

Psalms of Archangel Michael

285 Be the Parent of God.

1. The circle of sages is a sacred government on earth and a union of parents who aspire to give birth to God and to take care of Him.
2. Man comes on earth as a child, he is welcomed by his parents and a community. He is educated until becoming an adult, consciously individualizing to finally become a parent.
3. To be a parent is to be ennobled, it is to be respectable and respected.
4. A parent takes care of the other and gives his life for the good.
5. To be a parent is not only to take care of life in the physical aspect. Of course, it is important to accompany the material life to make the child autonomous, but one must also feed and transmit what has value, what is worthy, respectable, wise, intelligent and divine.
6. God must have His part, be fed and taken into account, for He is the peak, the summit, the meaning, the beauty of life.
7. The universal religion feeds God. Science and culture feed the intelligence and the senses, and raise them into the higher worlds of immortality. Social life feeds love and balances relationships. Economy feeds the will and right exchanges. Daily life makes the worlds that live around man appear and write his destiny.
8. A parent transmits what he is in his daily life to the earth and to the future generations. His thought, his speech and his actions are an active fecundation in the life of the beings who are under his responsibility and that is why, by creating the circle of sages, you must be aware and study the role of being a parent.
9. A parent must support the physical body and the daily material life of a being so that he has all the conditions to live and develop on earth. It is the first stage, and I ask to all those who aspire to commit to taking care of the body of God to meditate on this commitment.
10. To be a parent is an honour, but it is also a commitment and a responsibility. To join the circle of sages is to take this commitment for the body of the Essene Nation. You will have to carry this body and give it the necessary elements for its healthy and harmonious development.
11. Once you will have joined this circle dedicated to the Light, your mission will become even greater, for wisdom is taking care of the body, but also the soul and

the spirit of God. You will have to bring what is higher to the life of man through clarity, a field of life and pure breathing, delicious nourishment, a blessing of love, a wise protection. Then you will become a circle of wise parents, carrying and offering the intelligence of the psalms in clarity, devotion, impersonal and pure service. In this way you will have restored the tradition, the lineage, the filiation of Enoch on earth and you will be worthy to be clothed with the light of the Essenes, that is, you will be true parents and grand-parents on earth and in all the worlds. This is worthy, noble, wise, just, magnificent.

12. The highest that man can reach on earth is to be a parent of God, give birth to Him, take care of Him, educate Him, and let Him free to restore His eternal royalty on earth. It is this path that will open the gates of the immortal light in all the worlds to you. All the worlds will see that your being, your speech have a value, a much bigger and honourable meaning than the world of man limited to death.
13. The intelligence, the speech and the behaviour of the true man are much greater than death.
14. Some among you will say: "I am not able to be a parent and take on such responsibility." I answer that in the life of man everything is done by stages and that each one must go forwards according to his path and his abilities, but there is nothing more beautiful than taking care of God, than to be His parent.
15. When entering into old age, every man should want to become wise and aspire to walk on this path of purely serving God. This is the path of the ultimate fulfillment.
16. The body of the Essene Nation offers you this opportunity to serve God in a concrete way, this is inestimable.
17. If in your mortal life you do not have this blessing of being a parent, then, through the strength and the unity of the holy Essene congregation, together, you can, each one of you at your level, take part, support, help, and ensure that this divine, universal and beneficial work is carried out until becoming obvious over all the earth and in front of all consciousnesses.
18. Through the holy congregation, you will be able, each one, to become honourable and form a living body for wisdom, which you will transmit to a multitude and to the future generations through the body of the Essene Nation, which will last and continue to act even when you will no longer be on earth.
19. The intelligence of the Archangels and the wisdom of the worlds will inspire you and you will lead men to be seeded by the good seeds.
20. Do not be like these parents who are ignorant because they have been baldly educated pass on or let be passed on flaws, weaknesses to their children.

21. Everything has been given to you to take your life in hand and to make another future appear. So, commit to support the work of the Essene Nation while knowing that this path is greater than the mortal life of man.
22. Write and make what you truly are in the superiority of the worlds appear on the earth of men.

Olivier Manitarra then asked Archangel Michael:

Father Michael, what do we do if beings not necessarily knowing the Essene Nation well want to support it in its material development without wanting to commit entirely? Can they become parents as you teach it?

Archangel Michael answered:

23. The circle of sages is dedicated to immortality. It is a conscious and free engagement in front of God and for God. Then, there are many degrees, for when a being commits with his heart, honestly and faithfully, he opens the royal path for a multitude that will come after him.
24. Remember that there are always beings who will walk in your wake and for whom you will be pioneers.
25. Each one has his path, and it is certain that there are those who are only able to help physically. They are welcomed. Others will be able to help physically and be active in the invisible worlds. Others will only be able to help in the subtle worlds. Each one must find his place and each one must be honoured for his contribution, recognized and blessed.
26. Mutual support must be alive and well organized so that no being who helps the Essene Nation is abandoned.
27. The visible and the invisible must be in balance so that the work is powerful on earth and that it can be passed on to the future generations with purity and fulfilment.
28. All those who will physically help must be blessed by the holy college of the invisibles so that protection, prosperity, success and magical power are always with the Essenes.
29. It is fundamental that this path is open so that men know another choice for old age.
30. Man must enter into old age with wisdom, respectability, honour, moral beauty, dignity, contribution to the Common Good and immortality. He must be a parent, a grand-parent, a carrier of words of wisdom that free from the darkness, that heal and open a path to God in truth and purity. Be aware that this is an opportunity that you must take hold of in order to make it become real. Become parents, for there is nothing more important in your life.

31. The mission of man on earth is to make a world appear that will be carried by a lineage. Do it consciously in order to choose the one that corresponds to the vision that seems the most just and the most beautiful to you.
32. Through contact with the psalms and with the worship of the statue of God the Light, awaken your intelligence, give a universal soul to your speech, strengthen your will in bravery and transmit a world, a tradition, a religion, a culture, a noble, straight, honest, immortal and dignified path to the future generations, freed from all obscurities and dark energies.
33. You who are going to commit in this circle of sages, of parents, of carriers of the word of God, be welcomed. The doors are open, the immutable path is again in place, the work is great and the blessing will be fulfillment and sweetness in your life.
