a comfortable grip and ease of use, reducing operator fatigue during prolonged tasks.

**Safety First:** With SSTS Non-Sparking Brass Wrenches, you can work confidently in hazardous environments, knowing you're protected from sparks that could lead to accidents.

# WELDING BRASS EARTH CLAMP

When it comes to welding, having reliable equipment is crucial for achieving precise and efficient results. The weld Brass Grounding Clamps, available in 300amp and 500amp models, are the epitome of quality and performance in the welding industry. Crafted with precision and built to withstand the rigors of professional welding environments, these grounding clamps ensure a secure and stable electrical connection for seamless welding operations..

## FINGER GUARD

Every day in many industries, people are sustaining hand and finger injuries that are preventable. Using the proper guard should be a necessary part of daily life. If you're working in areas where objects could hit you on the pinnacle, you'd wear a tough hat. If your eyes are in danger from foreign objects or wind blown particles, you'd wear safety glasses.

**SSTS**

**SSTS**

# Safety FACE SHIELD

weld is a leading manufacturer and supplier of face shields in Saudi Arabia. Their face shields are designed to protect the wearer from respiratory droplets, splashes, and other airborne particles. Here are some key features of the face shields from weld.

## Features

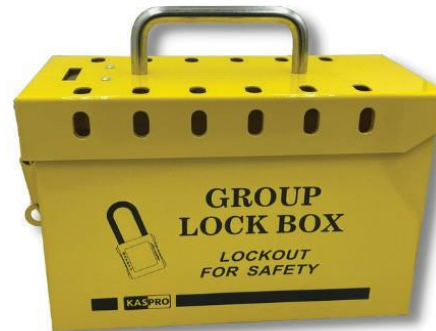

- High-quality material: The face shields are made of durable and high-quality materials, making them long-lasting and reliable.
- Adjustable fit: The face shields are designed to fit comfortably on any head size, with an adjustable strap that ensures a snug fit.
- Full-face protection: The face shields provide full-face coverage, protecting the eyes, nose, and mouth from exposure to harmful particles.
- Anti-fog coating: The face shields are coated with an anti-fog material that prevents fogging, ensuring clear visibility for the wearer.
- Lightweight and comfortable: The face shields are light and comfortable, making them ideal for prolonged use.

# Safety LOCK BOX

WELD Being a trustworthy name in the industry, we are able to offer a superior quality array of Group Lock Box to our patrons. We are the foremost firm offering Group Lock Box. Lock boxes are ideal for the groups responsible for maintenance working in shifts, with staggered hours or by subcontracting. These products have found their maximum use in locking out large machines in industries with complex setup. Used as storage of various lockout devices, these boxes are manufactured by using high quality steel making it durable.

# Safety

## DISPOSABLE MASK - KN95

They introduced the KN95 Mask by weld, a top-quality respiratory protective gear designed to ensure maximum protection against harmful airborne particles. Our masks are manufactured using high-quality materials and state-of-the-art technology, ensuring that they meet the highest safety and reliability standards.

### Key Features of KN95

- **High filtration efficiency:** Our masks have an efficiency of at least 95%, making them highly effective in filtering out small particles, including viruses, bacteria, and dust.
- **Comfortable and breathable:** The masks are designed to be pleasant to wear, with a soft and adjustable nose bridge and ear loops that fit snugly without causing discomfort or irritation.
- **Durable and long-lasting:** Our masks are made with durable materials designed to withstand repeated use without losing their effectiveness or shape.

# Safety GOGGLES

Introducing the weld Safety Welding Dark Goggle - the ultimate eye protection gear for welders. This high-quality welding goggle protects your eyes from harmful radiation, debris, and bright light during welding. weld Safety Welding Clear Goggle, the ultimate solution to protect your eyes during welding and other industrial work.

**DARK**

## Features

- Comfortable fit: The goggle has an adjustable head strap and a soft frame that fits snugly on your face, ensuring maximum comfort and protection.
- Dark lens: The weld Safety Welding Dark Goggle has a dark lens that offers superior protection against bright light and harmful radiation, ensuring your eyes are always safe.
- Anti-fog lens: The goggle has an anti-fog lens that prevents fogging, ensuring that your vision is not obstructed during welding.

**WHITE**

## Features

- Clear Vision: The weld Safety Welding Clear Goggle provides a crystal-clear view of your work space so that you can work with precision and accuracy.
- Anti-Fog Coating: The anti-fog coating on these goggles prevents fogging, ensuring a clear view.
  - Full Coverage: These goggles provide full coverage around the eyes and are designed to fit comfortably over most prescription glasses.

# Safety

## DISPOSABLE COVERALLS

Trusted Brand: SSTS is a leading name in the industry, renowned for its high-quality disposable coveralls. With years of expertise and a commitment to excellence, SSTS ensures that your safety is never compromised. Superior Protection: SSTS disposable coveralls are designed to provide unparalleled protection against various hazards. These durable and tear-resistant coveralls shield you from chemicals, liquids, particles, and other contaminants, ensuring a safe working environment.

## SOLAR WARNING LIGHTS

### Barricade Type Traffic Cone

**Sustainable Lighting Solution:** SSTS solar blinking lights are eco-friendly lighting devices powered by solar energy. They harness the power of the sun to provide efficient illumination without relying on traditional electricity sources. You can reduce your carbon footprint with these lights while enjoying reliable lighting. **Versatile Applications:** The SSTS Solar Blinking Lights are designed to cater to various needs. They can be used for outdoor pathways, driveways, gardens, and parking lots, enhancing safety and visibility during nighttime.

# Safety

## BODY HARNESS

A safety harness is a form of protective equipment designed to safeguard the user from injury or death from falling. The core item of a fall arrest system, the harness is usually fabricated from rope, braided wire cable, or synthetic webbing. It is attached securely to a stationary object directly by a locking device or indirectly via a rope, cable, or webbing and one or more locking devices. Some safety harnesses are used in combination with a shock-absorbing lanyard, which is used to regulate deceleration and thereby prevent a serious G-force injury when the end of the rope is reached.

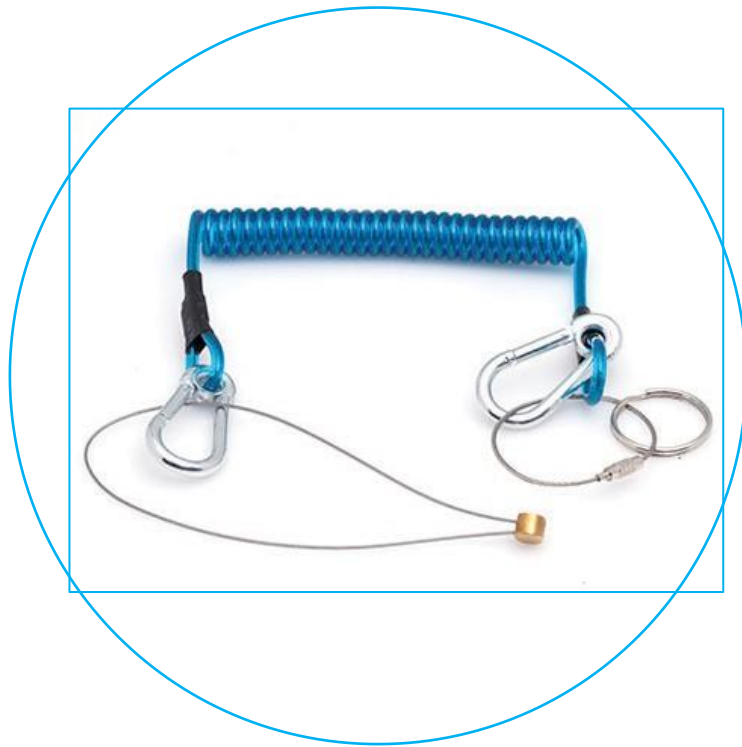

# Safety

## TOOL LANYARD

## WHIP CHECK

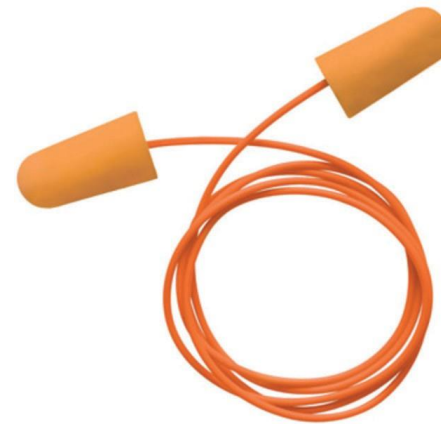

SSTS safety whip checks offer a professional solution for securing hoses during connections. the carbon steel and stainless steel construction ensures durability and safety across various applications. with a user-friendly design, these whip checks significantly mitigate the risk of hose whip incidents, promoting a safer work environment. Trust SSTS for dependable hose connections and elevated workplace safety standards.

# Safety

## EARPLUG WITH CORD

Corded ear plug signifies a superlative choice for hearing protection within professional milieus, meticulously devised to surpass the rigorous requisites of industries where auditory preservation is paramount. This ear plug, distinguished by its precision engineering and exceptional performance, stands as a paramount solution for safeguarding auditory well-being. Fabricated from premium-quality, hypoallergenic materials. Corded Ear Plug boasts remarkable noise attenuation capabilities, affording substantial reduction in exposure to detrimental sound levels typical in industrial, construction, and manufacturing domains.

## WELDING HAND SLEEVE & JACKET

Special standard design protects the torso and thighs. Abrasion resistance and adaptability operation while working. Welding Leather Apron Premium are product of Anti-scald, Glass processing, Spark, splatter, slag. Suitable for dry heavy physical labor and welding protection. Welding, splash proof, Heat resistant, Cut and other safe workplaces. Introducing the weld Welding Leather Hand Sleeves - the ultimate solution for protecting your hands from welding hazards!

Leather Sleeve

### Key Points Include :

- Superior Protection: Made with high-quality materials, these welding sleeves provide excellent protection from heat, sparks, and slag, making them a must-have for any welding project.
- Comfortable Fit: These sleeves are designed to fit snugly over your hands, with an adjustable strap to ensure a secure fit. The lightweight and breathable material also ensures maximum comfort during use.

Leather Jacket

# Safety

## RABER CAP

Raber safety caps or mushroom caps as they are also known are a widely used health and safety product that is used inside the construction industry to cover exposed raber poles to prevent injuries and death. These raber scaffold inserts work in A similar way, except they slot into the end of scaffolding poles to prevent access and injuries.

- Made from durable plastic
- Wide applicability
- Yellow has high visibility
- Small size and easy to carry

# SAFETY SHOES

Introducing our premium Gum Boots explicitly designed for the welding industry, proudly manufactured and supplied in Saudi Arabia. These boots are designed to provide maximum protection, comfort, and durability, making them the perfect choice for welders working in harsh environments.

## Key features:

- Made with high-quality materials that are resistant to heat, chemicals, and punctures
- Slip-resistant sole for optimal safety on wet and oily surfaces
- Steel toe cap for additional protection against heavy objects
- Reinforced ankle support for added stability and comfort
- Designed to be easy to clean and maintain, ensuring long-lasting use
- Available in a range of sizes to fit all foot sizes comfortably.

# SCAFFOLDING HOLDER & SCAFFOLDING TAG

We are leading manufacturer and exporter of Scaffolding aramco holder. Backed by our diligent professionals, we are engaged in manufacturing, supplying and trading big range of Scaffolding aramco holder.

## SCREEN & STAND

WELD Safety Welding Curtains is easy to use. These Welding Curtains are suitable for protecting the bystanders from dangerous radiations emitted during the welding process. Therefore, these Welding curtains also offer protection to the welders against reflection of the welding light. These curtain provide protection from dangerous blue light and ultra violet (UV) rays, which causes actinic conjunctivitis & cataract, in case of prolonged exposure. These Welding curtains are used to barricade the area where welding work is carried and are available in Color: Dark Red, (Orange) Yellow, Dark Green.

**25KG – 220V**

**50KG – 220V**

**110KG – 220V**

**200KG – 400 Degree**

**200KG – 500 Degree**

The compact and energy-efficient design of these ovens makes them a cost-effective choice. They are specifically tailored for small to medium-sized shops. By maintaining the electrode rods at the optimal temperature, these ovens ensure that welds are shielded from the detrimental effects of moisture.

In summary, investing in welding rod ovens is a practical choice for welders and shops looking to enhance the quality of their welds and prevent common issues associated with moisture-contaminated welding rods.

## VICTOR STYLE TORCH

### Torch Handle

**KAS315**

Body Marked "FLASH ARRESTOR"  
Clearly Indicates Handle has  
Built-in Flashback Arrestors

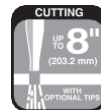

Improved Control Valve Flow Capacity

Reduced Weight Increases Comfort

### Cutting Attachment

**KAS2460**

### Welding Nozzle

**#-W**

Size	Metal Thick
0-W	0.8-2.0mm
1-W	1.2-2.4mm
2-W	1.6-3.2mm
3-W	3.2-4.8mm
4-W	4.8-6.4mm
5-W	6.4-12mm

### Heating Nozzle

**#-MFA**

Size	Ace. Pressure	Oxy. Pressure
4-MFA	6-10psi	8-12psi
6-MFA	8-12psi	10-15psi
8-MFA	10-15psi	20-30psi
10-MFA	12-15psi	30-40psi
12-MFA	12-15psi	50-60psi
15-MFA	12-15psi	50-60psi

### Cutting Nozzle

Oxy-Acetylene

**1-101**

Size	Metal Thick
00-1-101	6mm
0-1-101	12mm
1-1-101	18mm
2-1-101	25mm
3-1-101	50mm
4-1-101	75mm
5-1-101	100mm

### Cutting Nozzle

Oxy-LPG

**1-GPN**

Size	Metal Thick
00-1-GPN	6mm
0-1-GPN	12mm
1-1-GPN	18mm
2-1-GPN	25mm
3-1-GPN	50mm
4-1-GPN	75mm
5-1-GPN	100mm

### Features:

The classical heavy duty flame welding and cutting torch, made from original brass under the UL strict industrial standard, various options for all of Welding, Cutting and Heating jobs. Built-in Flash-back Arrestor ensure safe working. The whole process inspection makes every product in readied fine condition for Open-Work. This is a Durable Productivity tools worth you own.

# WELDING TWIN HOSE

## Description:

Twin welding hose is a premium twin line welding hose. Both of the tube and cover are flame and oil resistant. The RED line is for fuel gas like acetylene, propane and propylene. GREEN line is for oxygen. The non-blooming tube minimizes the migration of combustible waxes to the surface. While multiple plies of textile provide pressure resistance. The cover is resistant to abrasion, flame, oil and ozone. The twin welding hose is also available in factory-fabricated and tested hose assemblies in popular configurations.

## Structure:

## Application:

For Welding, Brazing, Heating and Cutting

Working Temperature: -20°C to 70°C

Reinforcement: High strength synthetic cord

Cover: Green/Red, smooth, synthetic rubber

Standard: ISO 3821/EN559

## Models:

Part Number	Length	I.D.	O.D.	W.P.	B.P.
WB1415	7.5m	1/4"/6.35mm	13mm	20bar/300psi	60bar/900psi
WB1420	20m	1/4"/6.35mm	13mm	20bar/300psi	60bar/900psi
WB1430	30m	1/4"/6.35mm	13mm	20bar/300psi	60bar/900psi
WB1450	50m	1/4"/6.35mm	13mm	20bar/300psi	60bar/900psi
WB1475	75m	1/4"/6.35mm	13mm	20bar/300psi	60bar/900psi
WB14100	100m	1/4"/6.35mm	13mm	20bar/300psi	60bar/900psi

# WELDING FLASHBACK ARRESTOR

Flashback Arrestor – your reliable safety companion for welding. This essential device prevents dangerous gas backflow, ensuring a secure work environment. Crafted with precision, it's the perfect safeguard for welders. Trust WELD for peace of mind in every project. Safety first, welding second!

**Western Style** KASFBAR01

for Regulator  
Oxy. 10bar/143psi, Ace. 1bar/15psi  
9/16"-18UNF  
Ø18.5mm, Length 81.5mm, 126g

**Western Style** KASFBAT01

for Torch  
Oxy. 10bar/143psi, Ace. 1bar/15psi  
9/16"-18UNF  
Ø19mm, Length 65mm, 83g

**German Style** KASFBAR02

for Regulator  
Oxy. 10bar/143psi, Ace. 1bar/15psi  
9/16"-18UNF  
Ø21.5mm, Length 85mm, 129g

# WELDING WELDING HOLDER

Introducing the Welding Electrode Holder Brand weld, the perfect tool for all your welding needs. Our electrode holder is made from high-quality materials for maximum performance and durability, and is available in 300A & 500A options, suitable for a wide range of welding applications. It features a comfortable grip for secure hold and is built to withstand tough DIY enthusiasts, the Welding Electrode Holder Brand weld is the perfect choice. Get yours today and experience the difference for yourself!

## KASWHJ300

Original Japan type. 300A. The best design of welding holder. Forged brass jaw for ideal current transmission.

## KASWHJ500

Original Japan type. 500A. The best design of welding holder. Forged brass jaw for ideal current transmission.

## KASWHA300

Original American type. 300A. Heavy duty brass jaw for ideal current transmission.

## KASWHA500

Original American type. 500A. Heavy duty brass jaw for ideal current transmission.

# WELDING EARTH CLAMP

Elevate your welding experience with the weld Earth Clamp, a must-have tool for all your welding endeavors. Created to cater to both beginners and experienced welders, this essential device ensures a dependable and steady connection, offering you peace of mind and improving your overall productivity.

## KASEC300A

Original Japan type. 300A. The best design of welding holder. Forged brass jaw for ideal current transmission.

## Features

### Versatile Amp Options:

Choose from 300amp, 500amp, and 600amp for tailored welding tasks.

### Sturdy Build:

Engineered for durability, ensuring a prolonged lifespan.

### User-Friendly Design:

Easy to use and attach, streamlining the welding setup process.

### Reliable Connection:

Ensures a secure and stable connection, enhancing overall safety.

## KASEC500A

Original Japan type. 500A. The best design of welding holder. Forged brass jaw for ideal current transmission.

## KASEC600A

Original Japan type. 500A. The best design of welding holder. Forged brass jaw for ideal current transmission.

# WELDING BRASS EARTH CLAMP

When it comes to welding, having reliable equipment is crucial for achieving precise and efficient results. The weld Brass Grounding Clamps, available in 300amp and 500amp models, are the epitome of quality and performance in the welding industry. Crafted with precision and built to withstand the rigors of professional welding environments, these grounding clamps ensure a secure and stable electrical connection for seamless welding operations..

**KASECTM300A**

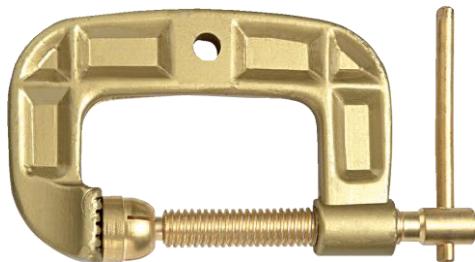

Original Japan type. 300A. The best design of welding holder. Forged brass jaw for ideal current transmission.

**KASECTM500A**

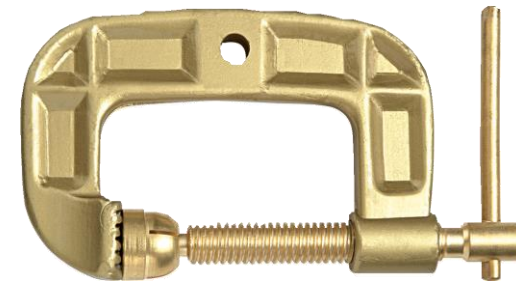

Original Japan type. 500A. The best design of welding holder. Forged brass jaw for ideal current transmission.

**KASEC300J**

Original American type. 300A. Heavy duty brass jaw for ideal current transmission.

**KASEC500J**

Original American type. 500A. Heavy duty brass jaw for ideal current transmission.

# THANK YOU

Thank you for choosing SSTs as your provider of high-quality products! We are pleased to offer a wide range of products that are designed to meet your needs with exceptional quality and reliability.

## Reliable Tools and Accessories supplies.

Thank you for choosing SSTs! We offer a wide range of high-quality products in welding, safety, tools, and scaffolding materials. Our team of experts is dedicated to delivering outstanding customer service and support ensuring your satisfaction. Contact us for any questions or concerns.

## Have questions? Contact us!

We are committed to providing exceptional customer service. Contact us with any questions or concerns, and let us help you with your welding needs. Thank you for choosing weld!
