

AI Workflow Case Study Pack

for Business Owners

Cut Costs. Scale Faster. Automate Everything.

"Build Workflows. Build Freedom."

Powered by n8n, Claude AI, and ChatGPT

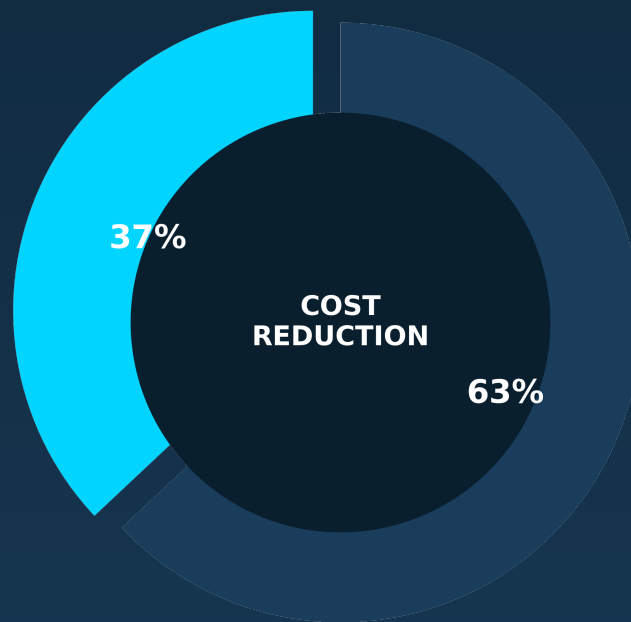

EXECUTIVE SUMMARY

The Business That Never Sleeps

Smart business owners are scaling faster — not by hiring, but by automating.

Automation with AI tools like n8n, Claude, and ChatGPT saves 10–40% in costs by reducing repetitive tasks and unlocking performance insights.

AMDR Automate AI delivers custom workflows that bring immediate ROI to digital agencies, e-commerce brands, and consulting firms.

37% Average Cost Reduction within 60 Days

CASE STUDY #1 • DIGITAL MARKETING AGENCY

How a 6-Person Agency Doubled Client Capacity Without Hiring Anyone

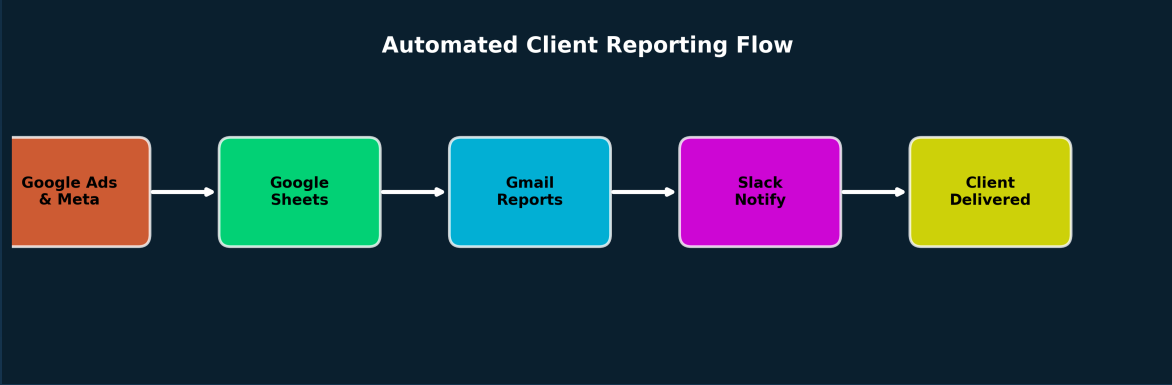

INDUSTRY Marketing & Creative Services

Challenge

The team spent over 20 hours weekly on manual client reporting, CRM follow-ups, and invoicing.

Solution Implemented

- 1. Client Reporting Flow — n8n connects Google Ads + Meta + Google Sheets → automated weekly report emails
- 2. CRM Follow-Up Bot — ChatGPT drafts and sends personalized follow-ups
- 3. Invoice Workflow — QuickBooks auto-generates invoices and alerts Slack

Metric	Before	After	Change
Client Load	15	30	↑ 100%
Admin Time	20 hrs	8 hrs	↓ 60%
Response Speed	48 hrs	5 hrs	↓ 90%

"We grew faster without adding staff. Our reporting and follow-ups now happen while we sleep."

— Tanya L., Co-Founder, PixelWave Digital

CASE STUDY #2 • E-COMMERCE BRAND

Saved 30% in Operations by Automating Customer Support & Inventory Tracking

Challenge

Manual inventory updates, refund emails, and fulfillment tracking created delays and errors.

Solution Implemented

1. Shopify → Slack → QuickBooks automation for inventory and finance
2. AI Chat Assistant using ChatGPT to answer product and refund queries
3. Automated Refund Flow — Gmail triggers approval + ledger entry

Results Summary

Operational Cost:	\$10,000/mo	→	\$7,000/mo	↓ 30%
Support Tickets:	100/day	→	65/day	↓ 35%
Repeat Orders:	—	→	+15%	↑ 15%

CASE STUDY #3 • CONSULTING FIRM

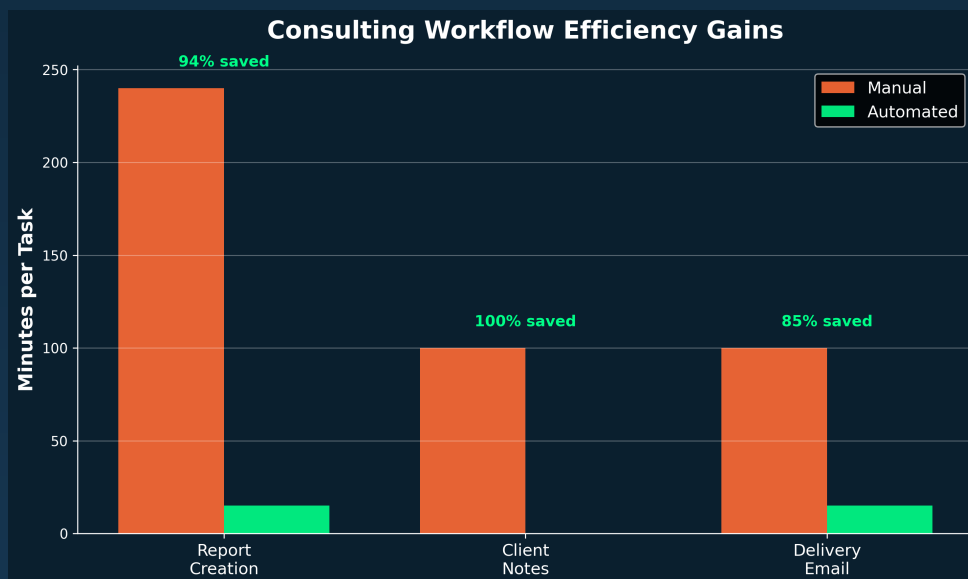

Reduced 4-Hour Weekly Reports to 15 Minutes Using Claude AI

Challenge

Consultants spent hours manually summarizing meeting notes and writing reports.

Solution Implemented

1. Google Meet → Claude AI → Google Docs auto-summary pipeline
2. Docs shared automatically with clients via Gmail + Notion integration
3. KPI Tracker logs next actions for follow-up

"Our reports now write themselves. Clients receive recaps minutes after meetings."

— Senior Consultant, Apex Advisory Group

AUTOMATION ROI FRAMEWORK

Top 5 Workflows by ROI Impact

Businesses implementing 3+ AI workflows saw an average 40% gain in throughput within 90 days

IMPLEMENTATION ROADMAP

From Chaos to Control

in 3 Phases

1

AUDIT

Identify top repetitive workflows eating time.

2

BUILD

Deploy automation using n8n + AI integrations.

3

SCALE

Integrate analytics dashboards & optimize ROI.

Cut Costs. Scale Faster.
