ARMOR EXPRESS

2022 PRODUCT CATALOG

**BRINGING
YOU
HOME
SAFE**

WHO WE ARE ▶

Our customers must have peace-of-mind when donning their armor systems — there can be no doubt.

Armor Express was founded in 2005 with one purpose in mind: to enable those that protect us every day to come home safely. We pride ourselves on designing, manufacturing, and supplying ballistic protective solutions for organizations of any size, from small teams to organization-wide deployments, with high-quality, high-performance solutions to meet their mission requirements.

LIFE-SAVING SYSTEMS ▶

Armor Express is focused on the health and wellbeing of our customers and their families before, during, and long after our armor has done its job. Lt. Brian Murphy (Ret.), a former Armor Express save himself, leads our SAVES Program and serves as the first point of contact for any who have faced death in the name of protecting the peace while wearing our products.

We continue to adapt this program to ensure it is meeting the evolving needs of the community as it grows. With each SAVE, we learn more about officer and family needs, and how we can be a conduit for healing.

**THE SAFEST SOLUTIONS THE
INDUSTRY HAS COME TO TRUST.**

KEY PARTNERSHIPS ▶

Our key partnerships provide significant insight into what our customers need, their current challenges, and offer an opportunity to connect on the solutions we are creating to ensure success in the field:

FBI National Academy
Associates Inc.

Major County Sheriffs
of America

Ohio Tactical
Officers Association

Texas Tactical Police
Officers Association

NAVIGATING OUR CATALOG ▶

INTRODUCTION SECTION | This section will guide you in the selection process, helping you understand the steps you need to take to buy the right protective body armor solution.

HERO PAGES | These pages represent our showcase products for each category. Detailed information on each hero product is presented in an easy-to-follow fashion.

COMPARISON CHART | See how each product in its respective category stacks up based on key attributes, features, and options.

ICONS | We use icons and other visual callouts to showcase significant product attributes or features.

Concealment

How concealed is this carrier when worn under normal clothing.

Comfort

How comfortable is this carrier to wear in comparison to the other carriers in our lineup.

Cost Within Category

How does the price of the carrier stack up against other products in this category.

Armor Coverage

How much surface area of my body is covered in respect to the product category.

Durability

How robust is the product and resistant to wear and tear.

Breathability

The level of thermal management one should expect from this product.

Modularity

To what capacity does the carrier offer additional options and compatibility with armor accessories.

Designed for Shared Use

Product was designed with a wide range of adjustability to be shared between teammates.

Uniform Blend

How well the product blends with the user's duty wear.

Maximum Armor Coverage

The additional protective coverage achievable through options and accessories.

BOA™ Fit Adjustment System

Hidden Adjustable Dynamic Cummerbund

AGILE CANINE VEST (ACV)

Designed based on feedback and testing by multiple agencies, the Agile Canine Vest or ACV is the most advanced K-9 carrier soft armor solution on the market. With groundbreaking features such as the hidden Dynamic Cummerbund, shoulder fit adjustments and covered zipper closure, the ACV is a streamlined package allowing the K-9 to be free in movement with minimal snag points, while offering the best armor options in ballistic and stab protection. Now available with the durable BOA® Fit System, which allows for instant micro-adjustments for a precise and custom fit. Patents pending.

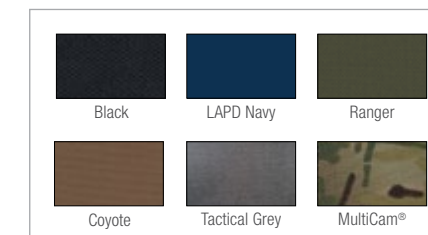

CONFIGURATIONS

- BOA™ Fit Adjustment System

TEX 10

We've got your K-9 partner covered with our custom sized TEX 10 K-9 armor. With improved comfort, mobility and reduced weight, the TEX 10 K-9 armor offers outstanding functionality. The TEX 10 features dual crowd control handles, two D-Rings for short or long leads, MOLLE webbing for attaching flashlights and tracking devices, as well as optional left, right, and front ID tags. Made from durable nylon material, the TEX 10 has three buckles for ease of getting into, adjusting and removing. The TEX 10 provides maximum coverage to the vital organs.

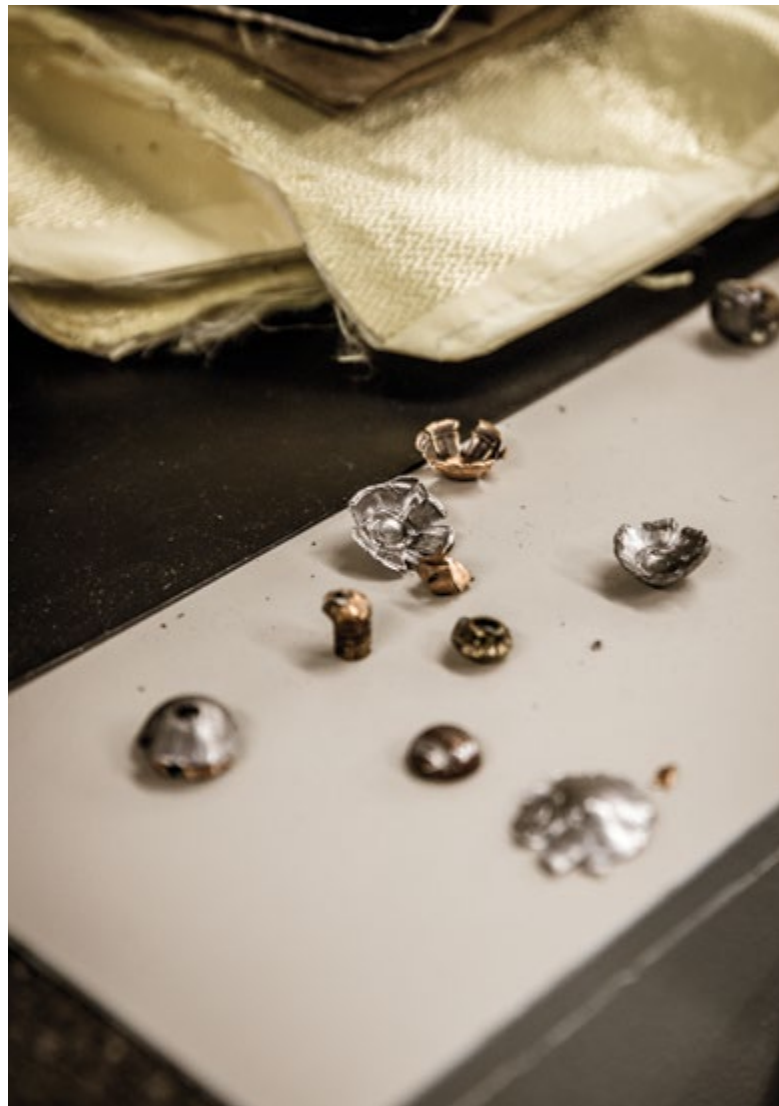

ADVANCING BALLISTIC TECHNOLOGY ▶

Driving innovation never stops and when you're manufacturing products designed to save lives, the commitment to safety is foremost...always. That is why we collaborate so closely with our supply chain partners, ensuring we have access to the highest-performing materials throughout the industry, and the know-how to develop packages that always exceed the required standards.

Thousands of U.S. Armed Forces members, domestic and federal LE officers, and First Responders nationwide rely on our solutions to support their mission-critical requirements. Our customers must perform at the most optimal level, whether at home or abroad, and rest easy knowing their armor will function as it was designed to. In Central Lake, we house our Ballistic Research Laboratory (BRL). It is here where we test thousands of rounds of ammunition and go above and beyond the standard NIJ threats with our own special threat protocol for level II, IIIA, III, III+, and IV armor systems. We are constantly testing new materials which result in lighter packages, more flexible designs and increased protection for end-users.

With new NIJ standards on the horizon (NIJ .06 to NIJ .07), collaboration within and throughout the industry has never been greater. We are well-positioned to drive innovation and bring to market new solutions unlike anything the industry has seen.

TESTING STANDARDS ▶

NIJ TESTING

NIJ Testing for NIJ 0101.06-Certified Level IIA, II, IIIA, III, or IV armor.

SURGE III ICW

SURGE III ICW

Thin, top-tier, lightweight, rifle plate protection – the SURGE™ Rifle Plate in Level III ICW is an aggressive armor that won't slow you down. The SURGE was built to surpass independent testing requirements for Level III ICW with select Level IIIA and II soft armor systems. The SURGE is available in 7"x9" full cut, 8"x10" shooters cut, and 10"x12" shooters cut configurations.

SPECIFICATIONS

- Protection Type / Level: III ICW
- Thinness: 0.55 inches +/- 0.125"
- Curvature: Multi-Curve

Available in 10"x12" Shooters Cut, 8"x10" Shooters Cut, or 7"x9" Full Cut

SURGE III+ ICW

SURGE III+ ICW

Thin, top-tier, lightweight, rifle plates now in a level III+ ICW protection – the SURGE™ III+ ICW Rifle Plate maintains the same high-speed low-weight attributes but now stops even more threats. The SURGE was built to surpass independent testing requirements for Level III+ ICW with select Level IIIA and II soft armor systems. The SURGE III+ is available in 7"x9" full cut, 8"x10" shooters cut, and 10"x12" shooters cut configurations.

SPECIFICATIONS

- Protection Type / Level: III+ ICW
- Thinness: 0.75 inches +/- 0.125"
- Curvature: Multi-Curve

Available in 10"x12" Shooters Cut, 8"x10" Shooters Cut, or 7"x9" Full Cut

PERAFLEX SYSTEM POUCHES

Streamlining your gear, minimizing bulk, and reducing weight is at the core of our Peraflex system pouches. They are specifically designed to work with select Armor Express tactical and overt patrol carriers. By transitioning the pouch enclosure to an internal system, we utilize the structure of the core vest to keep the Peraflex pouch construction to a minimum. Lightweight, yet strong and flexible, this line offers the flexibility to customize your kit, while adding very few ounces. Can be used in both front kangaroo or cummerbund configurations.

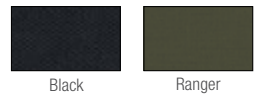

OUR PERAFLEX SYSTEM POUCH LINEUP INCLUDES:

- M16/M4 Single Mag Pouch
- M16/M4 Double Mag Pouch
- M16/M4 Triple Mag Pouch
- Single Pistol Mag Pouch
- Double Pistol Mag Pouch
- Small Adjustable Bungee Flashlight Pouch
- Handcuff Single Pouch
- IFAK Single Pouch

SAU shown here with Peraflex M16/M4 double mag pouch, and small adjustable bungee flashlight pouch ▶

▲ Peraflex pouches are slimline enough to secure your needed accessories inside the kangaroo or cummerbund on select vests without being too bulky, effectively removing clutter and snag points while also reducing weight

HARD ARMOR SHOULDER PLATE (HASP)

An ever-changing world calls for continuous updates in officer protection. The Hard Armor Shoulder Plate system (HASP), is an advanced, lightweight, ballistic shoulder protection plate and carrier exclusive to the Armor Express product line. Available in Level IIIA, III, or III+ ballistic options, the HASP system offers added shoulder protection to your plate carrier or tactical kit. The HASP carrier was engineered with the latest laser cut material resulting in a durable, low-profile, reduced-weight product.

STANDARD FEATURES

- 4-way stretch fabric for comfort fit
- ID/Patch attachment point
- Bottom loading

BALLISTIC STRUCTURED DELTOID PROTECTORS

SRT - PADDED BATTLE BELT

(SPECIAL RESPONSE TEAM)

The SRT tactical belt was built from countless hours of product testing and evaluation. It offers an effective and comfortable platform for the needs of today's modern tactical officers. Available in MOLLE and laser cut configurations, the SRT comes standard with a padded insert or it can be upgraded with a ballistic insert. Available in sizes XS-4X. The SRT tactical belt also includes a rigors belt with COBRA® buckles by AUSTRIALPIN™

STANDARD FEATURES

- 1 500 DENIER LAMINATED MATERIAL
- 2 "CELLED" MOLLE FIELDS FOR "BELT OVER" ACCESSORY INTERFACE [HOLSTERS]
- 3 LUMBAR SUPPORT WITH 4-WAY STRETCH
- 4 3D SPACER MESH LINING
- 5 SUSPENDER COMPATIBLE
- 6 INCLUDED 1.75" RIGGERS BELT WITH COBRA® BUCKLES BY AUSTRIALPIN™

FIRST RESPONDER BAG

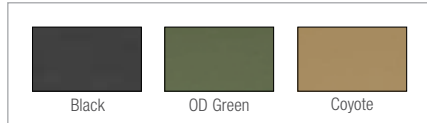

Our padded First Responder Carry Bag is the ideal storage for your First Responder gear needed at the ready. Large enough to house your loaded out plate carrier kit and helmet, it can be quickly deployed for easy access—so you are ready to respond at a moment's notice.

First Responder Carry Bag
dimensions: 25" x 24"

- First Responder Bag
- 6 rows of MOLLE webbing
- ID attachment point
- 2 hard armor plate pockets on rear

24"x36"	16 lbs	Viewport and Light
24"x48"	17 lbs	Viewport and Light
(*) Weights are approximate		

See specs and ballistic testing information at www.armorexpress.com

The M1 is the future of Level IIIA ballistic shields. Hybrid ballistic technology minimizes weight while increasing protection. The shape of the M1 gives the user greater coverage, while allowing for multiple shooting platforms with handgun or long gun. Keeping the weight down allows operators to engage threats and obstacles with less fatigue. The rear of the M1 is covered in loop, allowing for operators to place mirrors, entry tools and other necessary equipment at arm's reach, while still being able to remain behind the protection of the shield.

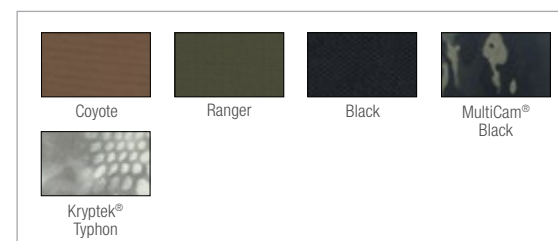

STANDARD FEATURES

- Black Textured Nylon Face / Loop Body
- 5"x11" Viewport
- Hybrid Composite Ballistic Construction
- Ambidextrous Straight Bar Handle
- Durable Edge Wrap Protection
- High Strength Forearm Strap
- Closed cell Ambidextrous Foam Forearm Pad
- NIJ 0108.01 Rated IIIA

OPTIONAL FEATURES

- 1100 lumen Fox Fury LED Light System with Strobe integrated handle – 1.1lbs.
- Elzetta Tridextrous handle with or w/o integrated 1000 lumen light
- Elzetta horizontal handle with or w/o integrated 1000 lumen light
- Removable Agency ID Placard
- Carry Bag
- CORBOND ID Label

COLOR OPTIONS FOR M1 & S1 BALLISTIC SHIELDS:

S1

The S1 is far from your standard Level IIIA ballistic shield. Like the M1, the S1 utilizes the same hybrid ballistics which minimize weight while increasing protection. The time-tested, rectangular shape has been the standard for providing max coverage for the operator. The rear of the S1 is covered in loop, allowing for operators to place mirrors, entry tools and other equipment within arm's reach, while maintaining the protection of the S1.

S1 Standard Sizes, Level IIIA

- Elzetta horizontal handle with or w/o integrated 1000 lumen light
- Removable Agency ID Placard
- Carry Bag
- CORBOND ID Label

R1

The R1 is the new standard in lightweight, rifle-rated Level III ballistic shields. Utilizing hybrid ballistic technology which minimizes weight while increasing protection, the operators now have rifle protection at their fingertips. The R1 comes in two sizes to fit the needs of today's operators. Whether deploying from a squad car, armored vehicle, or raid van, the R1 is your go-to, mobile rifle-threat protection for highly volatile situations. The shape of the R1 gives the user a lightweight, ambidextrous, covered platform allowing for the use of either a handgun or long gun. The reduced weight of the R1 enables operators to engage threats and obstacles with less fatigue and greater success.

STANDARD FEATURES

- Black Polyurea Spray Coating
- Hybrid Composite Ballistic Construction
- Ambidextrous Straight Bar Handle
- High Strength Forearm Strap
- Closed cell Ambidextrous Foam Forearm Pad
- NIJ 0108.01 Rated III

OPTIONAL FEATURES

- Retro Single Switch Fox Fury 600 Lumen LED Light System with Strobe – 1.1 lbs
- Removable Agency ID Placard
- Carry Bag

COLOR OPTIONS FOR WMX1 & WMX6 BALLISTIC SHIELDS:

Ranger

Black

VENGEANCE IIIA WMX1

The WMX1 is an original Classic Cut VENGEANCE™ Series hard armor shield platform. WMX1 incorporates a tapered lower for deployment in tight or narrow spaces. The shield comes standard with our patented VENGEANCE™ viewport which enhances operator field of view at extreme close quarters. VENGEANCE series shields are deployed by over 2000 United States Marshals as well as hundreds of federal, state, and local law enforcement agencies.

STANDARD FEATURES

- Patented VENGEANCE™ Viewport
- Rigid Carbon Fiber Handle
- Large Single Curvature Ballistic Torso Protection
- Hybrid Composite COREBOND® Structural Ballistics

OPTIONAL ACCESSORIES

- Custom COREBOND® Large Format ID Lettering
- Elzetta TriDextrous or Straight Bar Handle Integrated 1000 Lumen LED
- Fox Fury Straight Bar Handle Integrated 1200 Lumen LED and Remote Pressure Switch
- Fox Fury Auxillary B30 600 Lumen LED Remote Pressure Switch
- Viewport Delete

WMX1 shown here with Elzetta Integrated light/handle option

VENGEANCE IIIA WMX6

The WMX6 is the next generation in our VENGEANCE™ Series hard armor shields. The patent-pending design reduces weight and increases speed of deployment resulting in high-speed protective GUNFIGHTER™ shields that allow rapid transition between weapon systems (less lethal, handgun and rifle). The Triple-V upper was designed by shield operators to aid maneuverability in close-quarter combat. While compact, the design affords ample ballistic torso and cranial coverage. The WMX6 GUNFIGHTER™ features our patented VENGEANCE™ viewport which enhances operator field of view at extreme close quarters and is deployed by over 2000 United States Marshals as well as hundreds of state and local law enforcement officers.

STANDARD FEATURES

- Patented VENGEANCE™ Viewport
- Patent Pending Triple-V Weapons Platform
- Rigid Carbon Fiber Handle
- Large Single Curvature Ballistic Torso Protection
- Hybrid Composite COREBOND® Structural Ballistics

OPTIONAL ACCESSORIES

- Custom COREBOND® LARGE FORMAT ID Lettering
- Integrated Handle/Lighting from Elzetta and Fox Fury

VENGEANCE III++ M855-GT

The VENGEANCE™ M855-GT series hard armor ballistic shield is an ambidextrous weapon mount design in threat level III++ rifle protection. Featuring advanced 100% composite construction, the VENGEANCE™ M855-GT eliminates fragile ceramic or heavy alloy components typically required to defeat the popular 5.56x45mm NATO SS109/M855 Greentip.

STANDARD FEATURES

- Patented VENGEANCE™ Viewport
- Flat Panel Ambidextrous Weapon Mount
- Straight Bar Handle
- Custom Molded Foam Armpad
- Heavy Duty Forearm Strap

OPTIONAL ACCESSORIES

- Custom ID Placard
- Viewport Delete
- 600 Lumen Auxiliary Lighting
- Shield Hook with MOLLE Attachment

BELLFIRE MTS

The HighCom Bellfire MTS Shield provides greater tactical visibility as firearms can be deployed from the right and left sides. The shield's special shape makes it easier for long-gun deployment, standing, kneeling, and prone positions. Manufactured in the USA, the MTS shield provides multi-hit protection from Level IIIA or Level III threats.

STANDARD FEATURES

- Protection: Level III Stand Alone Against rifle rounds
- Tested to Multi-hit capability (NIJ 0108.01)
- Handle: Lightweight ergonomically designed ambidextrous handle

OPTIONAL ACCESSORIES

- LED Light: Shield can be upgraded to include high power LED light and lithium-ion power. Please note LED light adds 2 lbs and is purchased separately

NEW THORBOARD™

Optically clear, ThorBoard™ ballistic shield provides vital protection while inside or outside of your vehicle. When in the door mount in the vehicle, the ThorBoard™ protects LEOs from ambush attacks. Flip the latch and the shield removes quickly and can be used to protect first responders during vulnerable events such as traffic stops, serving a warrant, and domestic violence. Its size and weight make it ideal to be used in confined spaces.

- 1 inch thick, 12" wide by 18" or 20" long vehicle window and door mounting accessories available
- Independently tested to stop most handgun rounds up to and including .44 Mag

BALLISTIC BLANKETS

- Comparable to Level IIIA Ballistics
- Outer Shell Constructed of 500 Denier Nylon Material
- Carry handles
- Rolls up and secures for ease of transporting
- Standard sizes include 2x6, 3x6, 4x4, 4x6 and 4x8
