

# Angel of Truth

## Respect for life / Immortality – Innativity

To be an Essene / an Essene woman actively participating in the divine worksite, you must know that death is an illusion and that life is superior to death.

Life is eternal. Life is God. Life is beyond birth and death.

Life is your being, your essence, your source.

In your consciousness, you must identify yourself with life and live one with it, and not with death by identifying yourself with what is false.

In no case must death govern your life, instruct you or influence you, but you must not for all that despise life in the body and the person who was born of the body.

God is life, your eternal and immortal self.

In all that lives, it is the immortal being truth that manifests itself.

To respect life even in matter, the body and the person is to honor God and His laws, His will.
