

2024

I am honored to introduce our cutting-edge armor solutions that redefine functionality, comfort, protection, and appearance. At United Shield International (USI), we understand the critical importance of reliable protection in today's ever-evolving industry. Whether it's safeguarding the lives of military personnel, law enforcement officers, Security or Fire/EMS, our commitment to quality and performance is unparalleled.

Our extensive range of armor solutions is the result of years of research, development, feedback, and testing. We employ state-of-the-art materials and advanced manufacturing processes to ensure that our products meet the highest standards of quality, durability, and performance.

From ballistic vests and carriers to hard and soft armor panels, we provide comprehensive solutions tailored to the unique needs of our end users.

What sets United Shield apart from our competitors is our passion and commitment to customer satisfaction. We pride ourselves on delivering personalized service and working closely with our end users to understand their specific requirements. Our entire team is dedicated to providing solutions that exceed expectations.

As we continue to innovate and push the boundaries of armor technology and design, we remain steadfast in our mission to protect our protectors, with quality being at the forefront of that mission. At United Shield, we believe in protecting what matters most – the lives of those who rely on our products.

Thank you for your interest in United Shield. We look forward to the opportunity to show you what makes USI the best option when it comes to your functionality, comfort, protection, and appearance.

Sincerely,

Brian Banducci

President

United Shield International

Capabilities

United Shield is focused on providing superior ballistic protection with immediacy and accuracy to professional end users throughout the world. Headquartered in Traverse City, MI USA with over 80 years of collective experience and expertise in design, implementation and manufacturing of ballistic body armor, helmets, plates, shields and EOD/IED protective equipment.

Performance

Superior performance provides superior protection. United Shield uses world class ballistic materials with extensive testing data to manufacture products that exceed testing standards and customer expectations.

SPECTER GEN II WIRELESS LED

The industry exclusive wireless Specter Gen II LED shield light offers 5,000 lumens activated by a pressure pad or a wireless key fob. The Specter Gen II fully illuminates areas of operation using highly advanced LED technology. The Specter casts a 165-degree spread from 212 white LED light heads to eliminate darkened areas. Multiple lights can be linked together to deploy in unison. Three operational modes to include: constant on, constant turbo-strobe and green lowlight navigation providing the shield operator with flexibility in lighting depending on their surroundings.

Light removed from base plate

500 lumen green navigation mode detached from base plate

- Fully removable from base plate
- Wireless key fob (100 ft. line-of-sight)
- 3-hour runtime at constant burn, 50% output for 2.5 hours additional
- 1.46 lbs. including battery
- Waterproof
- Max beam distance 303 ft.
- Field serviceable battery access
- Magnetic charger

PLATE MATRIX

USI recognizes the risks our Law Enforcement Officers take every day as they serve the people of our nation. We are also cognizant of the ultimate sacrifice that these Officers may have to pay, either in injury or death in the line of duty. We are giving back to the community we serve by donating a percentage of sales under our “Back the Blue” program directly to law enforcement charities.

Rifle plates to meet every circumstance and situation, from Patrol to Special Teams, all threats are covered.

UPT CARRIERS

The UPT Moody variants offer progressive styling and function with enough built in storage to hold all the necessary equipment for daily use. Quick deployment of rifle plate and optional accessory zipper for the large expandable upper chest pocket provides easy and secure access to notebooks, cell phones and other immediate use tools. Load bearing external carriers provide comfort and officer health benefits by removing weight off the hips and lower back. These carriers provide more surface area to support the amount of equipment that is required by today's law enforcement personnel.

- Side opening armor system
- Top loading plate pockets – front and rear
- Adjustable shoulders and cummerbund
- Removable shoulder pads
- Dual front kangaroo pockets
- G-Hook adjustable cummerbund
- Accepts side armor
- Multiple closure options – AustriAlpin, Aspetto and Hook and Loop (page 36)
- Accepts tactical ballistic accessories (page 36)
- Front and rear placard attachments
- Front and rear wire routing ports
- Dual upper mic tabs
- Internal vent system
- Front dual camera mount

UPT CARRIERS

The UPT side opening armor system maintains a professional appearance while providing performance and function in styles for uniform, patrol, and tactical operations. Extensive features high-light carrier capabilities and optional accessories are available to customize based on operational needs. Having an external vest while driving in squad allows more room in drivers seat around waist area and provides more comfort on a day-to-day basis by removing traditional weight of belt mounted equipment and increasing weight disbursement over the entire upper torso.

UPT CARRIER - MOUNTAIN VARIANT

The UPT Mountain variants allow for badge placement on the upper left chest. Traditional uniform pleated pockets or MOLLE front give agencies the flexibility to decide on visual appearance. Both options provide performance and function exceeding the needs of the officer. UPT external carriers provide better overall officer health and wellness by allowing extra weight to be placed on shoulders and removing items from the duty belt.

UPT CARRIERS

The UPT Turnout outer carrier was developed to offer the end user a one size fits most carrier. Offering 360-degree MOLLE attachment points with modularity to adapt to mission needs with maximum flexibility. This vest includes our unique G-hook attachment system and a hidden bird mouth closure which allows the vest to shrink and expand to fit an individual with a mid-section ranging from 30" up to 72". This carrier system accepts front, back and cummerbund armor.

- Optional Hi-Viz reflective
- Side opening armor system
- Top loading plate pockets
- Adjustable shoulders and cummerbund
- Removeable shoulder pads
- Dual front kangaroo pockets
- G-Hook adjustable cummerbund
- Accepts side armor
- Multiple closure options – AustriAlpin, Aspetto and Hook and Loop (page 36)
- Accepts tactical ballistic accessories (page 36)
- Front and rear placard attachments
- Front and rear wire routing ports
- Internal vent system
- Dual upper mic tabs

SAVAGE SCALABLE ACCESSORY SYSTEM

[Click Here to Learn More](#)

The Savage Scalable Accessory System (SSAS) changes the way an operator approaches armor accessory use and deployment. Don and doff accessories in a matter of seconds. Fully scalable options allow for the operator to retain all accessories attached to one component. Useable under any vest or plate carrier this versatile design is sculpted around the muscular and skeletal system for comfort and maximum maneuverability.

EOD EQUIPMENT

OLYMPIA BOMB DISPOSAL SUIT

The Olympia bomb suit is United Shield's latest and most advanced design of bomb suit. It is a complete EOD/IEDD ensemble and provides the highest levels of protection from the four main threats encountered by EOD/IEDD operators of fragmentation, overpressure, impact and heat.

The outer material is constructed from certified flame retardant material, such as Nomex® Delta T, and this material can also be used to cover the bomb suit helmet, providing optimal protection for EOD/IEDD operators from the flammability associated with blasts from explosive devices.

A key feature of the Olympia bomb suit is its zonal armor system, which provides outstanding blast protection with maximum mobility, flexibility and comfort. The highest protection level is afforded to life critical areas of the body, such as the neck, chest and groin, with STANAG 2920 V50's ranging from 1,900 m/sec to 450 m/sec. These levels of protection can be adjusted to suit individual customers needs.

Size Lg weighs 63.3 lbs

BOMB SUPPRESSION KIT WITH SAFETY CIRCLE

The United Shield Suppression Blanket and Safety Circle has been designed to provide portable, flexible, lightweight and compact means of protection from EOD to IEDD devices. It is tough and durable, manufactured from multiple layers of treated aramid ballistic fabric and sewn into a Fire retardant and Water repellent outer cover. It can be quickly and easily folded for storage, while webbing carry handles make for ease of transportation and rapid deployment.

BALLISTIC BLANKET

RIOT GEAR

BS-2 RIOT SHIELD

The BS-2 Riot Shield is a hand held body shield with ergonomic features. The BS-2 has an I.D. label that can be made custom to the customer. The ergonomic handles allows 2 handled use for extreme circumstances. The handle and break away strap are dielectric to prevent electrical pass through and can be reversed or left or right hand use. The wide nylon arm strap is easily adjustable while in use. The shield has superior optical quality and workmanship.

SIZE
20" x 36"

WEIGHT
6lbs.

HAZARD ASSESSMENT
Impact, Splash, Fragments

BS-3 RIOT SHIELD

The BS-3 Riot Shield is a hand held body shield with ergonomic features. The BS-3 has an I.D. label that can be made custom to the customer. The ergonomic handles allows 2 handled use for extreme circumstances. The handle and break away strap are dielectric to prevent electrical pass through and can be reversed or left or right hand use.

The wide nylon arm strap is easily adjustable while in use. The shield has superior optical quality and workmanship.

SIZE
24" x 48"

WEIGHT
8.5lbs.

HAZARD ASSESSMENT
Impact, Splash, Fragments

CS-4 CAPTURE SHIELD

The CS-4 Capture Shield is a hand held body shield with ergonomic features. The CS-4 has an I.D. label that can be custom to the customer. The strong double handles allow a firm grip under various conditions. This shield has superior optical quality and workmanship. This product is unique in that the design allows two people to grip with both hands on each handle. When extra holding power is needed and the handles are dielectric to prevent electrical pass through. Designed and tested exclusively for cell extraction.

The wide nylon arm strap is easily adjustable while in use. The shield has superior optical quality and workmanship.

SIZE
24" x 48"

WEIGHT
7lbs.

HAZARD ASSESSMENT
Impact, Splash, Fragments
