

4D TECLASER (2400W / 1600W / 600W) DIODE LASER HAIR REMOVAL SYSTEM

HAIR REMOVAL SERIES | 01 · 02

The most advanced diode laser hair removal system that combines 4 wavelengths to permanently and safely remove any type of hair on all skin types.

The high energy density and advanced cooling system make the hair removal procedure much faster and pain free. The device leverages the benefits of 4 combined wavelengths 755nm & 808nm & 940nm & 1064nm, with an improved patient experience and a business-oriented approach, creating a new solution in the world of professional hair removal.

WORKING THEORY

4D TECLASER hair removal System, adopts the light selective absorption theory, heating the hair shaft and hair follicle to destroy the hair follicle and oxygen organization around hair follicle, thereby to get the permanent hair removal purpose.

755nm Light-colored and thin hair.

808nm Golden standard for all skin types and hair colors.

940nm coagulates the microvessels around the hair follicle, cutting off the nutrient supply of hair follicles.

1064nm A perfect solution for darker skin types.

INTUITIVE AND USER-FRIENDLY INTERFACE

Customized for male and female.
For all skin types I - VI.
5 cooling levels adjustable.
Multi languages menu.

HANDPIECE

Handpiece comes with a smart touched screen and parameters can be displayed and set freely on hand-piece as well.

FACIAL TIP (Optional)

Easily treat areas that are normally hard to reach, including the ears, nostrils and glabella.

BEFORE & AFTER

SPECIFICATIONS

Frequency	1-10Hz adjustable
Cooling	Air + Water + TEC
Laser Type	755nm/808nm/940nm/1064nm
