PROFESSIONAL SUMMARY

A Mechanical Design Engineer with over 2.4 years of experience specialising in Process and Instrumentation Diagram (P&ID) design and process layout optimisation. Skilled in using advanced design software, including CADISON and AutoCAD Plant 3D, with hands-on experience transitioning between platforms to streamline workflows and improve productivity. Adept at collaborating with multidisciplinary teams to deliver innovative and efficient design solutions. Committed to applying technical expertise and problem-solving skills to drive project success and organisational growth.

Desmet / Cadd Engineer

September 2022—PRESENT, Bangalore

Proficiently designing Process and Instrumentation Diagrams (P&ID) using CADISON software.

Played a key role in transitioning from CADISON to AutoCAD Plant 3D, ensuring smooth shifts in workflows and processes.

Demonstrated expertise in instrumentation layout, contributing to efficient project execution.

Collaborated with cross-functional teams to meet project goals and deadlines, ensuring timely delivery of solutions.

INTERNSHIPS

Western India Plywoods Pvt Ltd

Completed a one-week internship, gaining insights into mechanical design processes.

Green Wind and Solar Powertech Pvt Ltd

Completed a one-week internship, contributing to renewable energy design and development.

Education>

Master Diploma in Product Design and Analysis

2021, Bangalore

Bachelor of Technology in Mechanical Engineering

(B.Tech) Degree

College of Engineering and Technology

2020, Payyanur

12th Grade (Science)

2015, GHSS Chuzhali

Awards >

Individual Reward

2023, Desmet-Bangalore

2D P&ID

Focus on Excellence in Execution, Leading to best quality output for P &IDs

Extra-Curricular Activities >

-
- NSS Volunteer (2016-2018)
 - Arts Programme Coordinator

Languages >

-
- English
 - Malayalam
 - Kannada
 - Tamil and Hindi
