

New teachings to better understand the intelligence of Gabriel's necklace

The text that follows comes from the book, *The Archangel Gabriel Biography...* on pages 147 and following.

In 2005, Olivier Manitarra, seeking to understand the full significance of this sacred necklace of 12 pearls, said to the Archangel:

O my Father, I would like to understand what the necklace of 12 pearls represents.

The Archangel Gabriel answered:

In reality, man was created in 12 stages. These 12 stages of creation were engendered both by the Divine and by a being separated from God. Thus, each stage in the creation of the body of man included 2 facets. There was the form and the inside of the form.

The form descended, became condensed from the subtle toward the thick through the intermediary of a pattern. It came as the materialized thought of a color, a sound, a virtue, a principle, an orientation, a functionality.

Consequently, in each form there exist a dark side: the body without the soul, and a luminous side: the soul without the body. The luminous side allows the body to be living and to exist according to a divine concept.

The 12 pearls, for their part, speak of the path inverse to that of the creation of the body. They indicate how to find again the origin of the body by asking questions such as: What does a hand correspond to? What are its functionality, its virtue? What are its "color" and its etheric form?

He who knows the true functionality of each part of his body and each stage of its creation will discover the mystery of man. It is for this reason and according to this orientation that I would like man, intellectually and then inwardly, to know how he is constituted, and how he can find again the Divine.

The 12 pearls correspond to the typical patterns of the creation of a body or again of a man.

Olivier Manitaro asked the Archangel Gabriel:

O my Father, does this correspond to the science of the zodiac?

The Archangel Gabriel answered:

The science of the zodiac constitutes only one part of this knowledge. It concerns a more subtle aspect of the body, but it is possible to relate it to the ebb and flow and the influences that direct an individual. The key of the zodiac is the breathing that exists between the outer aspect of the organ and its divine side. If one studies the stars, the influences of the planets, one understands in what way one must “breathe” in certain organs.

Olivier Manitaro asked:

Father Gabriel, what is the role of the necklace of 12 pearls?

The Archangel Gabriel answered:

The necklace and the 12 pearls correspond to the path that must be travelled by man to find again the structure and the order according to which he was constituted.

When man was created, Lucifer began with the feet [in relation with the zodiacal sign of Pisces] and ended with the head [in relation with the sign of Aries]. Thus he conceived the 12 parts of the body of man attached to the 12 signs of the zodiac in a fall, an attraction downward.

He who succeeds in understanding these 12 signs in their virtues can also understand the path of the return toward God, conceive the perfect man, the man whose virtues are exclusively turned toward the Divine.

Olivier Manitaro asked:

Father Gabriel, by speaking to me of the 12 signs, of the 12 virtues of the zodiac, do you mean that the task of man is to unite himself with the universe?

The Archangel Gabriel answered:

Exactly. He must pass through the 12 virtues, or again my 12 pearls. Remember the story of Jacob's ladder. To understand the creation of man, one must rather consider this ladder and what it represents seen from above. From that place, it is possible to contemplate the zodiac and the 12 signs marking out the path from heaven to earth.

From this point of view, it is easy to guess why Lucifer created man according to this specific structure. He conceived him so that he might become a god on the earth, a god separated from God. He gave him all the keys, constituted and placed in each individual all the traces or the seeds necessary so that he might become that, in the image of Seth who wanted to reign over this world. But since Lucifer is a being created by God, he has always left in his works, involuntarily, a divine part. Because of his nature, he considers this aspect as dark.

On the other hand, for us, the divine world, this part is the Light, the hope and the spark that allows nothing to die. In any case, one must understand that if this flame, if this luminous part were not there, Lucifer could not live. He could not draw from it a strength that he needs in order to manifest himself.

Olivier Manitaro asked:

Father Gabriel, can you teach me the 12 magical forces that allow man to find again the path of his origin?

The Archangel Gabriel answered:

These 12 forces are:

The Angel of Truth: the awakening to the omnipresent life of the Father in each thing, the respect of life.

The Angel of Love: to love as God loves, beyond earthly appearances.

The Angel of Wisdom: conscious speech in the 2 worlds.

The Angel of Openness: the discernment that purifies receptivity and the magical influences that man encounters.

The Angel of the Hidden: the power of inner peace that causes heavenly order and harmony to reign in outer life.

The Angel of Communion: thought as manifestation of the presence of the divine world in man, being at the service of this creative thought and cultivating trust in the omnipresence of God, being transparent before Him.

The Angel of Equilibrium: inner equilibrium and liveliness of spirit.

The Angel of Individuality: faithfulness to the presence of God in oneself through all the positive or negative situations of life.

The Angel of Justice: subtle courage, sacred commitment, the determination to serve the great Good for the good of all beings.

The Angel of Universality: the consciousness of the true and eternal Being in oneself, which remains beyond all mortal possessions.

The Angel of Peace: to recognize God where He is, and to bind oneself to Him in the concrete world.

The Angel of Purity: through the conscious act, to seek the perfection of the manifestation of the presence of God.

It is thus that the Circle of the 12 appeared, the 12 Angel-Fathers of Gabriel's necklace, who would later become the heaven of the Essenes.
