About Us

Established in 2007, the Electric Quahogs is a FIRST Tech Challenge robotics team, based out of the Wheeler School, in Providence, Rhode Island. Our team is made up of sixteen high schoolers who are passionate about engineering, coding, community outreach and more.

We aim to create an innovative, welcoming and creative environment to motivate our members to achieve their personal and team goals.

What is FTC?

FIRST Tech Challenge (FTC) is a robotics competition for 7th–12th graders in which teams design, build and program robots that are equipped to overcome challenges during each year's competition. Students are also encouraged to host outreach events and to meet with STEM professionals. We are proud to be one of the many FTC robotics teams in the Rhode Island region!

We are more than just robotics!

Our team emphasizes community outreach, as we strive to continue to impact those around us. In the past, we have hosted STEM workshops for younger students, participated in large-scale events, including Providence's WaterFire Festival, and started and mentored elementary school robotics programs. Our focus is promoting diversity and inclusion in STEM and introducing robotics to the next generation of engineers, builders, and coders.

Team Achievements

2022, 2024 & 2025 Rhode Island State Champion

2025 Rhode Island Inspire Award Winner

Finalist in the Connect Award at the 2024 & 2025 World Championship

4x competitor at the World Championships

Why sponsor us?

We seek financial support to purchase new robot parts, obtain materials for outreach events and pay for competition fees. We truly appreciate any and all monetary contributions made to our team!

Sponsorship benefits

Below are some of the many ways in which we promote the companies that sponsor us during competitions and community events!

Company logos on our robot.

Company logos on our jerseys.

Company logos on our large banners.

Regardless of how you choose to financially support our team, please contact us to inform us of your donation!

How to give

1. Give by check

Please make checks out to "The Wheeler School" and deliver or mail to: The Wheeler School
Attn: Gift Processing - Robotics Team #252

216 Hope Street
Providence, RI 02906

2. Donate online

Go to: <https://www.wheelerschool.org/sponsor-wheelers-robotics/>

In the box that is titled, "Share your message of support for Wheeler Robotics" please write, "Sponsorship for team #252."
