# COURAGE HEART ATTITUDE DIGNITY

I am a warrior – a fighter with extraordinary determination. My strength does not come from medals or victories, but from what I have experienced in life. As early as in primary school, I had to battle – because I was different. That time was challenging, but it also strengthened me mentally. I learned to stand up for myself – calmly, clearly, with dignity. I am not defined by what others say, but by what I believe in.

I fight for my team, my dreams, and my values. At the same time, I am sensitive and often smile – because I have learned that a smile fosters strength and that an open heart can be the most powerful weapon.

# MY PASSION

My heart belongs to fencing, a traditional Olympic sport with three disciplines – foil, sabre, and épée. I specialise in the épée, where the entire body, from head to toe, is a valid target. Whoever masters a touch first, scores the point.

However; If both fencers touch within just 40 milliseconds, both receive a point. This makes épée fencing so tactically demanding – truly a sport of precision, control and courage.

# MY STORY

My athletic journey did not begin on the strip, but in the water. As a young girl, I was devoted to swimming – until my mother took me to a fencing tryout. It was love at first sight.

At the age of eight, I joined the Bern Fencing Club. Today, I am one of Switzerland's brightest young prospects with a clear goal in sight: The 2028 Olympic Games in Los Angeles.

# OUR PERSPECTIVE

Rooted in the Seeland region, at home on the fencing strips of this world. While proud of my origins, my ambition drives me towards the most important international competitions on the planet. Fencing is my passion, it's in my heart, which in turn fuels my motivation and commitment to one day belong to the best in my sport.

## **WOULD YOU LIKE TO JOIN ME ON THIS JOURNEY?**

As a confident and upbeat young athlete, I embody the values formed in our region. Values, which I hope to represent on the national and international stage, including the Olympic Games, over the next decade or so.
